Handbook of New Religions and Cultural Production, 2012-03-28 The cultural products of new religions and spiritualities are frequently ignored or dismissed within academia, often stemming from a hesitation to acknowledge these movements as genuine. This volume explores the impact of new religions upon cultural production, exemplifying the theological and spiritual principles of particular movements and demonstrating their substantial impact on wider society. Contributions explore the realms of music, architecture, food, art, books, films, video games and more. This scholarship will be of interest to those who wish to explore the gamut of modern religious expression and those who wish to broaden their knowledge of the spiritual origins of human culture.

The Privatisation of British Rail, Sean McCartney, John Stittle, 2023-05-23 The privatisation of the British railway industry was a unique political and economic event. An integrated industry was broken up into numerous component parts and sold off to private sector interests. The result was a highly fragmented industry that was structurally unsound and operationally dysfunctional. This authoritative volume presents an enlightening portrait of an industry that is less efficient, more costly and still more dependent on state subsidy today than its nationalised predecessor. The nine chapters in this work present a comprehensive and rigorous evaluation of how and why the industry has become so dysfunctional and costly, supported by detailed financial analysis and industry examples. Seven chapters comprise a series of peer-reviewed academic papers by Professor McCartney and Dr Stittle and published in leading international journals over the period 2004-2017, which analyse selected key segments of the privatised industry where appropriate updates are provided at the end of these chapters outlining developments since initial publication relevant to the analysis therein. Two chapters are published here for the first time. Chapter 7 reviews the performance of the freight sector while Chapter 1 bookends the volume by providing first an account of how rail privatisation was conceived and implemented in the 1980s/90s and then reviews the impact of the pandemic and the proposals of the Williams-Shapps White Paper of 2021, which if enacted will effectively end the Major government's experiment. Going far beyond the usual superficial analysis of the topic, this volume will be of significant
