Interventions on historical rammed earth buildings have also been carried out in all the geographical areas where these structures are found. This historical heritage has undergone diverse forms of reconstruction, conservation, repair, substitution and or structural consolidation. The different criteria applied require different techniques, materials or forms of intervention. The results of the interventions have also been manifold both in terms of the impact on the building and the technical and material durability. With a view to these issues, this book deals with rammed earth architecture and its restoration and in a more general sense with the construction techniques and restoration of all earthen structures. Rammed Earth Conservation will be a valuable source of information for academics and professionals in the fields of Civil Engineering, Construction and Building Engineering and Architecture.

Construyendo la modernidad. Carlos Ramos, 2011. Los contactos entre arquitectura y escritura en las dos décadas que precedieron a la Guerra Civil son el objeto de análisis del libro. El autor investiga las relaciones entre escritores y arquitectos, profundiza en las aportaciones de cuatro figuras fundamentales: José Moreno Villa, Vicente Huidobro, Ernesto Giménez Caballero y Fernando García Mercader, y analiza la construcción de la Gran Vía de Madrid, enclave cultural y arquitectónico de la modernidad peninsular por excelencia.

La arquitectura moderna y sus creadores Martin Filler, 2012-10-25. Ser aceptado no lo es todo. Frank Gehry. Y sin embargo si uno es arquitecto acepta el reto. Renzo Piano. Si usted es un viejo veterano de la arquitectura, necesitar este libro como referencia esencial si es un vido amateur que se interroga sobre el mundo construido, encontrar en él el mejor curso universitario en el que haya podido matricularse. John Guare. En este libro Martin Filler ha recopilado y ampliado una serie de artículos publicados en The New York Review of Books en torno no solo a los mejores arquitectos del siglo XX y principios del XXI sino a los más influyentes aunque algunos de ellos no hayan favorecido precisamente la causa de la arquitectura moderna en su vertiente más intelectualmente elevada y humanamente sensible. Atento siempre a la función social de la arquitectura a su sentido cívico e histórico, Filler repasa con una mirada crítica y nada acomodaticia las principales corrientes de los últimos 125 años analizando sus hallazgos y sus oportunidades perdidas: la reconstrucción de Berlín después de la reunificación de Alemania o el proyecto de la Zona Cero de Louis Sullivan, el padre del rascacielos, a Santiago Calatrava, destacado exponente de la arquitectura

Modernism and the Mediterranean Jan K. Birksted, 2017-07-05 Situated in a Mediterranean landscape the Maeght Foundation is a unique Modernist museum product of an extraordinary collaboration between the architect Jos uis Sert and the artists whose work was to be displayed there The architecture garden design and art offer a rare opportunity to see work in settings conceived in active collaboration with the artists themselves By focusing on the relationship between this art foundation and its Arcadian setting including Joan Mir labyrinth George Braque's pool Tal Coat's mosaic wall and Giacometti's terrace Jan K Birksted demonstrates how the building articulates many of the ideas that preoccupied this group of artists during the culminating years of their lives The study pays special attention to the ways in which architecture can shape the experience of time and addresses the Modernist desire for wilderness and its problematic roots in the classical Mediterranean ideal In showing how the design of the Maeght Foundation is a Modernist representation of Mediterranean culture the author has developed an interpretation of architecture that accommodates not only the architect's handling of material or function but shows as well how it can be the embodiment of a particular vision of space and time **Cartagena, 1874-1936 (transformación urbana y arquitectura)** Javier Pérez Rojas, 1986
