Handbook of Oriental Studies. Section 1 the Near and Middle East, History of Islamic States, Wirtschaftsgeschichte Des Vorderen Orients in Islamischer Bernard Lewis,1977 *Studies in the Aramaic Legal Papyri from Elephantine* Yochanan Muffs,2015-11-02 Long recognized as a brilliant cross cultural study Yochanan Muffs work analyzes the legal formulary of the Aramaic papyri from Elephantine at the first cataract of the Nile where a Persian garrison comprised of Jewish soldiers and their families lived throughout most of the 5th century B C E These documents are of exceptional importance for the study of ancient Near Eastern law and Muffs has investigated their formative background through extensive references to cuneiform law by a method he calls the Assyriological approach Virtually every aspect of law sale of land marriage and family law loans and credit the taking of oaths and the granting of bequests is studied in great depth and with unusual clarity Muffs work has enjoyed renewed interest in the light of more recent discoveries of Aramaic legal documents from later periods as in the Judean Desert A Comparative Glossary of Cypriot Maronite Arabic (Arabic-English) Alexander Borg,2004-10-01 Cypriot Arabic an unwritten language and mother tongue of several hundred bilingual Arabic Greek Maronites from Kormakiti N W Cyprus evolved from a medieval Arabic colloquial brought to the island by Christian Arab migrants probably from Asia Minor and Syria It represents the outcome of a unique linguistic and cultural synthesis drawing on Arabic Aramaic and Greek its Arabic component also shows a hybrid areal profile combining Greater Syrian traits with formal features typical of the contemporary S E Anatolian Mesopotamian dialectal continuum A number of rare Aramaic substratal elements in Cypriot Arabic suggest a relatively early separation of its parent dialect from mainstream Arabic This lexicon surveys about 2000 Cypriot Arabic terms against the background of extensive comparative material from the Arabic dialects Old Arabic and colloquial and literary varieties of Aramaic Many Cypriot Arabic terms are here cited with illustrative examples and ethnographic commentary where relevant Cypriot Arabic is an endangered language the present glossary is the most comprehensive lexical record of this scientifically intriguing variety of peripheral Arabic It is primarily intended for orientalists and linguists specializing in comparative Semitics and Arabic dialectology Handbook of Ugaritic Studies Wilfred Watson,Nicolas Wyatt,2016-02-15 Over the past seven decades the scores of publications on Ugarit in Northern Syria 15th to 11th centuries BCE are so scattered that a good overall view of the subject is virtually impossible Wilfred Watson and Nicolas Wyatt the editors of the present Handbook in the series Handbook of Oriental Studies have brought together and made accessible this accumulated knowledge on the archives from Ugarit called the foremost literary discovery of the twentieth century by Cyrus Gordon In 16 chapters a careful selection of specialists in the field deal with all important aspects of Ugarit such as the discovery and decipherment of a previously unknown script alphabetic cuneiform used to write both the local language Ugaritic and Hurrian and its grammar vocabulary and style documents in other languages including Akkadian and Hittite as well as the literature and letters culture economy social life religion history and iconography of the ancient
