Armageddon In The West:

The Re-Enchantment of the West, Vol 2 Christopher Partridge, 2006-06-20 Challenging some assessments of religion in the West this study argues that although much organized religion particularly Christianity is in numerical decline in actual fact we are witnessing an alternative spiritual re enchantment of society and culture *The Idea of Decline in Western History* Arthur Herman, 2010-06-15 Historian Arthur Herman traces the roots of declinism and shows how major thinkers past and present have contributed to its development as a coherent ideology of cultural pessimism From Nazism to the Sixties counterculture from Britain s Fabian socialists to America s multiculturalists and from Dracula and Freud to Robert Bly and Madonna this work examines the idea of decline in Western history and sets out to explain how the conviction of civilization s inevitable end has become a fixed part of the modern Western imagination Through a series of biographical portraits spanning the 19th and 20th centuries the author traces the roots of declinism and aims to show how major thinkers of the past and present including Nietzsche DuBois Sartre and Foucault have contributed to its development as a coherent ideology of cultural pessimism *The Rise of the West* , **The New Western** Scott F. Stoddart, 2016-02-19 American moviegoers have long turned to the Hollywood Western for reassurance in times of crisis During the genre s heyday the films of John Ford Howard Hawks and Henry Hathaway reflected a grand patriotism that resonated with audiences at the end of World War II The tried and true Western was questioned by Ford and George Stevens during the Cold War and in the 1960s directors like Sam Peckinpah and George Roy Hill retooled the genre as a commentary on American ethics during the Vietnam War Between the mid 1970s and early 1990s the Western faded from view until the Gulf War when Kevin Costner s *Dances with Wolves* 1990 and Clint Eastwood s *Unforgiven* 1992 brought it back with moral complexities Since 9 11 the Western has seen a resurgence blending its patriotic narrative with criticism of America s place in the global community Exploring such films as *True Grit* 2010 and *Brokeback Mountain* 2005 along with television series like *Deadwood* and *Firefly* this collection of new essays explores how the Western today captures the dichotomy of our times and remains important to the American psyche **New York Magazine** , 1993-10-11 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **Demonizing The West** Mohsin Shawkat, 2024-07-16 This Book The image of the West in contemporary Arab culture is distorted and devoid of friendliness because those who painted this image lacked free and independent thinking away from dogma or the influence of the old dominant powers in the Arab region It is difficult to separate anti west and anti Jews Hence Jews occupy a large portion of this book since it is the easiest and quickest way to demonize the West The book reviews the most prominent names that contributed to Demonizing the West within the Arab

East over an entire century The list includes the names of writers poets translators singers and actors in theatre and cinema They reflect the level of thinking of the broad masses to this day One thing in common among these names is that they all conform and strengthen what already exists They reflect the level of thinking of the broad masses There is no one among them who thinks alone If one of them wants to say something he waits to hear it from millions before him Here lie the biggest challenges facing Arab culture The book discusses a large number of anti West Jews and Arab rulers texts Furthermore the book discusses films songs and television series The book includes seven studies on the challenges facing Arab culture
