Albert Frederick Calvert's *Spanish Arms and Armour* is a comprehensive exploration of the historical weaponry of Spain known for its distinctive and impactful contribution to military history. This book goes beyond mere cataloging as Calvert weaves together the intricate details of each weapon's design, function, and the broader historical context that defined its use. The careful structuring of the information by type, origin, and era, augmented with meticulous illustrations, offers readers not just a view of the weapons themselves but of the stories and the illustrious figures who wielded them. The literary style marries the precision of an academic treatise with the narrative flair of historical storytelling, creating a work that is both scholarly and engaging. Albert Frederick Calvert was not only an author but an accomplished explorer and historian with a keen interest in Spanish culture, its art, and its history. European Weapons and Armour Ewart Oakeshott, 2012. The story of arms in Western Europe from the Renaissance to the Industrial Revolution. A treasury of information based on solid scholarship, anyone seeking a factual and vivid account of the story of arms from the Renaissance period to the Industrial Revolution will welcome this book. The author chooses as his starting point the invasion of Italy by France in 1494, which sowed the dragon's teeth of all the successive European wars. The French invasion was to accelerate the trend towards new armaments and new methods of warfare. The author describes the development of the handgun and the pike, the use and style of staff weapons, mace and axe and war hammer, dagger and dirk and bayonet. He shows how armour attained its full Renaissance splendour and then suffered its sorry and inevitable decline, culminating in the Industrial Revolution with its far-reaching effects on military armaments. Above all, he follows the long history of the sword, queen of weapons to the late eighteenth century when it finally ceased to form a part of a gentleman's every day wear. Lavishly illustrated. EWART OAKESHOTT was one of the world's leading authorities on the arms and armour of medieval Europe. His other works on the subject include *Records of the Medieval Sword* and *The Sword in the Age of Chivalry*.
