Scots: Studies in its Literature and

Language John M. Kirk, Iseabail Macleod, 2013-10-01 The skillful use of the Scots language has long been a distinguishing feature of the literatures of Scotland. The essays in this volume make a major contribution to our understanding of the Scots language past and present and its written dissemination in poetry, fiction and drama and in non-literary texts such as personal letters. They cover aspects of the development of a national literature in the Scots language and they also give due weight to its international dimension by focusing on translations into Scots from languages as diverse as Greek, Latin and Chinese and by considering the spread of written Scots to Northern Ireland, the United States of America and Australia. Many of the essays respond to and extend the scholarship of J. Derrick McClure whose considerable impact on Scottish literary and linguistic studies is surveyed and assessed in this volume.

One of the challenges in writing about the South Asian diaspora in Australia is the nature of the mass migration and entry points into Australia range from colonial indentured workers to political asylum seekers to transnational marriages to

students and high end professionals How did their journeys and experiences generate bridges that have influenced the historical cultural social and academic perceptions of the ever changing continents It is hoped that this critical anthology will help present a dynamic community in transit and showcase the achievements of the South Asian diaspora during the last decade which have not only made a significant impact on Australia s multicultultural landscape but also furthered South Asian Australian engagement *Australian Literary Manuscripts in North American Libraries* Nan Bowman Albinski,1997 **The Routledge Handbook of Australian Indigenous Peoples and Futures** Bronwyn Carlson,Madi Day,Sandy O'Sullivan,Tristan Kennedy,2023-09-19 Providing an international reference work written solely by Aboriginal and Torres Strait Islander authors this book offers a powerful overview of emergent and topical research in the field of global Indigenous studies It addresses current concerns of Australian Indigenous peoples of today and explores opportunities to develop and support the development of Indigenous resilience and solidarity to create a fairer safer more inclusive future Divided into three sections this book explores What futures for Aboriginal and or Torres Strait Islander peoples might look like and how institutions structures and systems can be transformed to such a future The complexity of Aboriginal and Torres Strait Island life and identity and the possibilities for Australian Indigenous futures and The many and varied ways in which Aboriginal and Torres Strait Islander peoples use technology and how it is transforming their lives This book documents a turning point in global Indigenous history the disintermediation of Indigenous voices and the promotion of opportunities for Indigenous peoples to map their own futures It is a valuable resource for students and scholars of Indigenous studies as well as gender and sexuality studies education studies ethnicity and identity studies and decolonising development studies
