Theatre Across Oceans Nic Leonhardt, 2021-09-15 Theatre Across Oceans Mediators Of Transatlantic Exchange allows the reader to enter and understand the infrastructural backstage area of global cultural mobility during the years between 1890 and 1925 Located within the research fields of global history and theory the geographical focus of the book is a transatlantic one based on the active exchange in this phase between North and South America and Europe Emanating from a rich body of archival material the study argues that this exchange was essentially facilitated and controlled by professional theatrical mediators agents brokers who have not been sufficiently researched within theatre or historical studies The low visibility of mediators in the scientific research is in diametrical contrast to the enormous power that they possessed in the period dealt with in this book

Theatre Worlds in Motion S.E. Wilmer, H. van Maanen, 2024-04-02 Theatre Worlds in Motion aims to clarify the different theatre traditions and practices in Western Europe from a historical and sociological perspective The book grew out of a perceived need among theatre scholars who had recognised that while they understood the theatre system of their own country they often found it difficult to discover how it compared with other countries The chapters analyse the basic components and dynamics of theatre systems in seventeen Western European nations in order to elucidate how the systems function in general and how they vary in different cultures The book provides a sense of what has been happening recently in particular countries and indicates how the theatre systems

have developed over time and have led to the current practices and structures Each national chapter considers the historical tradition and place of theatre within the country and analyses the role of the state in fostering theatre during the last fifty years Material from the national chapters has been used in two general chapters at the beginning and end of the book to provide an overview to developments in all Western Europe The introductory chapter on decentralisation discusses the tendency amongst governments to encourage cultural development outside the national capital by providing subsidy for regional theatre venues and theatre companies and in many cases by developing the decision making and budgetary powers for the theatre to regional and local authorities The epilogue on the functioning of theatre examines the common structures of theatre in society as described in the seventeen national chapters and it proposes areas for future research **The**

Imagined Theatres collects theoretical dramas written by some of the leading scholars and artists of the contemporary stage. These dialogues, prose poems and microfictions describe imaginary performance events that explore what might be possible and impossible in the theatre. Each scenario is mirrored by a brief accompanying reflection asking what they might mean for our thinking about the theatre. These many possible worlds circle around questions that include: In what way is writing itself a performance? How do we understand the relationship between real performances that engender imaginary reflections and imaginary conceptions that form the basis for real theatrical productions? Are we not always imagining theatres when we read or even when we sit in the theatre watching whatever event we imagine we are seeing?

The Routledge Companion to Twentieth Century British Theatre and Performance Claire Cochrane, Lynette Goddard, Catherine Hindson, Trish Reid, 2024-10-08. The Routledge Companion to Twentieth Century British Theatre and Performance provides a broad range of perspectives on the multiple models and examples of theatre artists, enthusiasts, enablers and audiences that emerged over this formative 100 year period. This first volume covers the first half of the century, constructing an equitable and inclusive history that is more representative of the nation's lived experience than the traditional narratives of British theatre. Its approach is intra-national, weaving together the theatres and communities of England, Scotland, Wales and Northern Ireland. The essays are organised thematically, arranged into sections that address nation, power and identity, fixity and mobility, bodies in performance, the materiality of theatre and communities of theatre. This approach highlights the synergies, convergences and divergences of the theatre landscape in Britain during this period, giving a sense of the sheer variety of performance that was taking place at any given moment in time. This is a fascinating and indispensable resource for undergraduate and graduate students, postgraduate researchers and scholars across theatre and performance studies, cultural studies and twentieth century history.

Fantasies of Empire Joseph Donohue, 2005-09. In the London summer of 1894, members of the National Vigilance Society, led by the well-known social reformer Laura Ormiston Chant, confronted the Empire Theatre of Varieties, Leicester Square, and its brilliant manager George Edwardes as he applied for a routine license renewal. On grounds that the Empire's promenade was the nightly resort of prostitutes, that the costumes in the theatre's ballets were grossly indecent, and that the moral health of the nation was imperiled, Chant demanded that the London County Council either deny the theatre its license or require radical changes in the Empire's entertainment and clientele before granting renewal. The resulting license restriction and the tremendous public controversy that ensued raised important issues, social, cultural, intellectual and moral, still pertinent today. *Fantasies of Empire* is the first book to recount in full the story of the Empire licensing controversy in all its captivating detail. Contemporaneous accounts are interwoven with Donohue's identification and analysis of the larger issues raised. What the controversy reveals about contemporary sexual and social relations, what light it sheds on opposing views regarding the place of art and entertainment in modern society, and what it says about the pervasive effect of British imperialism on society's behavior in the later years of Queen Victoria's reign.

Donohue connects the controversy to one of the most interesting developments in the history of modern theatre the simultaneous emergence of a more sophisticated varied and moneyed audience and a municipal government insistent on its right to control and regulate that audience s social and cultural character and even its moral behavior Rich in illustrations and entertainingly written *Fantasies of Empire* will appeal to theatre dance and social historians and to students of popular entertainment the Victorian period urban studies gender studies leisure studies and the social history of architecture
