Art And Discontent Theory At The Millennium:

Art & Discontent Thomas McEvilley, 1991 The Work of Art in a Digital Age: Art, Technology and Globalisation

Melissa Langdon, 2014-08-20 This book explores digital artists' articulations of globalization. Digital artworks from around the world are examined in terms of how they both express and simulate globalization's impacts through immersive participatory and interactive technologies. The author highlights some of the problems with macro and categorical approaches to the study of globalization and presents new ways of seeing the phenomenon as a series of processes and flows that are individually experienced and expressed. Instead of providing a macro analysis of large scale political and economic processes, the book offers imaginative new ways of knowing and understanding globalization as a series of micro affects. Digital art is explored in terms of how it re-centers articulations of globalization around individual experiences and offers new ways of accessing a complex topic often expressed in general and intangible terms. *The Work of Art in a Digital Age: Art Technology and Globalization* is analytic and accessible with material that is of interest to a range of researchers from different disciplines. Students studying digital art, film, globalization, cultural studies, or digital media trends will also find the content fascinating.

Critical Terms for the Study of Buddhism Donald S. Lopez Jr., 2009-11-15 Over the past century, Buddhism has come to be seen as a world religion exceeding Christianity in longevity and, according to many philosophical wisdom, Buddhism has also increasingly been described as strongly ethical, devoted to nonviolence, and dedicated to bringing an end to human suffering. And because it places such a strong emphasis on rational analysis, Buddhism is considered more compatible with science than the other great religions. As such, Buddhism has been embraced in the West both as an alternative religion and as an alternative to religion. This volume provides a unique introduction to Buddhism by examining categories essential for a nuanced understanding of its traditions. Each of the fifteen essays here shows students how a fundamental term from art to word illuminates the practice of Buddhism both in traditional Buddhist societies and in the realms of modernity. Apart from Buddha, the list of terms in this collection deliberately includes none that are intrinsic to the religion. Instead, the contributors explore terms that are important for many fields and that invite interdisciplinary reflection. Through incisive discussions of topics ranging from practice, power, and pedagogy to ritual, history, sex, and death, the authors offer new directions for the understanding of Buddhism, taking constructive and sometimes polemical positions in an effort both to demonstrate the shortcomings of assumptions about the religion and the potential power of revisionary approaches. Following the tradition of *Critical Terms for Religious Studies*, this volume is not only an invaluable resource for the classroom but one that belongs on the short list of essential books for anyone seriously interested in Buddhism and Asian religions. **How Folklore Shaped**

Modern Art Wes Hill, 2015-11-19 Since the 1990s, artists and art writers around the world have increasingly undermined the essentialism associated with notions of critical practice. We can see this manifesting in the renewed relevance of what were previously considered outsider art practices, the emphasis on first person accounts of identity over critical theory, and the

proliferation of exhibitions that refuse to distinguish between art and the productions of culture more generally How Folklore Shaped Modern Art A Post Critical History of Aesthetics underscores how the cultural traditions belief systems and performed exchanges that were once integral to the folklore discipline are now central to contemporary art s post critical turn This shift is considered here as less a direct confrontation of critical procedures than a symptom of art s inclusive ideals overturning the historical separation of fine art from those uncritical forms located in material and commercial culture In a global context aesthetics is now just one of numerous traditions informing our encounters with visual culture today symptomatic of the pull towards an impossibly pluralistic image of art that reflects the irreducible conditions of identity

Proceedings of the Art and Design International Conference (AnDIC 2016) Rusmadiyah Anwar, Muliyadi Mahamood, D'zul Haimi Md. Zain, Mohamad Kamal Abd Aziz, Oskar Hasdinor Hassan, Shahrman Zainal Abidin, 2018-06-18 This book of conference proceedings contains papers presented at the Art and Design International Conference AnDIC 2016 It examines the impact of Cyberology also known as Internet Science on the world of art and design It looks at how the rapid growth of Cyberology and the creation of various applications and devices have influenced human relationships The book discusses the impact of Cyberology on the behaviour attitudes and perceptions of users including the way they work and communicate

With a strong focus on how the Cyberology world influences and changes the methods and works of artists this book features topics that are relevant to four key players artists intermediaries policy makers and the audience in a cultural system especially in the world of art and design It examines the development problems and issues of traditional cultural values identity and new trends in contemporary art Most importantly the book attempts to discuss the past present and future of art and design whilst looking at some underlying issues that need to be addressed collectively Interpreting Visual Culture Ian Heywood, Barry Sandywell, 2005-07-28 Interpreting Visual Culture brings together original writings from leading experts in art history philosophy sociology and cultural studies Ranging from an analysis of the role of vision in current critical discourse to discussion of specific examples taken from the visual arts ethics and sociology it presents the latest material on the interpretation of the visual in modern culture Among topics covered are the visual rhetoric of modernity the drawings of Bonnard recent feminist art practices and perception in arts and ethics Music and Literary Modernism Robert P. McParland, 2009-10-02 In Music and Literary Modernism the intersections of music literature and language are examined by an international group of scholars who engage in studies of modernist art and practice The essays collected here present the significant place of music in the writing of T S Eliot Ernest Hemingway James Joyce James Weldon Johnson Mina Loy Stephen Mallarme Ezra Pound Marcel Proust Gertrude Stein Wallace Stevens and Virginia Woolf as well as the importance of literary art for composers such as George Antheil Pierre Boulez Olivier Messiaen and The Beatles Contributors explore the role of music and literary modernism in the postmodern sublime sound and music in language the uneasy alliance of jazz and pop song in high modernist work the Beatles as modernists and other topics This is a revised and updated second edition The Life & the Work Charles G. Salas, 2007 It is often assumed that reading about the lives of artists enhances our understanding of their work and that their work reveals something about them but the relationship between biography and art is rarely straightforward In The Life and the Work art historians Thomas Crow Charles Harrison Rosalind Krauss Debora Silverman Paul Smith and Robert Williams address this fundamental if convoluted relationship Looking to such figures as Andy Warhol Bob Dylan Vincent van Gogh Paul C zanne Leonardo da Vinci and the artists associated with the name Art Language the volume s authors have written a set of provocative essays that explore how an artist s life and art are intertwined Attack of the Difficult Poems Charles Bernstein, 2011-04-30 Charles Bernstein is our postmodern jester of American poesy equal part surveyor of democratic vistas and scholar of avant garde sensibilities In a career spanning thirty five years and forty books he has challenged and provoked us with writing that is decidedly unafraid of the tensions between ordinary and poetic language and between everyday life and its adversaries Attack of the Difficult Poems his latest collection of essays gathers some of his most memorably irreverent work while addressing seriously and comprehensively the state of contemporary humanities the teaching of unconventional forms fresh approaches to translation the history of language media and the connections between poetry and visual art Applying an array of essayistic styles Attack of the Difficult Poems ardently engages with the promise of

its title Bernstein introduces his key theme of the difficulty of poems and defends often in comedic ways not just difficult poetry but poetry itself Bernstein never loses his ingenious ability to argue or his consummate attention to detail Along the way he offers a wide ranging critique of literature s place in the academy taking on the vexed role of innovation and approaching it from the perspective of both teacher and practitioner From blues artists to Tin Pan Alley song lyricists to Second Wave modernist poets *The Attack of the Difficult Poems* sounds both a battle cry and a lament for the task of the language maker and the fate of invention

Museums in the Material World Simon Knell,2007-08-07 *Museums in the Material World* seeks to both introduce classic and thought provoking pieces and contrast them with articles which reveal grounded practice The articles are selected from across the full breadth of museum disciplines and are linked by a logical narrative as detailed in the section introductions The choice of articles reveals how the debate has opened up on disciplinary practice how the practices of the past have been critiqued and in some cases replaced how it has become necessary to look beyond and outside disciplinary boundaries and how old practices can in many circumstances continue to have validity *Museums in the Material World* is about broadening horizons and moving museum studies students and others beyond the narrow confines of their own disciplinary thinking or indeed any narrow conception of collections In essence this is a book about the practice of interpretation and will therefore be of great use to those students and museum practitioners involved in the field of material culture in museums

The Cyborg Experiments Joanna Zylińska,2002-06-13 *The Cyborg Experiments* analyzes the challenges posed to corporeality by technology Taking as their starting point the work of the highly influential performance artists Orlan and Stelarc the essays in this timely and important collection raise a number of questions in relation to new conceptions of embodiment identity and otherness in the age of new technologies Has the body become obsolete Does transgender challenge traditional ideas of agency Have we always been cyborgs In addition to highlighting the playful character of digital aesthetics the contributors investigate ethical issues concerning the ownership of our bodies and the experiments we perform on them In this way the book explores how humanism and ideas of the human have been placed under increasing scrutiny as a result of new developments in science media and communications Contributors John Appleby Rachel Armstrong Fred Botting Julie Clarke Gary Hall Chris Hables Gray Meredith Jones Orlan Mark Poster Jay Prosser E A Scheer Zdzisław Stelarc Scott Wilson Joanna Zylińska

Capacity Thomas McEvelley,2016-04-08 G Roger Denson brings singular insight to Thomas McEvelley s writings As an art writer he has explored similar territory but from the point of view of a nomadic ideologist His approach matches that of his subject He addresses the issues of pragmatism historicism and cultural relativism In so doing he effectively dismantles the need to establish a master narrative The contrast and agreement between these two writers constitutes a mapping of the terrain of contemporary culture What sets Thomas McEvelley apart from other critics in art and culture is his direct knowledge of the

newest art and theory and his comprehensive understanding of classic art and ancient civilizations It is rare to find a writer equally fluent in the production of modernist aesthetics the anti aesthetics of post modernism Tang Dynasty Taoist painting the doctrines of the Tantra Platonic mysticism and Aristotelian logic This vast knowledge has enabled him to produce some of the best conceived and eccentric

Visual Culture Richard Howells, Joaquim Negreiros, 2012-01-10 The first part of the book is concerned with differing theoretical approaches to visual analysis and includes chapters on iconology form art history ideology semiotics and hermeneutics The second part shifts from a theoretical to a medium based approach and comprises chapters on fine art photography film television and new media These investigate the complex relationship between reality and visual representation Book Jacket
