Efland,1990 Arthur Efland puts current debate and concerns in a well researched historical perspective He examines the institutional settings of art education throughout Western history the social forces that have shaped it and the evolution and impact of alternate streams of influence on present practice A History of Art Education is the first book to treat the visual arts in relation to developments in general education Particular emphasis is placed on the 19th and 20th centuries and on the social context that has affected our concept of art today This book will be useful as a main text in history of art education courses as a supplemental text in courses in art education methods and history of education and as a valuable resource for students professors and researchers The book should become a standard reference tool for art educators at all levels of the field The Journal of Aesthetics and Art Criticism Efland has filled a gap in historical research on art education and made an important contribution to scholarship in the field Studies in Art Education *Dance Teaching Methods and Curriculum Design* Gayle Kassing,Danielle Jay-Kirschenbaum,Danielle Mary Jay,2021 Dance Teaching Methods and Curriculum Design Second Edition presents a comprehensive model that prepares students to teach dance in school and community settings It offers 14 dance units and many tools to help students
