Danish designer and architect Arne Jacobsen would have been one hundred years old in 2002 and Absolutely Modern takes this centennial celebration as a wonderful excuse to look back on and also forward to his oeuvre and legacy Jacobsen's most distinguishing characteristic was arguably his preoccupation with the Gesamtkunstwerk with wanting to do it all to apply design to everything from the cellar to the roof from silverware to the National Bank Absolutely Modern looks at the range of objects and buildings he created throughout his career and invites three international architects Dominique Perrault Gigon Guyer and Sejima and Nishizawa to clarify his legacy against the background of their own practices **Room 606** Michael Sheridan, 2023-03-30 An updated rewritten and expanded edition of the cult classic exploring Jacobsen's midcentury design through the microcosm of a single hotel room Room 606 at the SAS Royal Hotel in Copenhagen is a rare and well preserved example of Arne Jacobsen's architectural expertise and iconic modernist conception The hotel room tells the story of Arne Jacobsen's vision with the SAS Royal in the middle of the Danish capital Not only did he draw the buildings he was also highly involved with designing the interior right down to the smallest of details In Room 606 New York based architect and scholar Michael Sheridan uses the iconic hotel room as a lens through which he views the entirety of Jacobsen's masterpiece The book is a totally revised and extended edition of Sheridan's long out of print Phaidon publication from 2003 with a completely new layout newly found illustrations and newly recorded photographs of room 606 the only room left intact from Jacobsen's glory days Arne Jacobsen 1902-71 was a Danish architect and furniture designer famed for his simple elegant chairs particularly his three legged stacking chair 1952 and his egg chair 1959 His pieces can be found in numerous international collections including the Museum of Modern Art in New York the Design Museum in London and the San Francisco Museum of Modern Art New York based architect Michael Sheridan is an internationally recognized scholar of modern Danish architecture and design His publications on these subjects include Landmarks 2011 and Louisiana Architecture and Landscape 2017 **Arne Jacobsen, a Danish Architect. the art world where he found inspiration and new methods for developing architecture This is the most comprehensive account of Jacobsen to date diving into previously unknown aspects of his life and work It uncovers how art played a seminal role in both his professional and personal life placing him in the midst of the European postwar avant garde art scene Shedding new light on aspects of his creative life the book challenges previous ideas about Jacobsen as a modernist iconoclast positioning him instead as a creative innovator who worked closely with materials in transforming existing aesthetics It also investigates how Jacobsen played a crucial role in defining Danish and Nordic welfare aesthetics Beautifully designed the book features famous and lesser known works by Jacobsen including chairs textile designs watercolour drawings light fixtures and architecture models along with hundreds of previously unseen private photographs of Jacobsen and his many designs

Room 606 Michael Sheridan, 2003-05 This book is organized in thematic chapters broken down into three sections which each examine room 606 as a microcosm of the SAS House reconstruct the original building and trace the connections between Jacobsen s masterpiece and his other works from buildings to household objects
