Arnold Toynbee A Selection From His Works:

Arnold Toynbee, a Selection from His Works Arnold Toynbee, 1978 The 54 pieces chosen for this book are linked by short exclamatory passages *The Political Philosophy of Bertrand Russell* Amita Singh, 1987 Anthony Giddens Stjepan Mestrovic, 2005-08-31 Anthony Giddens is arguably the world's leading sociologist In this controversial contribution to the Giddens debate Stjepan Mestrovic takes up and criticizes the major themes of his work particularly the concept of high modernity as opposed to postmodernity and his attempted construction of a synthetic tradition based on human agency and structure Testing Giddens theories against what is happening in the real world from genocide in Africa to near secession in Quebec Mestrovic discerns in the construction of synthetic traditions not the promise of freedom held out by Giddens but rather the ominous potential for new forms of totalitarian control *Recasting Iranian Modernity* Kamran Matin, 2013-11-07 Critically deploying the idea of uneven and combined development this book provides a novel non Eurocentric account of Iran's experience of modernity and revolution Recasting Iranian Modernity presents the argument that Eurocentrism can be decisively overcome through a social theory that has international relations at its ontological core This will enable a conception of history in which there is an intrinsic international dimension to social change that prevents historical repetition This hitherto under theorized international dimension is the book argues manifest in combined patterns of development which incorporate both foreign and native forms It is the tension prone and unstable nature of these hybrid developmental patterns that mark Iranian modernity and fuelled the socio political dynamics of the 1979 revolution and the rise of political Islam Challenging solely comparative approaches to the Iranian Revolution that explain it away as either a deviation from or a reaction to modernity on the grounds of its religious form this book will be valuable to those interested in an alternative theoretical approach to the Iranian Revolution modern Iran and political Islam working in the fields of International Relations Middle East and Islamic Studies History Political Science Political Sociology Postcolonialism and Comparative Politics

The Balkanization of the West Stjepan Mestrovic, 2004-08-02 This book takes the lid off the confused Western response to the Balkan war The author raises a series of timely and acute questions about the future of postmodernism and postcommunism **Habits of the Balkan Heart** Stjepan Gabriel Meštrović, Slaven Letica, Miroslav Goreta, 1993 Almost as soon as Communism fell in Eastern Europe in 1989 Western politicians and intellectuals concluded that the West had won the Cold War and that liberal democracy had triumphed over authoritarianism in the world Euphoria spread with the expectation of a New World Order Within months the giddy optimism began to fade especially in the face of what soon became a brutal war in former Yugoslavia Why did Serbia choose to replicate many of Germany's methods and aims from World Wars I and II including ethnic cleansing read genocide and a campaign to establish a Greater Serbia Sociologist Stjepan Mestrovic writing with Slaven Letica and Miroslav Goreta argues that the social and political character of the Dinaric herdsmen which dominates Serbian culture and politics even though it is found in all Balkan nations accounts for the form

Communism took there the fall of Communism and the savagery and brutality of the post Communist war With carefully reasoned analysis the authors show how sociological theories of social character propounded by such thinkers as de Tocqueville Veblen and Bellah can shed light on the conflicts in the Balkans which according to conventional wisdom were not supposed to occur when Communism fell They demonstrate that ancient traditional ethnic social and nationalistic tendencies habits of the heart of the various people of the Balkans have taken precedence over pressures for democracy in the political and cultural vacuum left by the end of Communism in the region Unfortunately the difficulties in the Balkans will persist for a long time to come and similar conflicts could break out in the former Soviet Union This thought provoking book has much new to say about the causes of such ethnic and class conflicts in the region and the feasibility of policies for dealing with these sores If democracy is to be achieved in post Communist East Europe the authors argue it must be based on the good habits of the heart that coexist there with bad or authoritarian social character *Select Epigrams from the Greek Anthology* John William Mackail,1890

America's Nine Greatest Presidents Frank P. King,1997-01-01 Among the 42 men who have held the office of the President of the United States some are remembered more easily than others for the strength of their administration The nine greatest presidents were all attractive in one way or another writes Frank P King Far more important and difficult to appreciate and understand they had superb characters derived from principles commitments and habits They all seem even now to be remarkably like us The success of presidents and congresses and governments is measured by achievements which advance the commercial and strategic health of the nation our culture and the prosperity of the nation s people The peacekeepers armed with swords spoons or pens have been our greatest blessing Making and keeping friends and allies is more than a hobby King chronicles the lives of Dwight D Eisenhower Harry S Truman Franklin D Roosevelt Theodore Roosevelt Abraham Lincoln James K Polk James Monroe Thomas Jefferson and George Washington and places them in historical perspective in this detailed study He examines their legislative military and political actions and offers analysis of each man s character values progressiveness and political performance **The Road**

from Paradise Stjepan Gabriel Me_trovi_,1993-01-01 The 1989 fall of communism in Eastern Europe occurred in a period when Western intellectuals were involved in a confusing discourse on a number of other dramatic endings the end of modernity the end of the century even the possible end of sociology Against this backdrop the authors focus on continuities based on the habits of the heart of those who threw off communism in Eastern Europe contrasting them with Western modes of thought Their cultural explanation draws on theories of Tocqueville Durkheim and others to examine positive as well as negative aspects of the nations that survived communism While focusing on the Balkans they also make cautious prognoses for the rest of Eastern Europe *Rethinking Christendom* Jonathan Luxmoore,Jolanta Babiuch,2005 The failure of the European Union s Constitutional Treaty has raised serious questions about the Continent s future Christian churches are active in this debate as social and cultural forces with influence and outreach But questions are also being asked about the

future of Christianity itself in a region now deeply divided between competing outlooks and visions Why has Christianity caused such passion And what does the controversy say about the new Europe now being created a secular technocratic Europe or a Europe more deeply united by shared norms and values Rethinking Christendom explores the background to today's discussions drawing on views and perspectives from East and West It shows how Christianity became the essential badge of European-ness and the universal reference point for societies drawn together by external threats and internal aspirations It also demonstrates how by asserting the individual's moral value Christianity planted the seeds of democracy and human rights pluralism and equality and was fated over time to subvert and undermine unjust dictatorial systems of rule While some Europeans see Christianity as a means of liberation others view it as a barrier to freedom This book is a plea for a realistic and informed understanding of Christianity's past present and future role in a region where all faiths worldviews and philosophies can and should coexist in a mutual creative harmony **BOOK JACKET** **Crippled Justice** Ruth

O'Brien, 2001-11-15 Resource added for the Human Resources program 101161 **Rebuilding Community Solidarity and Pluralism** Donald G. Reid, 2024-06-03 This book critiques the traditional practice of community organization change and development and concludes that the present practice of Community Development CD and Social Policy and Planning SP P is no longer capable of meeting the current challenges at the local or national level The aim of this book is to identify the underlying motivations for the individual aggressive and collective antisocial behaviour that we witness in democratic society today and offer changes to the orientation of the current community change practice in order to build a system that can better address the present needs of society This work identifies the factors that are moving society toward extremism and authoritarianism focusing particularly on the community level Given the turmoil in communities that is degrading democracy and leading to authoritarianism today the issues of Community Solidarity and Pluralism CS P must be attended to before the traditional political economic and material issues that are regularly addressed by CD and SP P practice can become the focus for change and development once again This book will have widespread appeal to academics researchers and postgraduate students throughout the social sciences including sociology social work political science economics philosophy environmental studies and international and community development studies It is also intended for the general reader who is interested in understanding the authoritarian forces that are attempting to infiltrate the democratic process *Guns for the Sultan* Gábor Ágoston, 2005-03-24 Gabor Agoston's book contributes to an emerging strand of military history that examines organised violence as a challenge to early modern states their societies and economies His is the first to examine the weapons technology and armaments industries of the Ottoman Empire the only Islamic empire that threatened Europe on its own territory in the age of the Gunpowder Revolution Based on extensive research in the Turkish archives the book affords much insight regarding the early success and subsequent failure of an Islamic empire against European adversaries It demonstrates Ottoman flexibility and the existence of an early modern arms market and information exchange across the

cultural divide as well as Ottoman self sufficiency in weapons and arms production well into the eighteenth century Challenging the sweeping statements of Eurocentric and Orientalist scholarship the book disputes the notion of Islamic conservatism the Ottomans supposed technological inferiority and the alleged insufficiencies in production capacity This is a provocative intelligent and penetrating analysis which successfully contends traditional perceptions of Ottoman and Islamic history

Adi Deo Arya Devata Sandhya Jain,2022-03-19 The British claimed that India s Adivasi population lay beyond the pale of mainstream Hindu society Yet even a cursory mapping of the spiritual cultural landscape reveals a deep symbiotic relationship between tribals and non tribals which is amply reflected in the ancient literature and inscriptions Indeed it was also noted by colonial anthropologists and ethnographers mainly British officials who deliberately delinked tribals from Hindu society through the imposition of racial categories and census classifications Tribals have made an enormous contribution to India s civilisation all major gods of the Indic tradition have tribal links Shiva was worshipped by forest dwelling communities in large parts of the country as were Vishnu s incarnations as Varaha boar and Narasimha lion Vishnu in fact evolved out of several distinct deities notably Vasudeva the supreme lord of the Vrishni Satvata tribe Krishna of the Yadava clan Gopala of the Abhira tribe and Narayana of the Hindukush mountains Similarly Gautama Buddha hailed from the Sakya tribe Vardhaman Mahavira was a scion of the Jnatrikas There is to this day a close relationship between the Kurumba Lambadi Yenadi Yerukula and Chenchu tribes and Shri Venkateshwar of Tirupathi Lord Ayyappam in Kerala and Mata Vaishno Devi in Jammu also appear to have tribal links All these gods and temples as also that of Jagannath in Puri enjoy a pre eminent status in the classical Hindu pantheon Even caste long regarded as the keynote of Hindu society possibly originated in the tribal clan or gotra The term jat or jati is used equally for caste and tribe in most Indian languages and tribal dialects Moreover the defining characteristics of tribes apply equally to castes such as claims of descent from a common ancestor common language endogamy and clan exogamy caste tribal councils certain taboos in matters of diet and marriage alliances presence of hierarchy within groups and limited self sufficiency Mahatma Gandhi insisted that tribals are an inalienable part of Hindu society This work suggests that tribal society constitutes the keynote and the bedrock of Hindu civilisation
