Reconstructing Architecture for the Twenty-first Century Anthony Jackson,1995-01-01 Jackson exposes the inadequacies of old conceptions of architecture as embodying metaphysical properties and of architects as the sole keepers of this esoteric knowledge He challenges architects to acknowledge and celebrate building as an expression of the ideals and values of the broader based classless communities to which they now belong

A Critic Writes Reyner Banham,1999-03-24 Rayner Banham s interests ranged from architecture and the culture of pop art to urban and industrial design This selection of essays includes discussions of Italian Futurism Adolf Loos Paul Scheerbart and the Bauhaus as well as the contemporary architecture of Gehry Stirling and Foster

Jack Goody between Social Anthropology and World History LIT Verlag,2024-10-01 A giant of British social anthropology Jack Goody 1919 2015 laboured for sixty years to transcend the view that anthropology was the study of other cultures He wanted to move it in the direction of a more sociological postcolonial comparative social science The most important precondition for this science was the freeing of world history from centuries of Eurocentric bias From his base in Cambridge Goody s influence and inspiration spread out internationally In Germany as a long term adviser to the Max Planck Society he played a key role in the establishment of the Max Planck Institute for Social Anthropology in Halle Saale in 1999 This volume presents twelve Goody Lectures delivered in Halle between 2011 and 2022 together with an unpublished lecture given in 2004 by Goody himself and biographical and bibliographical essays by the editors

The Spiritual Rococo GauvinAlexander Bailey,2017-07-05 A groundbreaking approach to Rococo religious d r

and spirituality in Europe and South America The Spiritual Rococo addresses three basic conundrums that impede our understanding of eighteenth century aesthetics and culture Why did the Rococo ostensibly the least spiritual style in the pre Modern canon transform into one of the world s most important modes for adorning sacred spaces And why is Rococo still treated as a decadent nemesis of the Enlightenment when the two had fundamental characteristics in common This book seeks to answer these questions by treating Rococo as a global phenomenon for the first time and by exploring its moral and spiritual dimensions through the lens of populist French religious literature of the day a body of work the author calls the Spiritual Rococo and which has never been applied directly to the arts The book traces Rococo s development from France through Central Europe Portugal Brazil and South America by following a chain of interlocking case studies whether artistic literary or ideological and it also considers the parallel diffusion of the literature of the Spiritual Rococo in these same regions placing particular emphasis on unpublished primary sources such as inventories One of the ultimate goals of this study is to move beyond the cliché of Rococo s frivolity and acknowledge its essential modernity Thoroughly interdisciplinary The Spiritual Rococo not only integrates different art historical fields in novel ways but also interacts with church and social history literary and post colonial studies and anthropology opening up new horizons in these fields **The Road from Eden**

Complexity and Contradiction in Architecture Robert Venturi,1977-01-01 Complexity and Contradiction in Architecture is the first in a series of occasional papers concerned with the theoretical background of modern architecture Unlike other Museum publications in architecture and design the series will be independent of the Museum s exhibition program and will explore ideas too complex for presentation in exhibition form and authors will represent no single professional group According to the author this book is both an attempt at architectural criticism and an apologia an explanation indirectly of his work The examples chosen reflect his partiality for certain eras Mannerist Baroque and Rococo especially Separate chapters cover concepts such as nonstraightforward architecture complexity and contradiction vs simplification or picturesqueness contradictory levels of meaning and use in architecture and the double functioning element Also discussed are the complexity and contradiction that develops from the program of the building and reflects the inherent complexities and contradictions of living The final chapter presents photographs and descriptions of the author s work A New History of Western Art

Koenraad Jonckheere,2022-10-15 A radical re examination of 2 500 years of European art deconstructing and demystifying its long history from ancient to present How has art evolved from the pursuit of the ideal human form to a black square on a white canvas Why is a banana duct taped to a wall worth more on the art market than a beautiful seventeenth century landscape By taking art for what it actually is a piece of stone or wood a sheet of paper with some lines drawn on it a painted canvas this lively and accessible account shows how seemingly meaningless objects can be transformed into celebrated works of art Breaking with conventional notions of artistic genius Koenraad Jonckheere explores how stories and emotions

give meaning to objects and why changing historical circumstances result in such shifting opinions over time Tracing its story from ancient times to present *A New History of Western Art* reframes the evolution of European art and radically reshapes our understanding of art history Published in association with Hannibal Books *A History of French Art, 1100-1899* Rose Georgina Kingsley, 1899 **Princelie Majestie** Andrea Thomas, 2005-08-10 The lifestyle of a Renaissance prince and his court was a work of art in itself a dazzling spectacle which propagated the power dignity and fame of the monarch The domestic routine of the royal household with its palatial surroundings restless itinerary and occasional public pageants provided the framework for cultural activity in its widest possible sense Fine art architecture scholarship literature music and piety jostled for attention alongside hunting feasting jousting politics diplomacy and war Emerging defiantly from a long and turbulent minority the adult James V managed to create for Scotland an exuberant and cosmopolitan court which imitated in miniature those of France England and the Netherlands and which carried important political messages His ambitious programme of royal patronage combined humanist scholarship neo classical and imperial imagery the cult of chivalry and medieval traditions in a blend which sought to galvanise Scottish national identity and enhance the status of the House of Stewart For many years the reputation of James V has been overshadowed by the tragic glamour of his father James IV killed at Flodden and his daughter Mary Queen of Scots *Princelie Majestie* reveals that he was an energetic and innovative patron who in a brief fourteen years created a court culture of remarkable quality and diversity *Princelie Majestie* was originally published by Tuckwell Press *Louis XIV's Architect* Richard Ballard, 2023-12-30 A must read for those seeking to understand the intersection of politics and art in a pivotal moment of European history This is a study of royal absolutism in a most extreme form in modern European history and of the nature of Louis XIV s concept of personal glory and of the embodiment of France as a new superpower It is a study of political ideas expressed in architecture to establish Versailles as the centre of French world power and royal prestige It is also a personal story full of social cultural and economic history of the period as seen in the life and work of Louis Le Vau from a humble family of craftsmen who was a self taught architect in the early history of the profession skilled in technical craft skills and even grand design He was a major contributor to the architectural glories of Paris including the Louvre Vincennes Versailles and the College of the Four Nations And all achieved despite interference from the great magnates of the age like Mazarin and Colbert and constant mind changing by the King who wanted every feature in the buildings to reflect his concept of personal royal prestige Le Vau was Louis XIV s First Architect from 1654 until his death and disgrace in 1670 The social cultural economic and political backdrop is striking with court intrigue scandal corruption luxury indulgence and the rise of a rich bourgeoisie but the main thrust of the story concerns Louis XIV and the royal personal ambition and the work of a stone cutter s son who became the Sun King s instrument The study is good on the more technical features of architectural history reminiscent of Pevsner s marvellous *Buildings of England* series **A World History of Architecture** Marian Moffett, Michael W. Fazio, Lawrence

Wodehouse, 2003 The Roman architect and engineer Vitruvius declared firmitas utilitas and venustas firmness commodity and delight to be the three essential attributes of architecture These qualities are brilliantly explored in this book which uniquely comprises both a detailed survey of Western architecture including Pre Columbian America and an introduction to architecture from the Middle East India Russia China and Japan The text encourages readers to examine closely the pragmatic innovative and aesthetic attributes of buildings and to imagine how these would have been praised or criticized by contemporary observers Artistic economic environmental political social and technological contexts are discussed so as to determine the extent to which buildings met the needs of clients society at large and future generations The New
