## **Art And Decoration In Elizabethan And Jacobean England The Influence Of Continental Prints 1558 1625:**

**Art and Decoration in Elizabethan and Jacobean England** Anthony Wells-Cole, 1997 The spread of the Renaissance and the onset of the Reformation gradually transformed the appearance of art architecture and decoration in sixteenth century England By the middle of the century prints were being produced in near industrial conditions in commercial centers such as Antwerp They effected an information revolution similar to that of computers in our own time broadcasting stylistic and religious changes and enabling English patrons and craftsmen to keep abreast of the latest artistic fashions This richly illustrated book is the first comprehensive exploration of precisely what imported prints were used as sources of inspiration in Elizabethan and Jacobean England Anthony Wells Cole sets out a visual feast of buildings and their contents side by side with photographs of the prints that inspired them A large proportion of the illustrations will be unfamiliar to all but specialists

**Shakespeare's Globe Rebuilt** J. R. Mulryne, Margaret Shewring, Andrew Gurr, 1997-06-12 The rebuilding of the Globe theatre 1599 1613 on London s Bankside a few yards from the site of the playhouse in which many of Shakespeare s plays were first performed must rank as one of the most imaginative enterprises of recent decades It has aroused intense interest among scholars and the general public worldwide This book offers a fully illustrated account of the research that has gone into the Globe reconstruction drawing on the work of leading scholars theatre people and craftsmen to provide an authoritative view of the twenty years of research and the hundreds of practical decisions entailed Documents of the period are explored afresh the techniques of timber framed building and the decorative practices of Elizabethan craftsmen explained and all of this reconciled with the requirements of the actors and restrictions of modern architectural design The result is a book that will fascinate scholarly readers and laymen alike

**The Building of Elizabethan and Jacobean England** Maurice Howard, 2007 Building accounts government regulation and theoretical writing on the one hand and pictorial representation on the other directed new ways of documenting the changed appearance of the buildings in which people lived worshipped and worked This book shows how changes of style in architecture emerged from the practical needs of building a new society through the image making of public and private patrons in the revolutionary century between Reformation and Civil War

**Printed Images in Early Modern Britain** Michael Hunter, 2016-12-05 Printed images were ubiquitous in early modern Britain and they often convey powerful messages which are all the more important for having circulated widely at the time Yet by comparison with printed texts these images have been neglected particularly by historians to whom they ought to be of the greatest interest This volume helps remedy this state of affairs Complementing the online digital library of British Printed Images to 1700 [www.bpi1700.org.uk](http://www.bpi1700.org.uk) it offers a series of essays which exemplify the many ways in which such visual material can throw light on the history of the period Ranging from religion to politics polemic to satire natural science to consumer culture the collection explores how printed images need to be read in terms of the visual syntax understood by contemporaries their full meaning often only becoming clear when they

are located in the context in which they were produced and deployed The result is not only to illustrate the sheer richness of material of this kind but also to underline the importance of the messages which it conveys which often come across more strongly in visual form than through textual commentaries With contributions from many leading exponents of the cultural history of early modern Britain including experts on religion politics science and art the book's appeal will be equally wide demonstrating how every facet of British culture in the period can be illuminated through the study of printed images

*Renaissance Theory* James Elkins, Robert Williams, 2008-04 Renaissance Theory presents an animated conversation among art historians about the optimal ways of conceptualizing Renaissance art and the links between Renaissance art and contemporary art and theory This is the first discussion of its kind involving not only questions within Renaissance scholarship but issues of concern to art historians and critics in all fields Organized as a virtual roundtable discussion the contributors discuss rifts and disagreements about how to understand the Renaissance and debate the principal texts and authors of the last thirty years who have sought to reconceptualize the period They then turn to the issue of the relation between modern art and the Renaissance Why do modern art historians and critics so seldom refer to the Renaissance Is the Renaissance our indispensable heritage or are we cut off from it by the revolution of modernism The volume includes an introduction by Rebecca Zorach and two final synoptic essays as well as contributions from some of the most prominent thinkers on Renaissance art including Stephen Campbell Michael Cole Frederika Jakobs Claire Farago and Matt Kavalier

*The Lives of Images* Peter Mason, 2001 Examines the history of European representations of non European peoples

**Early English Viols: Instruments, Makers and Music** Michael Fleming, John Bryan, 2016-11-18 Winner of the Nicholas Bessaraboff Prize Musical repertory of great importance and quality was performed on viols in sixteenth and early seventeenth century England This is reported by Thomas Mace 1676 who says that Your Best Provision for playing such music is a chest of old English viols and he names five early English viol makers than which there are no Better in the World Enlightened scholars and performers both professional and amateur who aim to understand and play this music require reliable historical information and need suitable viols but so little is known about the instruments and their makers that we cannot specify appropriate instruments with much precision Our ignorance cannot be remedied exclusively by the scrutiny or use of surviving antique viols because they are extremely rare they are not accessible to performers and the information they embody is crucially compromised by degradation and alteration Drawing on a wide variety of evidence including the surviving instruments music composed for those instruments and the documentary evidence surrounding the trade of instrument making Fleming and Bryan draw significant conclusions about the changing nature and varieties of viol in early modern England

Shakespeare's plays both in early modern England and in late twentieth century adaptations and appropriations. Apart from addressing issues such as implausibility, tours de force arousing amazement and excess for the sake of entertainment, it raises the question of intentionality: what is behind the spectacular? Is there always a manipulative purpose? How far reaching are the political and ideological stakes? The contributors to this volume investigate a broad spectrum of particular phenomena: the spectacular sound effects and pyrotechnics displayed for the opening of the Globe theatre with Julius Caesar on performance; George Gascoigne's lavish 1575 pageant commissioned by the Earl of Leicester for the queen at Kenilworth; The Princely Pleasures: the relationship between the spectacular and scientific discoveries as well as their dialectics of appropriation; the impact of Mannerist art on The Winter's Tale; Coriolanus' resistance to ostentation and political shows; the anti-spectacular counter-current running through Timon of Athens; Julia Pascal's innovative 2007 stage production of The Merchant of Venice; apocalyptic screen adaptations of turn of the century Jacobean tragedies; and Richard III's potential to be graphically interpreted in 2008 as political satire and as a danse macabre. *Broken Idols of the English Reformation*, The Ashgate Research Companion to The Sidneys, 1500-1700 Michael G. Brennan, Mary Ellen Lamb, 2017-03-16 Few families have contributed as much to English history and literature indeed to the arts generally as the Sidney family. This two-volume Ashgate Research Companion assesses the current state of scholarship on family members and their impact as historical and literary figures in the period 1500-1700. Volume 1: Lives begins with an overview of the Sidneys and politics, providing some links to court events, entertainments, literature and patronage. The volume gives biographies to prominent high-profile Sidney women and men as well as sections assessing the influence of the family in the areas of the English court, international politics, patronage, religion, public entertainment, the visual arts and music. The focus of the second volume is the literary contributions of Sir Philip Sidney, Mary Sidney Herbert, Countess of Pembroke, Lady Mary Wroth, Robert Sidney, Earl of Leicester and William Herbert, Earl of Pembroke. Mythologies of the Prophet Muhammad in Early Modern English Culture Matthew Dimmock, 2013-05-31 This book explores how the figure of the Prophet Muhammad was misrepresented in English and wider Christian culture between 1480 and 1735. By tracing the ways in which Mahomet was written and rewritten, contested and celebrated, this study explores notions of identity and religion and the resonances of this history today. **The City Rehearsed**, *Fenestration Practice and Theory in Early Modern Europe* Hentie Louw, 2024-06-05 This book explores the transformation of the window during the Early Modern Period in Europe. Following the Italian Renaissance, new stylistic norms for modern classical windows had to be invented. Building a new classical repertoire drew on existing traditions in fenestration as local builders throughout Europe struggled with the constraints of varying climatic conditions, customs and physical resources in pursuit of a broader vision of an international classical revival. With the Renaissance, the architectural emphasis shifted towards secular design and as the classical revival gained momentum, a quest for a cultured lifestyle commensurate with the new architecture increased demand for sophisticated

fenestration systems in civil architecture The movement coincided with a period of dramatic climate change the so called Little Ice Age c 1450 c 1850 adding urgency to the campaign for transforming fenestration practice By the late seventeenth century Northern European builders had developed appropriate indigenous classical window forms for their respective societies functional products sophisticated enough to form the basis of new architectural styles northern classical traditions that rivalled and in some respects surpassed those created in Italy Their achievement was embodied in the two flagships of the movement the Franco Italian folding casement the French window and the English mechanical sliding window the sash window

Monuments and Memory in Early Modern England Peter Sherlock, 2016-12-05 Funeral monuments are fascinating and diverse cultural relics that continue to captivate visitors to English churches yet we still know relatively little about the messages they attempt to convey across the centuries This book is a study of the material culture of memory in sixteenth and seventeenth century England By interpreting the images and inscriptions on monuments to the dead it explores how early modern people wanted to be remembered their social vision cultural ideals religious beliefs and political values Arguing that early modern English monuments were not simply formulaic statements about death and memory Dr Sherlock instead reveals them to be deliberately crafted messages to future generations Through careful reading of monuments he shows that much can be learned about how men and women conceived of the world around them and shifting concepts of gender social order and the place of humans within the universe In post Reformation England the dead became superior to the living as monuments trumpeted their fame and their confidence in the resurrection This study aims to stimulate historians to attempt to reconstruct and engage with the world view of past generations through the unique and under utilised medium of funeral monuments In so doing it is hoped that more light may be shed on how memory was created controlled and contested in pre modern society and encourage the on going debate about the ways in which understandings of the past shape the present and future

**Private and Domestic Devotion in Early Modern Britain** Alec Ryrie, 2016-04-15 Scholars increasingly recognise that understanding the history of religion means understanding worship and devotion as well as doctrines and polemics Early modern Christianity consisted of its lived experience This collection and its companion volume *Worship and the Parish Church in Early Modern Britain* ed Natalie Mears and Alec Ryrie bring together an interdisciplinary range of scholars to discuss what that lived experience comprised and what it meant Private and domestic devotion how early modern men and women practised their religion when they were not in church is a vital and largely hidden subject Here historical literary and theological scholars examine piety of conformist non conformist and Catholic early modern Christians in a range of private and domestic settings in both England and Scotland The subjects under analysis include Bible reading the composition of prayers the use of the psalms the use of physical props for prayers the pious interpretation of dreams and the troubling question of what counted as religious solitude The collection as a whole broadens and deepens our understanding of the patterns of early modern devotion and of their meanings for early modern

culture as a whole
