

THE CRITERION COLLECTION

The title 'ARMAGEDDON' is centered horizontally and appears to be emerging from a bright, fiery nuclear explosion. The explosion is positioned just above a thin, dark, curved line that represents a horizon. The background is a solid black, which makes the bright orange and yellow fire of the explosion stand out prominently. The text 'ARMAGEDDON' is in a bold, serif font, with the letters appearing slightly darker as if they are superimposed on the fire.

Frank, 2017-06-14 This study investigates the overlaps between political discourse and literary and cinematic fiction arguing that both are informed by and contribute to the cultural imaginary of terrorism Whenever mass mediated acts of terrorism occur they tend to trigger a proliferation of threat scenarios not only in the realm of literature and film but also in the statements of policymakers security experts and journalists In the process the discursive boundary between the factual and the speculative can become difficult to discern To elucidate this phenomenon this book proposes that terror is a halfway house between the real and the imaginary For what characterizes terrorism is less the single act of violence than it is the fact that this act is perceived to be the beginning or part of a potential series and that further acts are expected to occur As turn of the century writers such as Stevenson and Conrad were the first to point out this gives terror a fantastical dimension a fact reinforced by the clandestine nature of both terrorist and counter terrorist operations Supported by contextual readings of selected texts and films from *The Dynamiter* and *The Secret Agent* through late Victorian science fiction to post 9 11 novels and cinema this study explores the complex interplay between actual incidents of political violence the surrounding discourse and fictional engagement with the issue to show how terrorism becomes an object of fantasy Drawing on research from a variety of disciplines *The Cultural Imaginary of Terrorism* will be a valuable resource for those with interests in the areas of Literature and Film Terrorism Studies Peace and Conflict Studies Trauma Studies and Cultural Studies *Billboard*, 2003-05-17 In its 114th year Billboard remains the world's premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends *Esquire*, 2000 *The DVD-laser Disc Newsletter*, 2004 *Brill's Content*, 2000 *Planet Auschwitz* Brian E. Crim, 2020-05-15 Planet Auschwitz explores the diverse ways in which the Holocaust

influences and shapes science fiction and horror film and television by focusing on notable contributions from the last fifty years. The supernatural and extraterrestrial are rich and complex spaces with which to examine important Holocaust themes: trauma, guilt, grief, ideological fervor, and perversion; industrialized killing and the dangerous afterlife of Nazism after World War II. *Planet Auschwitz* explores why the Holocaust continues to set the standard for horror in the modern era and asks if the Holocaust is imaginable here on Earth at least by those who perpetrated it, why not in a galaxy far, far away. The pervasive use of Holocaust imagery and plotlines in horror and science fiction reflects both our preoccupation with its enduring trauma and our persistent need to work through its many legacies. *Planet Auschwitz* website: <https://planetauschwitz.com> Stereo Review's Sound & Vision, 2000 **Videoland** Daniel Herbert, 2014-01-24. Videoland offers a comprehensive view of the tangible phase of consumer video when Americans largely accessed movies as material commodities at video rental stores. Video stores served as a vital locus of movie culture from the early 1980s until the early 2000s, changing the way Americans socialized around movies and collectively made movies meaningful. When films became tangible as magnetic tapes and plastic discs, movie culture flowed out from the theater and the living room entered the public retail space and became conflated with shopping and salesmanship. In this process, video stores served as a crucial embodiment of movie culture's historical move toward increased flexibility, adaptability, and customization. In addition to charting the historical rise and fall of the rental industry, Herbert explores the architectural design of video stores, the social dynamics of retail encounters, the video distribution industry, the proliferation of video recommendation guides, and the often surprising persistence of the video store as an adaptable social space of consumer culture. Drawing on ethnographic fieldwork, cultural geography, and archival research, *Videoland* provides a wide-ranging exploration of the pivotal role video stores played in the history of motion pictures and is a must-read for students and scholars of media history. *Inventing Film Studies* Lee Grieveson, Haidee Wasson, 2008-11-24. A collection of institution-centered essays comprising a history of film studies as a discipline. Akira Kurosawa and Modern Japan David A. Conrad, 2022-04-26. The samurai films of legendary Japanese director Akira Kurosawa are set in the past but they tell us much about the present as do his crime stories, romances, military films, medical dramas, and art films. His movies are beloved for their timeless protagonists and haunting vistas of old Japan, but we haven't yet fully grasped everything they can teach us about modern Japan. Kurosawa's films evolved as Japan redefined and reinvented itself from movies made for the wartime regime to those made amid the trials of American occupation. From the lavish epics of the economic miracle years to searching masterpieces made with international assistance in a globalizing world, Kurosawa's movies responded to changing times. This detailed study of all 30 of Kurosawa's films analyzes the links between the thrilling narratives onscreen and the equally remarkable events that occurred in Japan over his long productive career. This book explores how Kurosawa's classics depict the political, economic, cultural, sexual, and environmental upheavals of a nation at the center of a turbulent century, both directly and through period-piece mythmaking.
