**Work** Debra Gimlin,2002-01-02 Debra Gimlin focuses on four sites where she conducted in depth research a beauty salon  
aerobics classes a plastic surgery clinic and a social and political organization for overweight women The honest and  
provocative interviews included in this book uncover these women s feelings about their bodies their reasons for attempting  
to change or come to terms with them and the reactions of others in their lives These interviews show that women are  
redefining their identities through their participation in body work that they are working on their self images as much as on  
their bodies Plastic surgery for example ultimately is an empowering life experience for many women who choose it while  
hairstyling becomes an arena for laying claim to professional and social class identities      **The 1931-1940: American Film**

Representations of Indianness, 1629-1824 Cathy Rex,2016-03-09 Examining the appropriations and revisions of Indian  
identity first carried out by Anglo American engravers and later by early Anglo American women writers Cathy Rex shows the  
ways in which iconic images of Native figures inform not only an emerging colonial early republican American identity but  
also the authorial identity of white women writers Women such as Mary Rowlandson Ann Eliza Bleecker Lydia Maria Child  
and the pseudonymous Unca Eliza Winkfield of *The Female American* Rex argues co opted and revised images of Indianness  
such as those found in the Massachusetts Bay Colony seal and the numerous variations of Pocahontas s image based on  
Simon Van de Passe s original 1616 engraving Doing so allowed them to posit their own identities and presumed superiority  
as American women writers Sometimes ugly occasionally problematic and often patently racist the Indian writings of these  
women nevertheless question the masculinist and Eurocentric discourses governing an American identity that has always had  
Indianness at its core Rather than treating early American images and icons as ancillary to literary works Rex places them in  
conversation with one another suggesting that these well known narratives and images are mutually constitutive The result is  
a new more textually inclusive perspective on the field of early American studies      **American Photo** ,1999-01      **The**
