Army State And Society In Italy 1830 1915:

Wars Of Imperial Conquest In Africa, 1830-1914 Bruce Vandervort, 2006-04-19 This work investigates the social economic and political impact of the European colonial wars in Africa on both the victors and the vanquished It examines the role of both the imperial powers and the African people who joined with or resisted them Examining the experiences of Britain France Belgium Germany Portugal and Italy it offers a comprehensive study of the military processes of conquest Adopting both indigenous and imperial perspectives the author explores how the historical memory of conquest and resistance has shaped the evolution of a modern African identity It is aimed at students of imperial commonwealth and military history as well as African history

Themes in Modern European History 1830-1890 Bruce Waller, 2002-09-11 Providing a series of lively essays which reflect the skills that historians have to master when challenged by problems of evidence interpretation and presentation this important new text covers the topics of France Germany Italy Austria and Russia as well as analyzing the themes of political thought cultural trends the economy and warfare international relations and imperialism Six distinguished scholars all of whom are regularly involved in student teaching provide an authoritative student guide to the main contours of nineteenth century European history when the continent s standing was at its highest and its influence spanned the globe

The Belgian Army and Society from Independence to the Great War Mario Draper, 2018-02-13 This book explores Belgian state building through the prism of its army from independence to the First World War It argues that party politics which often ran along geographical linguistic and religious lines prevented both Flemings and Walloons from reconciling their regional identities into a unified concept of Belgian nationalism Equally it obstructed the army from satisfactorily preparing to uphold Belgium s imposed neutrality before 1914 Situated uneasily between the two powerhouses of nineteenth century Europe Belgium offers a unique insight into the concepts of citizenship and militarisation in a divided society in the era of fervent nationalism By examining the composition experience and image of the army s officer corps and rank and file as well as those of the auxiliary forces this book shows that although military and civilian society often stood aloof from one another the army as a national institution offered a fleeting glimpse into the dichotomy that was pre war Belgium

Warfare and Society in Europe, 1792- 1914 Geoffrey Wawro, 2002-01-04 Combining original research with the latest scholarship Warfare and Society in Europe 1792 1914 examines war and its aftermath from Napoleonic times to the outbreak of the First World War Throughout this fine book treats warfare as a social and political phenomenon no less than a military and technological one and includes discussions on The French Revolution and the Napoleonic Wars Napoleon III and the militarization of Europe Bismark Moltke and the Franco Prussian War 1870 71 new technologies and weapons seapower imperialism and naval warfare the origins and outbreak of the First World War For anyone studying or with in interest in European warfare this book details the evolution of land and naval warfare and highlights the swirling interplay of society politics and military decision making

viewed in the shadow of total war The impact and aftermath of the French upheaval of 1792 1815 the mid century struggles for national unification the World Wars of 1914 18 and 1939 45 and the prospect of mutually assured destruction in the Cold War were all framed as a totalization of warfare and as a tragic pretext for projects of human rights collective security and political integration But this emphasis on large wars overlooks the impact of the wars waged by minor powers as well as the small wars and counterinsurgencies waged by great powers overseas The suppression of southern European revolutions in the 1820s Belgian independence Cuban struggles against Spanish rule and the wars of new imperialism ranging from Aceh to Annual all shaped the strategic and domestic environment in which the Great War happened and they reverberated on the post 1918 growth of totalitarianism Equally the post 1945 wars of decolonization militarized the culture and politics in the democratic and authoritarian states of the old continent in ways which belied the macro political identities of the Cold War

Subject Guide to Books in Print, 1996

War Veterans and Fascism in Interwar Europe Ángel Alcalde, 2017-06-07 This book explores from a transnational viewpoint the historical relationship between war veterans and fascism in interwar Europe Until now historians have been roughly divided between those who assume that brutalization George L Mosse led veterans to join fascist movements and those who stress that most ex soldiers of the Great War became committed pacifists and internationalists Transcending the debates of the brutalization thesis and drawing upon a wide range of archival and published sources this work focuses on the interrelated processes of transnationalization and the fascist permeation of veterans politics in interwar Europe to offer a wider perspective on the history of both fascism and veterans movements A combination of mythical constructs transfers political communication encounters and networks within a transnational space explain the relationship between veterans and fascism Thus this book offers new insights into the

essential ties between fascism and war and contributes to the theorization of transnational fascism Books in Print Supplement ,1994 **War and the World** Jeremy Black,2000-01-01 An attempt to write a global history of warfare in the modern era Jeremy Black here presents a wide ranging account of the nature purpose and experience of war over the last half millennium **The Ottoman Mobilization of Manpower in the First World War** Mehmet Beşikçi,2012-09-28 The Ottoman Mobilization of Manpower in the First World War offers a multi faceted story of how the Ottoman Empire tried to cope with the challenges of permanent mobilization under total war conditions which reshaped state society relations By focusing mainly on Anatolia and the Muslim population Mehmet Beşikçi argues that the conditions of mobilization pushed the Ottoman state to become more centralized authoritarian and nationalist but the increasing dependence on people paradoxically also enlarged their space of action vis vis state authority The book demonstrates that people s responses to the state s needs constituted a wide spectrum ranging from voluntary support to open resistance such as desertion In turn the state responded by revising its mobilization policies and reformulating new mechanisms of control at the local level **The New Encyclopaedia Britannica: Macropaedia : Knowledge in depth** ,2003 Military Culture and Popular Patriotism in Late Imperial Austria Laurence Cole,2014 Military Culture and Popular Patriotism examines the interplay between popular patriotism and military culture in late imperial Austria Laurence Cole suggests that two main questions should be asked regarding the western half of the Habsburg Monarchy during the period from the mid nineteenth century to the outbreak of war in 1914 Firstly how far did imperial Austrian society experience a process of militarization comparable to that of other European countries Secondly how far did the military sphere foster popular patriotism in the multinational state Various manifestations of military culture including hero cults and above all military veterans associations provide the main subject for analysis in this volume After exploring the historical development of military culture in the Habsburg Monarchy Cole explains how the long reign of Emperor Franz Joseph I constituted a decisive phase in the militarization of Austrian society with the dynasty and state emphasizing the military s role as the locus of loyalty Popular manifestations of military culture such as the hero cult surrounding Field Marshal Radetzky and military veterans associations complemented the official agenda in many respects However veterans associations in particular constituted a political mobilization of the lower middle and lower classes who asserted their own interests and position in civil society as is shown by case studies of regions of the Austrian state with significant Italian speaking populations Trentino and the Littoral State attempts to assert greater control of veterans activities led to national and political opposition at a time when tensions over militarism and foreign policy increased The Black and the Gold thus raises the question of whether the military was really a bulwark of the multinational state or rather a polarizing force in imperial Austrian society **Italy** Spencer Di Scala,2004-02-27 This newly revised edition gives a clear and comprehensive history of Italy from the 18th century to the present
