Around The Sacred Sea:

Around the Sacred Sea Bartle Bull, 1999 *Around the Sacred Sea* is an account of a remarkable journey made around Russia's Lake Baikal on horseback Lake Baikal is the largest and deepest freshwater lake in the world This is the story of the first expedition to circumnavigate the lake **The Water Dreamers** Michael Cathcart, 2010-08-02 The long awaited history that will change the way Australians think about their country *The Water Dreamers* is the story of the settlement of Australia of the scarcity of water and the need to fill an imagined silence with the sounds of civilisation From the moment the First Fleeters stepped ashore water determined progress The Tank Stream that flowed through what is now the Sydney CBD provided fresh water until settlers and their livestock fouled it Then water from a nearby swamp was piped into the growing settlement When it ran dry sights were set further afield *The Water Dreamers* is an illuminating account of the ways people have imagined and interpreted Australia while struggling to understand this continent and striving to conquer its obstacles It is an environmental history and a cultural history with an unmistakable sense of how today we are part of that continuing story *A Path in the Mighty Waters* Stephen Russell Berry, 2015-01-01 This book tells the story of how people experienced the eighteenth century crossing of the Atlantic Ocean exploring the transformative journey undertaken by the thousands of Europeans who journeyed in search of a better life Stephen Berry shows how the ships on which passengers were contained in close quarters for months at a time operated as compressed frontiers where diverse groups encountered one another and established new patterns of social organization As he argues that experiences aboardship served as a profound conversion experience for travelers both spiritually and culturally Berry reframes the history of Atlantic migrations giving the ocean and the ship a more prominent role in Atlantic history The ocean was more than a backdrop for human events it actively shaped historical experiences by furnishing a dissociative break from normal patterns of life and a formative stage in travelers processes of collective identification *All Around the World* William Ainsworth, 1866 **Illustrated Catalogue of Stereopticons, Sciopticons, Dissolving View Apparatus, Microscopes, Solar Microscope and Stereopticon Combination** McIntosh Battery & Optical Co, 1895 **Advances in the Biology and Conservation of Marine Turtles** Sara M. Maxwell, Peter H. Dutton, Sabrina Fossette-Halot, Mariana M. P. B. Fuentes, Richard D. Reina, 2019-05-15 **Into Russian Nature** Alan D. Roe, 2020 National parks are perhaps the most recognized environmental protection institution in the world and have long attracted the interest of historians This is the first academic work on Russian national parks It spans from the years before the Great October Revolution to the present and examines movements to establish national parks from European Russia to Siberia and the Far East It is a story of grandiose visions in which Russian environmentalists conceived of ways to alter the state's relationship to nature and of demoralizing disappointment when the lofty ambitions of different park visionaries fell far short of their hopes **The Hive** Will Levington Comfort, 2021-01-19 Immerse yourself in the enchanting world of *The Hive* by Will Levington Comfort Step into a captivating tale of love betrayal and redemption with Will Levington
