Ark Royal:

Ark Royal Mike Rossiter,2011-04-30 In June 1941 the Ark Royal won one of Britain's most famous naval victories The German destroyer Bismarck had been ravaging the British fleet in the Atlantic Sailing through a ferocious storm the Ark Royal tracked the Bismarck A dozen swordfish bombers took off from her deck and pounded shell after shell into the German battleship sending her to the ocean floor It was a signal victory that resonated around the world Hitler furious at the loss of the German fleet's flagship demanded that the Ark Royal be destroyed at whatever cost HMS Ark Royal is one of the Royal Navy's most iconic ships When she was launched in 1938 she was one of the most sophisticated weapons at the disposal of British military command The aircraft carrier was the latest and soon to be one of the most feared developments in naval warfare In her first two years of operation the Ark Royal survived countless attacks and was considered one of the luckiest ships in the Navy But her air of invincibility was to prove wishful thinking Within one month of sinking the Bismarck the Ark Royal too was destroyed while sailing off the coast of Gibraltar And there she has rested one kilometre below the surface of the Mediterranean until her wreck was discovered by Mike Rossiter in 2004 In gripping detail and using the testimony of survivors of the sinking and men who lived, flew and fought on the Ark Royal Mike Rossiter tells the remarkable story of the life and legend of this most iconic of ships Also and for the first time he reveals the story of the quest to discover the wreck of this naval legend *Britain's Greatest Warship* RICHARD. Phoenix Squadron Rowland White, 2010 January 1972 the tiny outpost of British Honduras is threatened with imminent invasion by battle hardened US trained Guatemalan paratroops Britain's response must be immediate and decisive But there is only one deterrent the government can offer HMS Ark Royal once the Navy's most powerful warship now a white elephant on the verge of being scrapped To save the small colony she must launch a pair of Buccaneer fighter bombers on an unprecedented long range mission But first the old carrier must make a high speed 1 500 mile dash across the Atlantic towards the Gulf of Mexico The odds of arriving in time are very slim indeed Drawing on extensive first hand accounts and previously unseen classified documents Rowland White has pieced together one of the most audacious and thrilling missions of post war British military history

Land Based Air Power or Aircraft Carriers? Gjert Lage Dyndal, 2016-04-22 During the 1960s in the midst of its retreat from empire the British government had to grapple with complex political and military problems in order to find a strategic defence policy that was both credible and affordable Addressing what was perhaps the most contentious issue within those debates this book charts the arguments that raged between supporters of a land based air power strategy and those who favoured aircraft carriers Drawing upon a wealth of previously classified documents the book reveals how the Admiralty and Air Ministry became interlocked in a bitter political struggle over which of their military strategies could best meet Britain's future foreign policy challenges Whilst the broad story of this inter service rivalry is well known the Air Force's proposal for a series of island based airfields and the Navy championing of a small number of expensive but mobile aircraft carriers the complexity and previous lack of archival sources means that it has until now only ever been partially researched and understood Former studies have largely focused on the cancellation of the CVA 01 carrier programme and offered little depth as regards the Royal Air Force perspectives Given that this was a two Service rivalry which greatly influenced many aspects of British foreign and defence policy decisions of the period this book presents an important and balanced overview of the complex issues involved Through this historical study of the British debate about maritime air power and strategic alternatives in the 1960s the detailed arguments used for and against both alternatives demonstrate clear relevance to both historical and contemporary conceptual debates on carrier forces and land based air power Both from military strategy and inter service relationship perspectives contemporary Britain and many other nations with maritime forces may learn much from this historical case
