Art And Eloquence In Byzantium:

Art and Eloquence in Byzantium Henry Maguire, 2019-01-15 In this interdisciplinary study Henry Maguire examines the influence of several literary genres and rhetorical techniques on the art of narration in Byzantium. He reveals the important and wide reaching influence of literature on the visual arts. In particular, he shows that the literary embellishments of the sermons and hymns of the church nourished the imaginations of artists and fundamentally affected the iconography style and arrangement of their work. Using provocative material previously unfamiliar to art historians, he concentrates on religious art from A.D. 843 to 1453. Professor Maguire first considers the Byzantine view of the link between oratory and painting and then the nature of rhetoric and its relationship to Christian literature. He demonstrates how four rhetorical genres and devices—description, antithesis, hyperbole, and lament—had a special affinity with the visual arts and influenced several scenes in the Byzantine art, including the Annunciation, the Nativity, the Massacre of the Innocents, the Presentation, Christ's Passion, and the Dormition of the Virgin. Through the literature of the church, Professor Maguire concludes, the methods of rhetoric indirectly helped Byzantine artists add vividness to their narratives, structure their compositions, and enrich their work with languages. Once translated into visual language, the artifices of rhetoric could be appreciated by many.

Henry Maguire is Assistant Professor of Art History at the University of Illinois at Urbana-Champaign. Originally published in 1982, *The Princeton Legacy Library* uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Letters, Literacy and Literature in Byzantium Margaret Mullett, 2023-06-09 These studies look at general problems of reading Byzantine literature at literacy practices and the literary process but also at individual texts The past thirty years have seen a revolution in the way Byzantine literature has been viewed no longer is it considered a decadent form of classical literature or a turgid precursor of modern Greek literature There are still prejudices to overcome that there was no literary public or that Byzantium had no drama or humour but Byzantine texts are now read as literature in the social context of literacy and book culture One genre is treated here more fully the letter Derrida said that letters represent all literature In these studies epistolography is examined from the point of view of genre of originality of communication and as evidence for political history Other genres touched on include the novel historiography parainesis panegyric and hagiography The section on literary process includes essays on genre patronage and rhetoric and the section on literacy practices deals with both writing and reading The collection includes one unpublished lecture which acts as introduction and additional notes and comments Aural Architecture in Byzantium: Music, Acoustics, and Ritual Bissera Pentcheva, 2017-07-14 Aural

Managing Emotion in Byzantium Margaret Mullett, Susan Ashbrook Harvey, 2022-09-30 Byzantinists entered the study of emotion with Henry Maguire's ground-breaking article on sorrow published in 1977. Since then classicists and western medievalists have developed new ways of understanding how emotional communities work and where the ancient concepts of emotion differ from our own and Byzantinists have begun to consider emotions other than sorrow. It is time to look at what is distinctive about Byzantine emotion. This volume is the first to look at the constellation of Byzantine emotions. Originating at an international colloquium at Dumbarton Oaks, these papers address issues such as power, gender, rhetoric, or asceticism in Byzantine society through the lens of a single emotion or cluster of emotions. Contributors focus not only on the construction of emotions with respect to perception and cognition but also explore how emotions were communicated and exchanged across broad multi-linguistic, political, and social boundaries. Priorities are twofold: to arrive at an understanding of what the Byzantines thought of as emotions and to comprehend how theory shaped their appraisal of reality. *Managing Emotion in Byzantium* will appeal to researchers and students alike interested in Byzantine perceptions of emotion.

A Companion to the Environmental History of Byzantium, 2024-03-04 How did humans and the environment impact each other in the medieval Eastern Mediterranean? How did global climatic fluctuations affect the Byzantine Empire over the course of a millennium? And how did the transmission of pathogens across long distances affect humans and animals during this period? This book tackles these and other questions about the intersection of human and natural history in a systematic way. Bringing together analyses of historical, archaeological, and natural scientific evidence, specialists from across these fields have contributed to this volume to outline the new discipline of Byzantine environmental history. Contributors are Johan Bakker, Henriette Baron, Chryssa Bourbou, James Crow, Michael J. Decker, Warren J. Eastwood, Dominik Fleitmann, John Haldon, Adam Izdebski, Eva Kaptijn, Jörg Luterbacher, Henry Maguire, Mischa Meier, Lee Mordechai, Jeroen Poblome, Johannes Preiser-Kapeller, Abigail Sargent, Peter Talloen, Costas Tsiamis, Ralf Vandam, Myrto Veikou, Sam White, and Elena Xoplaki.

Emotions and Gender in Byzantine Culture Stavroula Constantinou, Mati Meyer, 2018-09-17 This book examines the gendered dimensions of emotions and the emotional aspects of gender within Byzantine culture and suggests possible readings of such instances. In so doing, the volume celebrates the current breadth of Byzantine gender studies while at the same time contributing to the emerging field of Byzantine emotion studies. It offers the reader an array of perspectives encompassing various sources and media, including historiography, hagiography, theological writings, epistolography, erotic literature, art objects, and illuminated manuscripts. The ten chapters cover a time span ranging from the early to the late Byzantine periods. This diversity is secured by an expanded and enriched exploration of the collection's unifying theme of

gendered emotions The scope and breadth of the chapters also reflect the ways in which Byzantine gender and emotion have been studied thus far while at the same time offering novel approaches that challenge established opinions in Byzantine studies

Byzantine Matters Averil Cameron, 2024-11-01 A renowned historian examines the neglected story of Byzantium and what it can teach us about Western history a feisty and provocative manifesto Times Literary Supplement UK For many of us Byzantium remains byzantine obscure marginal difficult Despite the efforts of recent historians prejudice still skews our understanding of the Byzantine civilization often reducing it to a poor relation of Rome and the rest of the classical world In this book Averil Cameron presents an original and personal view of the challenges and questions facing historians of Byzantium today The book explores five major themes all subjects of controversy Absence asks why Byzantium is routinely ignored or relegated to a sphere of its own Empire reinserts Byzantium into modern debates about empire and discusses the nature of its system and its remarkable longevity Hellenism confronts the question of the Greekness of Byzantium and of the place of Byzantium in modern Greek consciousness The Realms of Gold asks what lessons can be drawn from Byzantine visual art and The Very Model of Orthodoxy challenges existing views of Byzantine Christianity Throughout Cameron demonstrates why it is so important to integrate Byzantium into wider histories and lays out why this civilization should be central to ongoing debates about the relationships between West and East Christianity and Islam Catholicism and Eastern Orthodoxy and the ancient and medieval periods The result is a forthright and compelling call to reconsider the place of Byzantium in Western history and imagination

The Emperor and the World Alicia Walker, 2012-04-30 Byzantine imperial imagery is commonly perceived as a static system In contrast to this common

portrayal this book draws attention to its openness and responsiveness to other artistic traditions Through a close examination of significant objects and monuments created over a 350 year period from the ninth to the thirteenth century Alicia Walker shows how the visual articulation of Byzantine imperial power not only maintained a visual vocabulary inherited from Greco Roman antiquity and the Judeo Christian tradition but also innovated on these artistic precedents by incorporating styles and forms from contemporary foreign cultures specifically the Sasanian Chinese and Islamic worlds In addition to art and architecture this book explores historical accounts and literary works as well as records of ceremonial practices thereby demonstrating how texts ritual and images operated as integrated agents of imperial power Walker offers new ways to think about cross cultural interaction in the Middle Ages and explores the diverse ways in which imperial images employed foreign elements in order to express particularly Byzantine meanings
