Eric Gruber von Arni

Army James II And The Glorious Revolution:

The Army, James II, and the Glorious Revolution John Charles Roger Childs, 1980-01-01 [The Army, James II, and the Glorious Revolution](#) John Childs, 1980 [James II and English Politics, 1678-1688](#) Michael A. Mullett, 1994 Michael Mullett reconsiders in the light of recent scholarship and of altering perceptions of the English past the events of the crucial years 1678 1688 from the Restoration era through the exclusion crisis to the Glorious Revolution Michael Mullett reconsiders in the light of recent r attlee s and of altering perceptions of the English past the events of the crucial years 1678 1688 from the Restoration era through the exclusion crisis and subsequent reign of James to the Glorious Revolution of 1688 He focuses on the central role of James Duke of York and from 1685 1688 King of England but locates the growing difficulties of his reign within the wider context of political and religious trends [James II and the Three Questions](#) Peter Walker, 2010 Through a mixture of edited collections and single authored volumes the series aims both to examine how radical diversity has arisen in the religious and political constitution of society and to analyse the implications for the future so as to help ensure the harmonious relations between communities and the best practice of government Studies in the History of Religious and Political Pluralism evaluate new trends and make available the findings of empirical research **The Oxford History of the British Empire: Volume I: The Origins of Empire** William Roger Louis, Nicholas Canny, Elaine M. Low, 2001-07-26 The Oxford History of the British Empire is a major new assessment of the Empire in the light of recent scholarship and the progressive opening of historical records Volume I explores the origins of empire It shows how and why England and later Britain became involved with transoceanic navigation trade and settlement during the sixteenth and seventeenth centuries Leading historians illustrate the interconnections between developments in Europe and overseas and offer specialist studies on every part of the world that was substantially affected by British colonial activity **Early Modern Britain, 1450-1750** John Miller, 2017-04-13 A wide ranging survey of the political social cultural and economic history of early modern Britain offering a fully integrated four nation perspective [Armies and Political Change in Britain, 1660-1750](#) Hannah Smith, 2021 Armies and Political Change in Britain 1660 1750 explores significant continuities and developments in the armed forces across the reigns of seven monarchs using a vivid and extensive array of archival literary and artistic material to present a new perspective on the political and military history of Britain [To Keep and Bear Arms](#) Joyce Lee Malcolm, 1996 This work illuminates the historical facts behind the current debate about gun related violence the Brady Bill and the NRA including the original meaning and intentions behind the right to bear arms It traces its roots to the legacy of English law leading directly to the Second Amendment **Scottish Soldiers in France in the Reign of the Sun King** Matthew Glozier, 2004-05-01 This volume examines the role and significance of Scottish soldiers in France in the age of the Sun King Louis XIV The study examines the complex relationship of expatriate Scottish soldiers to their homeland and native sovereign within the context of a changing environment for military employment The amity of the so called auld

alliance meant little in an age of rapid development in the relationship between armies and the states they served Caught in the middle were a number of Scots attempting to perpetuate traditional modes of employment abroad They found themselves the target of increasing pressures to commit wholeheartedly to one employer or another The book surveys the history of Scottish soldiers service on the continent generally and in France in particular by examining the specific conditions of military service there in the Sun King s reign with a special focus on the soldiers of the regiment of George Douglas Earl of Dumbarton

European Military Books and Intellectual Cultures of War in 17th-Century Russia Oleg Rusakovskiy, 2024-09-16 This book discusses the role Western military books and their translations played in 17th century Russia By tracing how these translations were produced distributed and read the study argues that foreign military treatises significantly shaped intellectual culture of the Russian elite It also presents Tsar Peter the Great in a new light not only as a military and political leader but as a devoted book reader and passionate student of military science

James II John Miller, 2008-10-01 James II 1633 1701 lacked the charisma of his father Charles I but shared his tendency to dismiss the views of others when they differed from his own Failing to understand his subjects James was also misunderstood by them In this highly regarded biography John Miller reassesses James II and his reign drawing on a wide array of primary sources from France Italy and Ireland as well as England Miller argues that the king had many laudable attributes he was brave loyal honorable and hard working and he was at least as benevolent toward his people as his father had been Yet James s conversion to Catholicism fueled the distrust of his Protestant subjects who placed the worst possible construction on his actions and statements Although James came to see the securing of religious freedom for Catholics in the wider context of freedom for all religious minorities his people naturally doubted the sincerity of his commitment to toleration The book explores James s relations with the state and society focusing on the political diplomatic and religious issues that shaped his reign Miller discusses the human failings the gulf of understanding between the king and his subjects and the sheer bad luck that led to James s downfall He also considers the reasons for James s lack of interest in recovering his kingdom after his flight to France in 1688 This revised edition of the book includes a substantial new foreword assessing recent work on the reign This is a first class essay in historical biography It must displace all previous lives of James II J P Kenyon Observer

James II: King in Exile John Callow, 2011-11-30 James II was Britain s last Catholic king The spectacular collapse of his regime in 1688 and the seizure of his throne by his nephew William of Orange are the best known events of his reign But what of his life after this What became of him during his final exile John Callow s groundbreaking study focuses on this hitherto neglected period of his life the twelve years he spent attempting to recover his crown through war diplomacy assassination and subterfuge This is the story of the genesis of Jacobitism of the devotion of the fallen king s followers who shed their blood for him at the battle of the Boyne and the massacre at Glencoe gave up estates and riches to follow him to France and immortalised his name in artworks print and song Yet this first King Over the Water was far more than a

figurehead A grim inflexible warlord and a maladroitness politician he was also a man of undeniable principle which he pursued regardless of the cost to either himself or his subjects He was an author of considerable talent and a monarch capable of successive reinventions Denied his earthly kingdoms he finally settled upon attaining a heavenly crown and was venerated by the Jacobites as a saint This powerful evocative and original book will appeal to anyone interested in Stuart history politics culture and military studies

International Politics and Warfare in the Age of Louis XIV and Peter the Great

William Young, 2004 The Peace of Westphalia 1648 ending the Thirty Years War resulted in the rise of the modern European states system However dynasticism power politics commerce and religion continued to be the main issues driving International politics and warfare Dr William Young examines war and diplomacy during the Age of Louis XIV and Peter the Great His study focuses on the later part of the Franco Spanish War the Wars of Louis XIV and the Anglo Dutch Wars in the West In addition the author explores the wars of the Baltic Region and East Europe including the Thirteen Years War Second Northern War War of the Holy League and the Great Northern War The study includes a guide to the historical literature concerning war and diplomacy during this period It includes bibliographical essays and a valuable annotated bibliography of over six hundred books monographs dissertations theses journal articles and essays published in the English language International Politics and Warfare in the Age of Louis XIV and Peter the Great is a valuable resource for individuals interested in the history of diplomacy warfare and Early Modern Europe

Hospital Care and the British Standing

Army, 1660-1714 Eric Gruber von Arni, 2017-09-29 At the Restoration of the Monarchy in 1660 amongst the first acts of Charles II's government was the abolition of the New Model Army and the sweeping away of the legislation and institutions that had supported it including most of the medical provisions provided by the republican regime Nevertheless a small rump of the Commonwealth forces was retained to form a royal standing army which rapidly expanded over the next sixty years to become a formidable fighting force Inevitably as this force grew the new government was compelled to provide medical care for its soldiers and ex servicemen Taking a broadly chronological approach this book explores the nature and the quality of medical nursing and welfare facilities provided in hospitals for soldiers during the formative years of the British standing army between 1660 and 1714 It shows how over the course of latter part of the seventeenth century the British army adapted and developed its facilities in line with new advances in science medicine and military theory Increased involvement in continental wars and contact with European armies provided inspiration for the founding of the well known Royal Hospitals at Chelsea and Kilmainham based on Louis XIV's H tel des Invalides The work also provides an in depth examination of the work of the hitherto sparsely documented field hospitals that provided acute casualty care to troops during the reigns of James II William III and Queen Anne Following on from his ground breaking study of medical care during the English Civil Wars Justice to the Maimed Soldier Eric Gruber von Arni in this study shows how the British army of the Restoration period struggled to develop systems and institutions that could cope with the increasing scale of contemporary warfare Through

extensive archival research and a thorough understanding of military medical requirements a lucid account is provided that will be of interest not only to military and medical historians but also anyone interested in the development of early modern institutions and organisations

Deposing Monarchs Cathleen Sarti, 2021-12-30 *Deposing Monarchs* analyses depositions in Northern Europe between 1500 and 1700 as a type of frequent political conflict which allows to present new ideas on early modern state formation monarchy and the conventions of royal rulership The book revises earlier conceptualizations of depositions as isolated unique events that emerged in the context of national historiographies An examination of the official legitimations of depositions reveals that in times of crisis concepts of tradition rule of law and political consensus are much more influential than the divine right of kings Tracing the similarities and differences of depositions in Northern Europe transnationally and diachronically the book shows monarchical succession as more non linear than previously presumed It offers a transferable model of the different elements needed in depositions such as opposition to the monarch by multiple groups in a realm the need for a convincing rival candidate and a legitimation based on political traditions or religious ideas Furthermore the book bolsters our understanding of authority and rule as a constant process of negotiation adding to recent research on political culture and on the cultural history of politics

Redefining William III David Onnekink, Esther Mijers, 2016-04-08 William III 1650 1702 was Stadholder in the United Provinces and King of England Scotland and Ireland His reign has always intrigued historians as it encompassed such defining events as the Dutch year of Disaster 1672 the Glorious Revolution 1688 and the ensuing wars against France Although William has played a pivotal role in the political and religious history of his countries the significance and international impact of his reign is still not very well understood This volume contains a number of innovative essays from specialists in the field which have evolved from papers delivered to an international conference held at the University of Utrecht in December 2002 By focusing on the entire period 1650 1702 from an international perspective the volume moves historical discussion away from the traditional analysis of single events to encompass William s entire reign from a variety of political religious intellectual and cultural positions In so doing it offers a new perspective on the British and Dutch reigns of William III as well as the wider European milieu

The Right to Bear Arms Stephen P. Halbrook, 2021-05-03 The U S Supreme Court has recognized the individual right to keep and bear arms but courts in states that have extreme gun control restrictions apply tests that balance the right away This book demonstrates that the right peaceably to carry firearms is a fundamental right recognized by the text of the Second Amendment and is part of our American history and tradition Halbrook s scholarly work is an exhaustive historical treatment of the fundamental individual right to carry firearms outside of the home Halbrook traces this right from its origins in England through American colonial times the American Revolution the Constitution s ratification debates and then through the antebellum and post bellum periods including the history surrounding the enactment of the Fourteenth Amendment to the U S Constitution This book is another important contribution by Halbrook to the scholarship concerning the text history

and tradition of the Second Amendment's right to bear and carry arms **James II** W. A. Speck, 2016-04-15 Forced out of power in the Glorious Revolution of 1688 and defeated in the subsequent battle of the Boyne by William of Orange the short reign of James II has an importance that reaches far beyond his three years in power An ardent Roman Catholic his efforts to return England to the Catholic faith resonate to this day in Northern Ireland Similarly his attacks on the representative institutions that had been developing since the Restoration alienated an initially enthusiastic parliament William Speck looks at all these issues through the figure of the King Far more broad ranging than other histories of James II the book examines James' role in the American colonies assigned to him by his brother Charles II his role in Scotland between 1679 and 1682 and his final exercise of power in Ireland **A/AS Level History for AQA The Sun King: Louis XIV, France and Europe, 1643-1715 Student Book** David Hickman, 2016-07-07 A new series of bespoke full coverage resources developed for the AQA 2015 A/AS Level History Written for the AQA A/AS Level History specifications for first teaching from 2015 this print Student Book covers The Sun King Louis XIV France and Europe 1643-1715 Depth component Completely matched to the new AQA specification this full colour Student Book provides valuable background information to contextualise the period of study Supporting students in developing their critical thinking research and written communication skills it also encourages them to make links between different time periods topics and historical themes **James II & VII** Laura Brennan, 2023-06-30 James II VII was not born to be a king As the Duke of York he grew up in a Britain divided by civil wars and witnessed big events in British history including the Battle of Edgehill 1642 After the execution of his father Charles I at the hands of the Parliamentarians James soldiered in Europe until his brother Charles II was restored to the crowns of Britain Under his brother's reign James converted to Catholicism and subsequently became the heart of several political storms until 1681 Upon inheriting the throne from his brother Charles II in 1685 James struggled to balance his personal faith and the evolving politics of the time upsetting courtiers his parliament and his subjects eventually leading to the Glorious Revolution and him losing his throne in 1688 This book examines the politics and events of James' life both before and during his reign to explain why he was unable to maintain the thrones of Britain as well as the last few years of his life in exile how he tried to regain the throne and his sad death Often overlooked as just a king who ruled for less than four years James II VII was an accidental but key historical figure in the shaping of British history The events at the end of his reign were the first steps in creating a better constitution and democratic Britain

This book delves into Army James Ii And The Glorious Revolution. Army James Ii And The Glorious Revolution is an essential topic that must be grasped by everyone, ranging from students and scholars to the general public. The book will furnish comprehensive and in-depth insights into Army James Ii And The Glorious Revolution, encompassing both the fundamentals and more intricate discussions.

1. This book is structured into several chapters, namely:
 - Chapter 1: Introduction to Army James Ii And The Glorious Revolution
 - Chapter 2: Essential Elements of Army James Ii And The Glorious Revolution
 - Chapter 3: Army James Ii And The Glorious Revolution in Everyday Life
 - Chapter 4: Army James Ii And The Glorious Revolution in Specific Contexts
 - Chapter 5: Conclusion
 2. In chapter 1, this book will provide an overview of Army James Ii And The Glorious Revolution. The first chapter will explore what Army James Ii And The Glorious Revolution is, why Army James Ii And The Glorious Revolution is vital, and how to effectively learn about Army James Ii And The Glorious Revolution.
 3. In chapter 2, the author will delve into the foundational concepts of Army James Ii And The Glorious Revolution. This chapter will elucidate the essential principles that must be understood to grasp Army James Ii And The Glorious Revolution in its entirety.
 4. In chapter 3, the author will examine the practical applications of Army James Ii And The Glorious Revolution in daily life. This chapter will showcase real-world examples of how Army James Ii And The Glorious Revolution can be effectively utilized in everyday scenarios.
 5. In chapter 4, this book will scrutinize the relevance of Army James Ii And The Glorious Revolution in specific contexts. The fourth chapter will explore how Army James Ii And The Glorious Revolution is applied in specialized fields, such as education, business, and technology.
 6. In chapter 5, the author will draw a conclusion about Army James Ii And The Glorious Revolution. This chapter will summarize the key points that have been discussed throughout the book.
- The book is crafted in an easy-to-understand language and is complemented by engaging illustrations. It is highly recommended for anyone seeking to gain a comprehensive understanding of Army James Ii And The Glorious Revolution.
