Art And Scholasticism And The Frontiers Of Poetry:

Art and Scholasticism and the Frontiers of Poetry Jacques Maritain, 2003-01-01 *Поэтика "Оберу" в контексте русского литературного авангарда*, 2000 **Art and Scholasticism** Jacques MARITAIN, 1934 **The Vision of the Soul** James Matthew Wilson, 2017-06-12 For those for whom conservatism means something more than anti liberalism who wish to dive deep into the conservative tradition in search of pearls The American Conservative Ours is an age full of desires but impoverished in its understanding of where those desires lead an age that asserts mastery over the world but also claims to find the world as a whole absurd or unintelligible In The Vision of the Soul James Matthew Wilson seeks to conserve the great insights of the western tradition by giving us a new account of them responsive to modern discontents The western or Christian Platonist tradition he argues tells us that man is an intellectual animal born to pursue the good to know the true and to contemplate all things in beauty By turns a study in fundamental ontology aesthetics and political philosophy Wilson's book invites its readers to a renewal of the West's intellectual tradition Conservatism needs a new prophet James Matthew Wilson is the man for the job and The Vision of the Soul is his calling card A new classic For it we give thanks to God and to Plato Covenant James Wilson's important book returns to a conservatism in the tradition of Burke Eliot and Russell Kirk He wants us to focus on beauty and its place in Western culture The book is a strong defense of that culture but not an unthinking one Crisis Magazine A stirring and timely account and defense of the West's traditional way of understanding the universe and our place in it Matthew M Robare The Kirk Center *Truth in the Making* Robert C. Miner, 2013-02-01 Is knowing a purely passive reception of something concrete outside the mind or when we know something are we creating something too Spanning more than 500 years of philosophical enquiry from the Middle Ages to the present day Robert Miner clarifies modern philosophical conceptions of knowing as making or constructing and contrasts this view with the theological understanding of knowing as a participation in divine creation This study demonstrates how creative knowledge has its roots in the theologies of Thomas Aquinas and Nicholas Cusanus It explores the multiple ways in which this idea influenced the architects of modern philosophy most notably Francis Bacon Ren Descartes and Thomas Hobbes despite their secular stance Miner contends that well in advance of Kant one of these thinkers Gaimbattista Vico provided a remarkably succinct formulation of the metaphysical and epistemological core of modernity in his principle verum et factum convertuntur the true and the made are convertible In Truth in the Making Robert Miner challenges the standard assumption that Kant was the first thinker to conceive of knowing as constructive activity and shows how contemporary theology can reclaim a concept of knowing that is both creative and participant in divine wisdom *Beauty, Art, and the Polis* Alice Ramos, 2000 Introduction by Ralph McInerney The essays in this volume indebted in great part to Jacques Maritain and to other Neo Thomists represent a contribution to an understanding of beauty and the arts within the Aristotelian Thomistic tradition As such they constitute a different voice in present day discussions on beauty and aesthetics a voice which nonetheless shares with many of its

contemporaries concern over questions such as the relationship between beauty and morality public funding of the arts and their educational role objective and universal standards of what is beautiful In the tradition in which the contributors of this volume reflect beauty manifests itself in the order of the universe an order that provides human reason with a window onto the transcendent For Aristotle and Aquinas the natural order grounds both art and morality and yet it is this very order which has been called into question by modern science and philosophy Instead of pointing us to a suprahuman order the beautiful then points to the order of human freedom and creativity Reflection on the beautiful since the modern philosopher Immanuel Kant has thus often taken a subjectivistic turn Because of the importance of beauty and art in human existence in man s education and life as a moral and political being an alternative should be sought to any reduction of the beautiful to a purely subjective experience or cultural construct The Aristotelian Thomistic tradition in dialogue with modern and contemporary conceptions of the beautiful provides us with just that alternative and thus the essays herein represent a decisive step in the journey for Thomistic aesthetics THE CONTRIBUTORS In addition to the editor the contributors to the volume are Brian J Braman Matthew Cuddeback Christopher M Cullen S J Patrick Downey Desmond J FitzGerald Donald Haggerty Wayne H Harter Jeanne M Heffernan Thomas S Hibbs Gregory J Kerr Joseph W Koterski S J Daniel McInerny Ralph McInerny James P Mesa John F Morris Ralph Nelson Katherine Anne Osenga Carrie Rehak Stephen Schloesser S J Francis Slade John G Trapani Jr and Henk E S Woldring ABOUT THE EDITOR Alice Ramos is associate professor of philosophy at St John s University

the Christian artist in society This volume responds to his work by bringing together a practicing artist and a theologian who argue that modernist art is underwritten by deeply religious concerns **Poetry and Theology in the Modernist Period**

Anthony Domestico,2017-10-17 What if the religious themes and allusions in modernist poetry are not just metaphors Following the religious turn in other disciplines literary critics have emphasized how modernists like Woolf and Joyce were haunted by Christianity's cultural traces despite their own lack of belief In Poetry and Theology in the Modernist Period Anthony Domestico takes a different tack arguing that modern poets such as T S Eliot W H Auden and David Jones were interested not just in the aesthetic or social implications of religious experience but also in the philosophically rigorous dogmatic vision put forward by contemporary theology These poets took seriously the truth claims of Christian theology for them religion involved intellectual and emotional assent doctrinal articulation and ritual practice Domestico reveals how an important strand of modern poetry actually understood itself in and through the central theological questions of the modernist era What is transcendence and how can we think and write about it What is the sacramental act and how does its wedding of the immanent and the transcendent inform the poetic act How can we relate kairos holy time to chronos clock time Seeking answers to these complex questions Domestico examines both modernist institutions the Criterion and specific works of modern poetry Eliot's Four Quartets and Jones's The Anathemata The book also traces the contours of what it dubs theological modernism a body of poetry that is both theological and modernist In doing so this book offers a new literary history of the modernist period one that attends both to the material circulation of texts and to the broader intellectual currents of the time Being and Predication Ralph M. McInerny,2018-03-02 Brings together articles that influenced the

scholarly work of Ralph McInerny The Maritain Factor Rajesh Heynickx,Jan de Maeyer,2010 During the 1920 s and 1930 s many European modernist artists and intellectuals were seeking a primordial finality in Catholicism In order to distil the eternal from the transitory they became fascinated by a thought frame promoted by the French philosopher Jacques Maritain neo Thomism a revival of the study of the principles and methodology of the thirteenth century theologian Thomas Aquinas

David Jones: A Christian Modernist? Jamie Callison,Erik Tønning,Anna Johnson,Paul Fiddes,2017-11-01 David Jones A Christian Modernist is a major reassessment of the work of the poet artist and essayist David Jones 1895 1974 in light of the complex ambiguous idea of a Christian modernism His richly experimental and palimpsestic poetry art and thought drew extensively on Christian tradition and symbolism as a key to the future rejecting a technocratic and utilitarian modernity in favour of a revitalised culture of sign and sacrament This volume examines historical influences on Jones's development his impassioned engagement with the idea of modernity and with modernist literature and art the theological sources and resonances of his work and contemporary or late modern perspectives on his achievement **Modernism and Theology** Joanna Rzepa,2021-03-16 This is the first book length study to examine the interface between literary and theological modernisms It provides a comprehensive account of literary responses to the modernist crisis in Christian theology from a

transnational and interdenominational perspective It offers a cultural history of the period considering a wide range of literary and historical sources including novels drama poetry literary criticism encyclicals theological and philosophical treatises periodical publications and wartime propaganda By contextualising literary modernism within the cultural religious and political landscape the book reveals fundamental yet largely forgotten connections between literary and theological modernisms It shows that early twentieth century authors poets and critics including Rainer Maria Rilke T S Eliot and Czesław Miłosz actively engaged with the debates between modernist and neo scholastic theologians raging across Europe These debates contributed to developing new ways of thinking about the relationship between religion and literature and informed contemporary critical writings on aesthetics and poetics *Making the Past Present* Paul Robichaud,2007 Robichaud charts the growth of Jones's medievalism from his earliest Pre Raphaelite influences showing how his commitment to modernist aesthetics transformed his vision of the Middle Ages *From the Tree to the Labyrinth* Umberto Eco,2014-02-25 How we create and organize knowledge is the theme of this major achievement by Umberto Eco Demonstrating once again his inimitable ability to bridge ancient medieval and modern modes of thought he offers here a brilliant illustration of his longstanding argument that problems of interpretation can be solved only in historical context
