Uncensored Palladio in Light of Australian Vernacular Architecture Antonia Clarkeson,2024-12-20 In this book Clarkeson reads Palladio s drawings as being carefully crafted having integrity in their own right with their own story to tell and meant

to be measured Claiming Palladio's rightful place in the history of metrology Clarkeson represents Palladio's work as part of the Italian contribution to the debate about the desired features of a universal metric measure Clarkeson turns architecture on its head to focus on feet as units of vibrant metre capturing insights from the architectural interests of Isaac Newton and Francis Howard Greenway to architectural practice in the antipodes and taking movement of and within 3 dimensional bulk spaces as the fundamental stuff of an architecture that is assertively local in its unique co ordinate cosmetic The book offers a fresh interpretation of Palladio's orders and of such classic designs as villa Cornaro palazzo villa Almerico la Rotonda and villa Antonini teatro olimpico that dispels myths and explains the bits that don't fit in the usual interpretations of Palladio's work
