Art Corner:

Art School Steven Henry Madoff, 2009-09-11 Leading international artists and art educators consider the challenges of art education in today's dramatically changed art world. The last explosive change in art education came nearly a century ago when the German Bauhaus was formed. Today dramatic changes in the art world, its increasing professionalization, the pervasive power of the art market and fundamental shifts in art making itself in our post Duchampian era combined with a revolution in information technology raise fundamental questions about the education of today's artists. *Art School Propositions for the 21st Century* brings together more than thirty leading international artists and art educators to reconsider the practices of art education in academic, practical, ethical and philosophical terms. The essays in the book range over continents, histories, traditions, experiments and fantasies of education. Accompanying the essays are conversations with such prominent artist educators as John Baldessari, Michael Craig Martin, Hans Haacke and Marina Abramovic, as well as questionnaire responses from a dozen important artists among them Mike Kelley, Ann Hamilton, Guillermo Kuitca and Shirin Neshat about their own experiences as students. A fascinating analysis of the architecture of major historical art schools throughout the world looks at the relationship of the principles of their designs to the principles of the pedagogy practiced within their halls. And throughout the volume attention is paid to new initiatives and proposals about what an art school can and should be in the twenty-first century and what it shouldn't be. No other book on the subject covers more of the questions concerning art education today or offers more insight into the pressures, challenges, risks and opportunities for artists and art educators in the years ahead. Contributors: Marina Abramovic, Dennis Adams, John Baldessari, Ute Meta Bauer, Daniel Birnbaum, Saskia Bos, Tania Bruguera, Luis Camnitzer, Michael Craig Martin, Thierry de Duve, Clémentine Deliss, Charles Esche, Liam Gillick, Boris Groys, Hans Haacke, Ann Lauterbach, Ken Lum, Steven Henry Madoff, Brendan D. Moran, Ernesto Pujol, Raqs Media Collective, Charles Renfro, Jeffrey T. Schnapp, Michael Shanks, Robert Storr, Anton Vidokle. [Chakshudana or Opening the Eyes](#) Pika Ghosh, Pushkar Sohoni, 2023-09-20 Chakshudana or rituals of opening the eyes are practiced across multiple South Asian communities by artists, sculptors and priests. The ritual offers gods access to the mortal world. This practice applied to the study of material and visual culture offers a distinctive perspective to interrogate the complex engagements with paintings, sculptures, found objects, fragments, built environments and ecologies. This volume takes the process of seeing as its focus to look closely, remaining true to the object but also to see widely from multiple subjective stances and diverse bodily engagements such as walking to dreaming, glancing to looking askance, hypnotic stares and to see beyond the visible. It examines art history through nuanced considerations of materiality, aesthetics and regional specificities. The essays emerge from current research that builds on the contributions of Michael W. Meister, W. Norman Brown, Distinguished Professor of History of Art and South Asia Studies at the University of Pennsylvania, whose works laid the foundations for the study of South Asian visual and material culture. The essays in this book underscore methodological resonances rather than
