'An Entirely Different World': Russian Visitors to the Cape 1797-1870 Boris Gorelik, 2015-11-01 The Russian view of the Cape as represented in this volume may be unique During the period in question Russia had no cultural political or economic ties with South Africa Russians saw the Cape only as a convenient stopover en route to the Far East to their country s distant domains that could not be reached by sea otherwise The Cape was one of the exotic lands they would visit on such journeys their first and only introduction to the African continent Although amazed and perplexed by the entirely different world they found here Russian travellers would often draw unexpected parallels between life in their motherland

and the realities of the Cape Colony The selections include memoirs of such important Russian personalities as Yuri Lisiansky Vasily Golovnin Ivan Goncharov and Konstantin Posyet Most of the texts appear in English for the first time

the twenty first century **Exploring Russia's Exceptionalism in International Politics** Raymond Taras, 2023-12-19

This book explores Russia's sense of its own uniqueness and the impact this has had on Russia's conduct of international relations. Examining concepts such as Russia's special civilising mission, its difference from the West, its proneness to conduct violent warfare and more, and discussing these concepts in relation to Russia's history and its present behaviour, and also in relation to other countries' views of themselves as exceptional, the book highlights Russia's sense of its own identity as a key factor shaping current international events.

Russian Fractals in Indigenous Artifacts Abdul Karim Bangura, Leonid A. Zhigun, 2025-06-22 This book is the first comprehensive work on Russian Fractals in indigenous artifacts. While existing works focus on universal phenomena such as liquid crystal or finance, none explore the intersection between Fractals and Russia. Russian Fractals in Indigenous Artifacts therefore investigates how indigenous Russian cultures have a wonderful Fractal heritage that was originally tied to socially just and ecologically sustainable social practices, including those of indigenous northern groups such as the Yakut. Fractal designs originally allowed unalienated value, both human and nonhuman, to be visible, thereby enabling just and sustainable living. This book also examines how the tsarist elite encouraged the creation of unique creative masterpieces, developing and strengthening traditional crafts and art of indigenous people, hence Fabergé or imperial architecture. Today the challenge for contemporary Russia is to reestablish the relationship between the social and ecological sustainability of indigenous cultures and practices, for which we can now provide modeling and analysis. Lay attempts at this have only limited success as they have based the attempts on a purely religious basis, which recognizes the ecological aspects but often succumbs to authoritarian nationalism. However, the freely accession of indigenous peoples to Russia for the sake of national liberation has had a positive effect on enriching them with spirituality and creativity by Fractal artifacts through friendly exchanges with one another. In Russian Fractals in Indigenous Artifacts, Bangura and Zhigun express why there is a need for a forward thinking Fractal renaissance in Russia, bringing together contemporary computational and scientific analyses with these ecologically and socially sustainable traditions.

Containing Russia's Nuclear Firebirds Glenn E. Schweitzer, 2013-01-01 In the aftermath of the Soviet Union's breakup into fifteen independent states, the governments of the United States, the European Community, Japan, and Russia established the International Science and Technology Center in Moscow to address the dangers of nuclear scientists on the loose. The purpose of the ISTC, also known as the Moscow Science Center, was to prevent the illicit flow of dangerous weapons expertise out of the former Soviet Union by helping its underemployed nuclear, biological, chemical, and aerospace weapons scientists redirect their skills to peaceful civilian endeavors. Since its creation in 1994, the ISTC has provided more than 1.3 billion to support 2,740 projects involving nearly 100,000 scientists from the former Soviet Union and international partners. Thirty-nine governments have become part of the ISTC family. Somewhat unexpectedly, in April 2010, the Russian government announced that it would withdraw from the agreement establishing the ISTC, contending that the Center had accomplished

its mission The Moscow Science Center will close its doors in 2015 effectively terminating ISTC activities based in Russia Schweitzer examines the impact and effectiveness of the ISTC and emphasizes opportunities for the internal community to draw on its legacy

Introduction to Russia Gilad James, PhD, Russia officially known as the Russian Federation is the largest country in the world by land area and spans two continents Europe and Asia It is located in Eastern Europe and Northern Asia and shares borders with Norway Finland Estonia Latvia Lithuania Poland Belarus Ukraine Georgia Azerbaijan Kazakhstan Mongolia China and North Korea The country has a diverse geography from the frozen tundra of Siberia to the sunny beaches of the Black Sea coast Russia is known for its rich culture and history which includes famous poets writers composers artists and scientists The country has a population of approximately 144 million people and is considered a federal semi presidential republic Russia's economy is one of the largest in the world and relies heavily on natural resources like oil gas and minerals Its political system is often described as authoritarian due to the concentration of power in the hands of the president and the ruling party However the country has a complex and dynamic political landscape that includes a diversity of opinions and viewpoints Despite its challenges Russia continues to play a significant role in world affairs including its involvement in Syria Ukraine and other global hotspots

Military Review, 1927 *Russia Under Putin* Andrew Natsios, 2025-07-08 Compelling essays reveal Russia as a declining fragile power that still harbors imperialist ambitions In *Russia Under Putin* editor Andrew S Natsios brings together an esteemed group of scholars to explore the complex duality of Vladimir Putin's Russia As they track Putin's rise from a former KGB officer to one of the world's most powerful leaders these essays confront an urgent global question Is Russia a declining state on an unstable foundation or is it a dangerous revisionist power The book's contributors reveal how Russia despite internal weaknesses that include a shrinking population corruption and economic dependency on volatile oil revenues has become a well armed state intent on undermining the international order Through an examination of Russia's military invasions of Ukraine its increasing reliance on cyber warfare and its internal suppression of civil liberties the authors argue that Russia's trajectory under Putin is both destabilizing and ominous Putin has tried to increase the size of the population through pronatalist policies that failed and so has resorted to annexing neighboring states like Ukraine as a solution to the demographic emergency Meanwhile Moscow has adopted an extreme right wing ultra nationalist ideology that dominates discourse among the elites As the world watches Russia's aggressive foreign policies unfold Natsios and the book's contributors illustrate how the decline of this nuclear armed state presents profound risks to global stability The essays draw comparisons to past authoritarian regimes while offering a stark warning Even a fragile power can wreak global havoc Engaging timely and thought provoking *Russia Under Putin* provides a nuanced view of a country whose ambitions will shape the twenty first century for better or worse Contributors Anders Lund Alexandra Chinchilla James S Corum Lynn Corum Nicholas Eberstadt Raymond C Finch III Paul Gregory Scott Jasper Todd Lefko Andrew S Natsios Serhii Plokhyy Roger R Reese Raymond Robertson Kathryn Stoner
