

A black and white portrait of a man with a full beard and mustache, wearing a dark military uniform with epaulettes and a collar. The portrait is the background of the book cover.

Army Generals and Reconstruction

Louisiana, 1862-1877

JOSEPH G. DAWSON III

Army Generals And Reconstruction Louisiana 1862 1877

Joseph G. Dawson III

Army Generals And Reconstruction Louisiana 1862 1877:

Army Generals and Reconstruction Joseph G. Dawson, 1982 The U S Army faced extraordinary problems while policing the post Civil War South and the task may have been most difficult in Louisiana where Reconstruction lasted longer than in any other of the former Confederate states Beginning with General Benjamin Franklin Butler who boasted that in six months New Orleans should be a Union city or a home of the alligators the Union generals who commanded Louisiana met with varying degrees of success in their attempts to enforce the constantly evolving Reconstruction policies of three administrations on a people who openly despised their conquerors Covering the period from the fall of New Orleans to Federal forces through the collapse of Stephen Packard s Republican government in 1877 **Army Generals and Reconstruction** by Joseph G Dawson III is a history and a detailed analysis of the army s responsibilities accomplishments and failures in Reconstruction Louisiana Dawson shows how the decisions and attitudes of the army commanders were crucial to both the Republican and Democratic parties and how neither side could act confidently without knowing first how the generals would respond to their actions He examines the army commanders efforts to ensure that blacks and Republicans could exercise their civil and political rights and he looks at the influence General Philip Sheridan exerted on Louisiana Reconstruction politics both during his supervision of the state and after President Andrew Johnson reassigned him elsewhere Based on a close examination of archival sources **Army Generals and Reconstruction** reveals the full complexity of the army s involvement in this tumultuous period in Louisiana politics

Army Generals and Reconstruction Joseph G. Dawson III, 1994-10-01 The U S Army faced extraordinary problems while policing the post Civil War South and the task may have been the most difficult in Louisiana where Reconstruction lasted longer than in any other of the former Confederate states Beginning with General Benjamin Franklin Butler who boasted that in six months New Orleans should be a Union city or a home of the alligators the Union generals who commanded Louisiana would meet with varying degrees of success in their attempts to enforce the constantly evolving Reconstruction policies of three administrations on a people who openly despised their conquerors Covering the period from the fall of New Orleans to Federal forces through the collapse of Stephen Packard s Republican government in 1877 **Army Generals and Reconstruction** is a history and a detailed analysis of the army s responsibilities accomplishments and failures in Reconstruction Louisiana The first book to fully examine and assess the army s direct influence on Louisiana politics during Reconstruction Joseph G Dawson s study shows how the decisions and attitudes of the army commanders were crucial to both the Republican and Democratic parties and how neither side could act confidently without knowing first how the generals would respond to their actions Dawson examines the army commanders efforts to ensure that blacks and Republicans could exercise their civil and political rights He reveals the difficulties commanders often faced in protecting Republicans from Democratic violence and economic retribution particularly during the 1870s when the conservative Democrats mounted an intensive and violent campaign to regain control

of the state government Dawson also looks at the influence of General Philip Sheridan on Louisiana Reconstruction politics During his command in the state Sheridan was able to protect and strengthen the Republican party but his policies incurred the displeasure of President Andrew Johnson who ordered him out of Louisiana to a new assignment on the Great Plains Sheridan however retained his interest in Louisiana politics and his support of Radical Reconstruction and was later twice sent into the state on special missions by President U S Grant Still despite the efforts of Sheridan and other pro Republican officers the Democrats worked their way back into power Based on a close examination of archival sources including the personal papers of the officers who commanded the occupation forces this study by Joseph G Dawson reveals the fully complexity of the army s involvement in Louisiana politics throughout Reconstruction **Army History** ,1989 **A Handbook of American Military History** Jerry K. Sweeney,Kevin B. Byrne,2006-01-01 The second edition of A Handbook of American Military History delineates the military history of the United States from the Revolutionary War into the opening stages of the twenty first century war on terrorism Comprehensive and easy to use it supplies essential information on the social technological political tactical and strategic developments that have affected the evolution of the U S armed forces New to the second edition is a chapter on U S military history from 1995 through 2004 and an index A Handbook of American Military History is the perfect reader s guide for the military history buff or anyone interested in a brief overview of American military history *The Reconstruction Presidents* Brooks D. Simpson,1998 Brooks Simpson examines the policies of each administration in depth and evaluates them in terms of their political social and institutional contexts Simpson explains what was politically possible at a time when federal authority and presidential power were more limited than they are now He compares these four leaders handling of similar challenges such as the retention of political support and the need to build a southern base for their policies in different ways and under different circumstances and he discusses both their use of executive power and the impact of their personal beliefs on their actions [Armed Diplomacy: Two Centuries of American Campaigning](#) , **Lee and His Generals** Lawrence Lee Hewitt,Thomas E. Schott,2012-06-25 A legendary professor at Louisiana State University T Harry Williams not only produced such acclaimed works as Lincoln and the Radicals Lincoln and His Generals and a biography of Huey Long that won both the Pulitzer Prize and the National Book Award but he also mentored generations of students who became distinguished historians in their own right In this collection ten of those former students along with one author greatly inspired by Williams s example offer incisive essays that honor both Williams and his career long dedication to sound imaginative scholarship and broad historical inquiry The opening and closing essays fittingly enough deal with Williams himself a biographical sketch by Frank J Wetta and a piece by Roger Spiller that place Williams in larger historical perspective among writers on Civil War generalship The bulk of the book focuses on Robert E Lee and a number of the commanders who served under him starting with Charles Roland s seminal article The Generalship of Robert E Lee the only one in the collection that has been previously published Among the essays that follow Roland s are

contributions by Brian Holden Reid on the ebb and flow of Lee's reputation George C Rable on Stonewall Jackson's deep religious commitment A Wilson Greene on P G T Beauregard's role in the Petersburg Campaign and William L Richter on James Longstreet as postwar pariah Together these gifted historians raise a host of penetrating and original questions about how we are to understand America's defining conflict in our own time just as T Harry Williams did in his And by encompassing such varied subjects as military history religion and historiography Lee and His Generals demonstrates once more what a fertile field Civil War scholarship remains Lawrence Lee Hewitt is professor of history emeritus at Southeastern Louisiana University Most recently he and Arthur W Bergeron now deceased coedited three volumes of essays under the collective title Confederate Generals in the Western Theater Thomas E Schott served for many years as a historian for the U S Air Force and U S Special Operations Command He is the author of Alexander H Stephens of Georgia A Biography which won both the Society of American Historians Award and the Jefferson Davis Award

Hero of Beecher Island David Dixon, 1997-02-01 George A Forsyth took a determined stand against Sioux and Cheyenne Indians at the Battle of Beecher Island in 1868 and in the process transformed this minor frontier skirmish into a legendary symbol of the American West This engagement helped mold popular conception of Indian warfare and provided Forsyth with the reputation of being an intrepid Indian fighter like George Custer and Buffalo Bill Although this image of Forsyth is not necessarily incorrect it is certainly incomplete Forsyth began his military career with the firing on Fort Sumter in 1861 Like many other officers who would subsequently gain distinction in the Indian campaign of the West he learned the art of warfare in the great battles of the Civil War His ascendancy through the ranks paralleled the rise of the Union cavalry as an effective combat arm during the war and his education as a cavalryman came under the watchful eye of Phil Sheridan one of America's most compelling soldiers The Forsyth Sheridan relationship began on the Virginia battlefields and continued until 1881 During this long period George Forsyth was one of Sheridan's most trusted aides serving as the general's eyes and ears in countless military missions that took him from the banks of the Yellowstone to the sacred Black Hills and from the bayous of Reconstruction Louisiana to the palaces of Europe and Asia Forsyth's varied military career was truly reflective of the army's role in the second half of the nineteenth century In addition to serving as an instrument of government Indian policy the army carried out other important missions designed to foster internal development in the United States These activities included exploring and mapping the remnants of the uncharted West escorting railroad survey and construction crews and building forts along the major lines of commerce As a staff officer George Forsyth played an important part in all of these activities and more Therefore while this biography chronicles the life and military career of a remarkable soldier it also provides fresh insight into the role that the United States Army played during the post Civil War period

The Papers of Ulysses S. Grant Ulysses Simpson Grant, John Y. Simon, 2000

The Harvard Guide to African-American History Evelyn Brooks Higginbotham, 2001 This massive guide sponsored by the W E B Du Bois Institute for Afro American Research at Harvard University and compiled by

renowned experts offers a compendium of information and interpretation on over 500 years of black experience in America

The Presidency and the American State Stephen J. Rockwell, 2023-10-12 Although many associate Franklin D Roosevelt with the inauguration of the robust dominant American presidency the roots of his executive leadership style go much deeper Examining the presidencies of John Quincy Adams Ulysses S Grant and William Howard Taft Stephen Rockwell traces emerging connections between presidential action and a robust state over the course of the nineteenth century and the Progressive Era By analyzing these three undervalued presidents savvy deployment of state authority and their use of administrative leadership legislative initiatives direct executive action and public communication Rockwell makes a compelling case that the nineteenth century presidency was significantly more developed and interventionist than previously thought As he shows for a significant number of policy arenas the actions of Adams Grant and Taft touched the lives of millions of Americans and laid the foundations of what would become the American century **William Harding Carter**

and the American Army Ronald Glenn Machoian, 2006 In this first full length biography of William Harding Carter Ronald G Machoian explores Carter s pivotal role in bringing the American military into a new era and transforming a legion of citizen soldiers into the modern professional force we know today Machoian follows Carter s career from his boyhood in Civil War Nashville where he volunteered to carry Union dispatches through his involvement in bitter campaigns against Apaches in the Southwest to his participation in the Indian Wars tragic final chapter at Wounded Knee in 1890 Carter s life and work reflected his times the Gilded Age and the Progressive era Machoian shows Carter as an able intellectual attuned to contemporary cultural trends and tirelessly devoted to ensuring that the U S Army kept abreast of them In collaboration with Secretary of War Elihu Root he created the U S Army War College and pushed through Congress the General Staff Act of 1903 which replaced the office of commanding general with a chief of staff and modernized the staff structure Later he championed the replacement of the state militia system with a more capable national reserve and advocated wartime conscription Since his death in 1925 Carter s important contributions toward modernizing the U S Army have been overlooked Machoian redresses this oversight by highlighting Carter s contributions to the U S military s growth as a professional institution and the nation s transition to the twentieth century Jim Crow Citizenship Marek D.

Steedman, 2012-05-22 In the late 1860s the U S federal government initiated the most abrupt transition from slavery to citizenship in the Americas The transformation of course did not stick but it did permanently alter the terms of American citizenship and initiated a century long struggle over the place of African Americans in the American polity Southern Progressives crucial in this account were faced with a significant ideological challenge how to reconcile their liberal principles with their commitments to racial hierarchy The ideological work performed by Southern Progressives was instrumental to the establishment of white supremacist institutions in the heart of a putatively liberal democracy and illuminate how combinations of liberal and illiberal principles have affected the history of American political thought In this

work Marek Steedman demonstrates how Southern Progressives combined commitments to liberal even democratic politics with equally strong commitments to the maintenance of racial hierarchy He shows that there are systematic features of the traditions of liberal and republican thought on the one hand and ideologies of race on the other that facilitate their combination Jim Crow Citizenship relates familiar developments in American state building legal development and political thought to race thus showing how race intertwines with these developments often shaping them in decisive fashion

Shades of Blue and Gray Herman Hattaway,1997-05-29 Hattaway extrapolates from recent works by revisionists William Skelton and Roy Roberts to illustrate convincingly that the development of military professionalism is not entirely a post Civil War phenomenon *The Oxford Companion to American Military History* , *The Presidency of Abraham Lincoln* Phillip Shaw Paludan,1994 In this study Paludan offers us Lincoln in the round a complex even contradictory personality who found greatness without seeking it and who felt deeply troubled about what he perceived as his failings as a President and person

Lincoln's Political Generals David Work,2024-03-18 At the beginning of the Civil War President Abraham Lincoln sought to bind important political leaders to the Union by appointing them as generals The task was formidable he had to find enough qualified officers to command a military that would fight along a front that stretched halfway across the continent West Point hadn't graduated enough officers and many of its best chose to fight for the Confederacy Lincoln needed loyal men accustomed to organization administration and command He also needed soldiers and political generals brought with them their constituents and patronage power As the war proceeded the value of the political generals became a matter of serious dispute Could politicians make the shift from a political campaign to a military one Could they be trusted to fight Could they avoid destructive jealousies and the temptations of corruption And with several of the generals being Irish or German immigrants what effect would ethnic prejudices have on their success or failure In this book David Work examines Lincoln's policy of appointing political generals to build a national coalition to fight and win the Civil War Work follows the careers of sixteen generals through the war to assess their contributions and to ascertain how Lincoln assessed them as commander in chief Eight of the generals began the war as Republicans and eight as Democrats Some commanded armies some regiments Among them were some of the most famous generals of the Union such as Francis P Blair Jr John A Dix John A Logan James S Wadsworth and others whose importance has been obscured by more dramatic personalities Work finds that Lincoln's policy was ultimately successful as these generals provided effective political support and made important contributions in military administration and on the battlefield Although several of them proved to be poor commanders others were effective in exercising influence on military administration and recruitment slavery policy and national politics

American Military History: The United States Army and the forging of a nation, 1775-1917 Richard Winship Stewart,2009 From the Publisher This latest edition of an official U S Government military history classic provides an authoritative historical survey of the organization and accomplishments of the United States Army This scholarly yet readable
