The Christian Philosophy of Jacques Maritain Jason L. A. West, 2025-02-28 A study of the Christian philosophy of Jacques Maritain 1882-1973 an influential creative and prolific writer He was widely recognized as one of the most prominent Catholic intellectuals during his own lifetime and was widely seen as a spokesman for the Thomistic revival This study aims to present Maritain's thought as a dynamic and coherent philosophy in its own right This is the only book in English to present Maritain's philosophy on the full range of topics upon which he wrote It focusses on Maritain as a twentieth century philosopher rather than an interpreter of Aquinas Accordingly this book presents Maritain's philosophy in its own context Finally this work is also attentive to the religious context of Maritain's philosophy and highlights his overlooked contributions to theology and other areas of philosophy that are informed by his theological commitments e.g. mysticism ecclesiology education and philosophy of history Accordingly The Christian Philosophy of Jacques Maritain aims at providing the reader with a comprehensive presentation of Maritain's thought and a clear vision of his philosophy as a whole

A Theology of Creation Thomas S. Hibbs, 2023-08-15 This book provides the first sustained philosophical treatment of Pope Francis's *Laudato Si* and articulates a theology of creation to recover our place within the cosmos In the encyclical *Laudato Si* Pope Francis discerns beneath the imminent threat of ecological catastrophe an existential affliction of the human person who is lost in the cosmos increasingly alienated from self others nature and God Pope Francis suggests that one must reimagine humanity's place in the created cosmos In this ambitious and distinctive contribution to theological aesthetics Thomas S Hibbs provides the basis for just such a recovery working from *Laudato Si* to develop a philosophical and theological diagnosis of our ecological dislocation a narrative account of the sources of the crisis and a vision of the way forward Through a critical engagement with the artistic theory of Jacques Maritain Hibbs shows how certain strains of modern art both capture our alienation and anticipate visions of recovered harmony among persons nature and God In the second half of the book in an attempt to fulfill Pope Francis's plea for an aesthetic education and to apply and test Maritain's theory Hibbs examines the work of poets and painters He analyzes the work of poets Robinson Jeffers and William Everson and considers painters Georges Rouault a friend to Maritain and Makoto Fujimura whose notion of culture care overlaps in suggestive ways with Francis's notion of integral ecology Throughout this tour de force Hibbs calls for a commitment to an ecological poetics a project that responds to the crisis of our times by taking poets and painters as seriously as philosophers and theologians

Poetic Theology William A. Dyrness, 2011 What are the poetics of everyday life What can they teach us about God Art music dance and writing can certainly be poetic but so can such diverse pastimes as fishing skiing or attending sports events Any and all activities that satisfy our fundamental need for play for celebration and for ritual says William Dyrness are inherently poetic and in *Poetic Theology* he demonstrates that all such activities are places where God is active in the world All of humanity's creative efforts Dyrness points out testify to our intrinsic longing for joy and delight and our deep desire to connect with others with the created order and especially with the Creator This desire is rooted in the presence and calling of God in and through the good creation With extensive reflection on aesthetics in spirituality worship and community development Dyrness's *Poetic Theology* will be useful for all who seek fresh and powerful new ways to communicate the gospel in contemporary society William Dyrness's bold invitation to a poetic theology shaped by Scripture tradition and imagination one luring us toward a fuller participation in beauty than argument or concept alone allow reminds us that truth itself is beautiful to behold and poetic to the core If poetry is in its deepest reflex an intensification of life then Dyrness's call for a poetic theology is one we ignore at our peril reminding us that faithful living is not only about proper thinking but also and perhaps more properly about the texture of our living and the quality of our loving Mark S Burrows Andover Newton Theological School Makes a strong case for aesthetics as one of the avenues used by God to draw human

beings near to him and his glory A wonderful journey through Reformed spirituality and a wake up call for Reformed theology

Aquinas, Aristotle, and the Promise of the Common Good Mary M. Keys, 2006-09-18 Aquinas Aristotle and the Promise of the Common Good first published in 2006 claims that contemporary theory and practice have much to gain from engaging Aquinas's normative concept of the common good and his way of reconciling religion philosophy and politics Examining the relationship between personal and common goods and the relation of virtue and law to both Mary M Keys shows why Aquinas should be read in addition to Aristotle on these perennial questions She focuses on Aquinas's Commentaries as mediating statements between Aristotle's Nicomachean Ethics and Politics and Aquinas's own Summa Theologiae showing how this serves as the missing link for grasping Aquinas's understanding of Aristotle's thought Keys argues provocatively that Aquinas's Christian faith opens up new panoramas and possibilities for philosophical inquiry and insights into ethics and politics Her book shows how religious faith can assist sound philosophical inquiry into the foundation and proper purposes of society and politics

The Maritain Factor Rajesh Heynicks, Jan de Maeyer, 2010 During the 1920's and 1930's many European modernist artists and intellectuals were seeking a primordial finality in Catholicism In order to distil the eternal from the transitory they became fascinated by a thought frame promoted by the French philosopher Jacques Maritain neo Thomism a revival of the study of the principles and methodology of the thirteenth century theologian Thomas Aquinas

Poetic Knowledge James S. Taylor, 1998-01-01 Reveals the neglected mode of knowing and learning from Socrates to the middle ages and beyond that relies more on the integrated powers of sensory experience and intuition rather than on modern narrow scientific models of education

Thomistic Tradition and Human Rights Carlos Isler Soto, 2023-09-22 The present book versos on the current discussion between authors writing within the Thomistic tradition on the issue of human rights and pretends to adjudicate that discussion The positions of authors who are critical of the notion of human

rights like Michel Villey and Alasdair MacIntyre as well as that of those who try to justify their existence and explain their nature like Jacques Maritain John Finnis and others are carefully explained and evaluated This book is the first to deal in detail with this contemporary discussion and therefore represents an important contribution to the bibliography on the philosophy of human rights as well as to the bibliography on the Thomistic tradition

The Ontology, Psychology and Axiology of Habits (Habitus) in Medieval Philosophy Nicolas Faucher, Magali Roques, 2019-01-12 This book features 20 essays that explore how Latin medieval philosophers and theologians from Anselm to Buridan conceived of habitus as well as detailed studies of the use of the concept by Augustine and of the reception of the medieval doctrines of habitus in Suarez and Descartes Habitus are defined as stable dispositions to act or think in a certain way This definition was passed down to the medieval thinkers from Aristotle and to a lesser extent Augustine and played a key role in many of the philosophical and theological developments of the time Written by leading experts in medieval and modern philosophy the book offers a historical overview that examines the topic in light of recent advances in medieval cognitive psychology and medieval moral theory Coverage includes such topics as the metaphysics of the soul the definition of virtue and vice and the epistemology of self knowledge The book also contains an introduction that is the first attempt at a comprehensive survey of the nature and function of habitus in medieval thought The material will appeal to a wide audience of historians of philosophy and contemporary philosophers It is relevant as much to the historian of ancient philosophy who wants to track the historical reception of Aristotelian ideas as it is to historians of modern philosophy who would like to study the progressive disappearance of the term habitus in the early modern period and the concepts that were substituted for it In addition the volume will also be of interest to contemporary philosophers open to historical perspectives in order to renew current trends in cognitive psychology virtue epistemology and virtue ethics
