A Companion to Modern and Contemporary Latin American and Latina/o Art
Alejandro Anreus, Robin Adèle Greeley, Megan A. Sullivan, 2021-11-09
In depth scholarship on the central artists' movements and themes of Latin American art from the Mexican revolution to the present, *A Companion to Modern and Contemporary Latin American and Latinx Art* consists of over 30 never before published essays on the crucial historical and theoretical issues that have framed our understanding of art in Latin America. This book has a uniquely inclusive focus that includes both Spanish speaking Caribbean and contemporary Latinx art in the United States. Influential critics of the 20th century are also covered with an emphasis on their effect on the development of artistic movements. By providing in depth explorations of central artists and issues alongside cross references to illustrations in major textbooks, this volume provides an excellent complement to wider surveys of Latin American and Latinx art. Readers will engage with the latest scholarship on each of five distinct historical periods plus broader theoretical and historical trends that continue to influence how we understand Latinx Indigenous and Latin American art today. The book's areas of focus include: The development of avant garde art in the urban centers of Latin America from 1910-1945; The rise of abstraction during the Cold War and the internationalization of Latin American art from 1945-1959; The influence of the political upheavals of the 1960s on art and art theory in Latin America; The rise of conceptual art as a response to dictatorship and social violence in the 1970s and 1980s; The contemporary era of neoliberalism and globalization in Latin American and Latino Art 1990-2010. With its comprehensive approach and informative structure, *A Companion to Modern and Contemporary Latin American and Latinx Art* is an excellent resource for advanced students in Latin American culture and art. It is also a valuable reference for aspiring scholars in the field.

Neo-Avant-Garde, 2016-08-01
The neo avant garde of the 1950s, 60s and 70s is due for a thoroughgoing reassessment. This collection of essays represents the first full scale attempt to deal with the concept from an interdisciplinary standpoint. A number of essays in this book concentrate on fine art, particularly painting and sculpture, thereby adding significantly to the growing art historical literature in the field, but a number of the contributions also focus on poetry, performance, theatre, film, architecture and music. Given that there are also major essays here dealing with geographical blindspots in current neo avant garde studies, with thematic issues such as art's entanglement with gender, mass culture and politics, with key neo avant garde publications and with the purely theoretical problems attaching to the

theorisation of the topic this collection offers a multi dimensional approach to the subject which is noticeably lacking elsewhere Taken together these essays represent a consolidated attempt at re thinking the cultural logic of the immediate post World War II period *The Visual Arts and Christianity in America* John Dillenger,2004-09-13 How has religion affected the creation and patronage of American art This is the question explored in *The Visual Arts and Christianity in America* the most comprehensive treatment of this subject to date With its 184 illustrations the volume is a visual and textual survey of both the religious paintings statuary and architecture produced in America since colonial times and the attitudes toward such art expressed by the artists the clergy and the religious press By means of a multifaceted approach that includes investigation of biographical journalistic art historical as well as religious literature a broad range of art objects and buildings are carefully placed in their social and intellectual context Part One presents the colonial backdrop both English and Spanish against which and out of which the ensuing developments in American art and religious life took shape Part Two treats nineteenth century views of art and architecture focusing on the views held by the clergy and conveyed in religious journals as well as the religious views of the artists and architects themselves In Part Three devoted to art in private and public life major issues emerge that will remain as such into the twentieth century the relation between nature and history the place of art in civil religion and the presence or absence of explicit biblical themes The fourth and entirely new portion of the book devoted to the twentieth century examines the continuities and discontinuities in style and content between nineteenth and twentieth century art in relation to spiritual and religious perceptions **Jewish Latin American Artists** ,2025-09-18 Jewish visual artists living and working in Latin America during the 20th and 21st centuries broaden an appreciation of the art of the Americas The anthology addresses an often underacknowledged Jewish presence as part of the aesthetic of the global south providing the general public and scholars with in depth insights The artists dynamic prints sculptures paintings and photographs explore aspects of modernist abstraction and at times indigenous materials sardonic commentary on consumerism and utopian ideals in their works of art The anthology begins to fill a void of the contribution of Jewish Latin American artists born in Europe who immigrated to Latin America and others born there *American Literature in Context* Andrew Hook,2016-05-20 First published between 1982 and 1983 this series examines the peculiarly American cultural context out of which the nation s literature has developed Covering the years from 1865 to 1900 this third volume of *American Literature in Context* focuses on the struggles of American writers to make sense of their rapidly changing world In addition to such major figures as Walt Whitman Henry James Emily Dickinson and Mark Twain it analyses the writings of an unorthodox economist Henry George a Utopian reformer Edward Bellamy and a critical sociologist Thorstein Veblen Particular attention is paid to the challenge to conventional literary and cultural values represented by writers such as William Dean Howell who pursued a new form of scientific democratic realism in American writing This book will be of interest to those studying American literature and American studies **American Paintings** Metropolitan
