The Art and Times of the Guitar Frederic V. Grunfeld, 1974
History of Guitars and Guitarists Frederic V. Grunfeld, 1971
America Jeffrey J. Noonan, 2009-10-08 The Guitar in America offers a history of the instrument from America's late Victorian period to the Jazz Age. The narrative traces America's BMG banjo, mandolin, and guitar community, a late nineteenth century musical and commercial movement dedicated to introducing these instruments into America's elite musical establishments. Using surviving BMG magazines, the author details an almost unknown history of the guitar during the movement's heyday, tracing the guitar's transformation from a refined parlor instrument to a mainstay in jazz and popular music. In the process, he not only introduces musicians, including numerous women guitarists who led the movement, but also examines new techniques and instruments. Chapters consider the BMG movement's impact on jazz and popular music, the use of the guitar to promote attitudes towards women and minorities, and the challenges foreign guitarists such as Miguel Llobet and Andres Segovia presented to America's musicians. This volume opens a new chapter on the guitar in America, considering its cultivated past and documenting how banjoists and mandolinists aligned their instruments to it in an effort to raise social and cultural standing. At the same time, the book considers the BMG community within America's larger musical scene, examining its efforts as manifestations of this country's uneasy coupling of musical art and commerce. *For the Love of Music* Darwin Floyd Scott, 2002
A Concise History of the Classic Guitar Graham Wade, 2010-10-07 A Concise History of the Classic Guitar by Graham Wade, one of the foremost international writers on the guitar, explores the history of the instrument from the 16th century to the present day. This compact assessment of five centuries of fretted instruments covers the vihuela in Spain, the history of four-course and five-course guitars, the evolution of tablature, and developments in the six-string guitar in the 19th century. The work also charts the contribution of leading composers, performers, and luthiers of the 20th century and evaluates the influence of Segovia, Llobet, Pujol, Presti, Bream, Williams, etc. among the world's famous guitarists. This book, intended for the general public and guitar students of all ages, is the first interpretative history of the classic guitar to be published in the 21st century and will be eagerly welcomed by all lovers of the instrument.
The New Guitarscape in Critical Theory, Cultural Practice and Musical Performance Kevin Dawe, 2017-07-05 In *The New Guitarscape*, Kevin Dawe argues for a re-assessment of guitar studies in the light of more recent musical, social, cultural, and technological developments that have taken place around the instrument. The author considers that a detailed study of the guitar in both contemporary and cross-cultural perspectives is now absolutely essential and that such a study must also include discussion of a wide range of theoretical issues, literature, musical cultures, and technologies as they come to bear upon the instrument. Dawe presents a synthesis of previous work on the guitar but also expands the terms by which the guitar might be studied. Moreover, in order to understand the properties and potential of the guitar as an agent of music culture and society, the

author draws from studies in science and technology design theory material culture cognition sensual culture gender and sexuality power and agency ethnography real and virtual and globalization Dawe presents the guitar as an instrument of scientific investigation and part of the technology of globalization created and disseminated through corporate culture and cottage industry held close to the body but taken away from the body in cyberspace and involved in an enormous variety of cultural interactions and political exchanges in many different contexts around the world In an effort to understand the significance and meaning of the guitar in the lives of those who may be seen to be closest to it as well as providing a critically informed discussion of various approaches to guitar performance technologies and techniques the book includes discussion of the work of a wide range of guitarists including Robert Fripp Kamala Shankar Newton Faulkner Lionel Loueke Sharon Isbin Steve Vai Bob Brozman Kaki King Fred Frith John 5 Jennifer Batten Guthrie Govan Dominic Frasca I Wayan Balawan Vicki Genfan and Hasan Cihatter Library Catalog of the Metropolitan Museum of Art Metropolitan Museum of Art (New York, N.Y.).
