The Art and Craft of Poetry Daisy Aldan, 1981 *Wordsworth's Poetry of Repetition* Sarah

Houghton-Walker,2023-04-25 Repetition has connotations of something boring or unoriginal or lacking in poetic skill but repetition in several different senses dominates Wordsworth's poetry This book explores those moments of repetition placing them in the early nineteenth century context from which they emerged and teasing out through extended close attention to the poetry itself the complexities of repetition and recapitulation Drawing on extensive close readings of Wordsworth's poetry the book asks what it means to repeat and how saying things again often in a way which recognises both sameness and difference at the same time is fundamental to Wordsworth's attempt to write what he called sincere verse By analysing instances of repetition and the conjunctions which facilitate recapitulation within Wordsworth's writing the book attempts to understand the context in terms of ideas of repetition from which Wordsworth's works emerge and to consider repetition in a broad range of senses from repeated words and sounds within particular poems to ideas of translation allusion and echo Houghton Walker also argues the importance of the element of difference within even apparently pure repetition Such difference might be in perception attitude or understanding but for Wordsworth the subtle relationship between instances of what seems to be the same experience illuminates the potential for poetry to portray simultaneously the specific and the universal to hold within its lines both immediate and general truths at the same time A Study of Poetry Bliss

Raines,Al,2025-05-06 *Concrete Poetry* explores the fascinating world where language and visual art merge focusing on poetry where the arrangement of words is as crucial as their meaning This book examines how poets use typography and spatial arrangement to create works that move beyond traditional verse A key insight is how historical avant garde movements like Futurism and Dadaism influenced the development of this experimental poetry The book argues that the

spatial arrangement in concrete poetry isn't just decorative it fundamentally contributes to the poem's message. By analyzing visual and textual elements the book highlights how concrete poems engage with emotions and ideas in unique ways creating a multi-sensory reading experience. This approach elevates concrete poetry from a niche genre to a significant form of artistic expression demonstrating that visual literacy can be enhanced through innovative thinking and language arts. The book progresses systematically beginning with core concepts and historical development then moving to theoretical frameworks like semiotics and visual communication. It provides examples of concrete poems from diverse eras and cultures supported by critical analyses and theoretical essays. Poetry and Voice Stephanie Norgate, 2013-02-21 Poetry and Voice with a foreword by Helen Dunmore is a book of essays which fuses critical and creative treatments of poetic voice. Some contributors focus on critical explorations of voice in work by poets such as John Ashbery Simon Armitage Eavan Boland Carol Ann Duffy Arun Kolatkar Don McKay and Dragica Rajić and on the musical voices of the lyric tradition and of poetry itself. Vicki Feaver Jane Griffiths Philip Gross Waqas Khwaja Lesley Saunders and David Swann reflect on their own poetic processes of composition and the development of the voices of childhood old age migration landscape bilinguality and imprisonment. Laurel Cohen Pfister and Tatjana Bijeli examine the nature of poetic voice in exile the need for fresh voices after war and new spaces in which poetic voices can be heard. In this international collection the contributors give rare and generous insights into inner poetic processes and external effects. They engage with artistic debates about developing losing and appropriating voice in poetry and approach the question of what is finding a voice in poetry from multiple angles. The book will interest literary critics poets lecturers and undergraduate and postgraduate students of literature poetry and creative writing.

Images of Excellence Christopher Janaway, 1995-05-25 Plato was the first great figure in Western philosophy to assess the value of the arts he famously argued in the Republic that traditionally accepted forms of poetry drama and music are unsound claiming they are conducive to warped ethical standards detrimental to the psyche and purveyors of illusions about important matters in human life. This view has been widely rejected but Christopher Janaway here argues that Plato's hostile case is a more coherent and profound challenge to the arts than has sometimes been supposed. Denying that Plato advocates good art in any modern sense Dr Janaway seeks both to understand Plato's critique in the context of his own philosophy and to locate him in today's philosophy of art showing how issues in aesthetics arise from responses to his charges. Plato's questions about beauty emotion representation ethical knowledge artistic autonomy and censorship are of contemporary relevance as formerly secure assumptions about the value of art and the aesthetic come under scrutiny. Images of Excellence gives a new and original view of a famous issue in the history of philosophy it is written not only for readers working in ancient philosophy but for all who are interested in aesthetics art theory and literary theory.

Theological Aesthetics After Von Balthasar O.

V. Bychkov, James Fodor, 2008 This collection of essays by distinguished authors explores the present day field of theological aesthetics from von Balthasar's contribution and parallel developments to correctives and alternatives to his approach. A tribute to von Balthasar's own project expands into a dialogue with ancient and medieval traditions in search of revelatory aesthetics. The contributors outline challenges to his approach including Protestant perspectives and introduce new ways of viewing the field of theological aesthetics which ultimately opens up to the idea of concrete cultural contexts and practical human needs determining the use of the arts and aesthetic sensibilities in theology

Poetic Inquiry: Unearthing the Rhizomatic Array Between Art and Research Adam Vincent, 2022-08-02 This book identifies and describes facets of poetic inquiry, a research method/methodology/tool that uses poetry in the research process (information gathering, analysis, and/or dissemination). Specifically, this book explores how and why it is in use, provides revelations around its unparalleled functions in research, and presents an exemplification of a close reading approach trialled in the study framed in the book that can draw further knowledge from the products of poetic inquiry studies. Poetic inquiry studies are somewhat established and their findings are being published in academic journals and books; however, poetic inquiry is currently undertheorized and noticeably missing from notable research methods textbooks and publications that discuss the merits of arts-based research. This may have the negative result of knowledge being lost or overlooked that could hold answers to previously unanswered questions that exist across the disciplines. In response to this problem, this book, drawing from the doctoral research study therein, highlights poetic inquiry's theoretical underpinnings and pragmatic uses in research and scholarship that can be adopted and adapted by new and established scholars. This is done using the tenets of poetic inquiry as a frame and includes in-depth literature review and an exploration of the findings of interviews with four notable poetic inquiry scholars in education in Canada. Detailed profiles for each participant have been created to analyze and emphasize their distinctive poetics and approaches to scholarship. Lastly, this book considers ways that poetic inquiry can inform teaching practices as poetry is seen to permeate the participants' lives and influence their approaches to teaching at the post-secondary level. This book is written for both early-career and well-established scholars who have an interest in exploring ways that poetic inquiry, which marries art and epistemology, can enhance their research and teaching practices. *Craft Horizons*, 1977

Creating Critical Research Poetry Maria K. E. Lahman, 2025-04-28 *Creating Critical Research Poetry* critically engages with the ways in which researchers can poetically approach textual representations that narrate the unnarratable and contest the uncontested. This text provides a rich path for early research poets to engage with and bloom, and established research poets to dig deeper and flourish. Connections to literary poetry and critical social science theories are detailed. First-person poetic accounts where poets describe early fruitful engagement with poetic forms are highlighted. Free verse, formed poetry, and dimensional poems (e.g., concrete poetry) are covered in depth with guidance for developing a poetic sensibility and honing research poetry craft. Poetic experiences are integrated throughout the book, which may be engaged with individually.

as a group and in virtual or face to face courses Each chapter provides reflexive questions for the reader to engage with in their own journal writings a poem creation exercise and further poetic resources Set within critical theories Creating Critical Research Poetry provides a context for early research poets and thought provoking possibilities for seasoned research poets This is the perfect entry point to this burgeoning field of critical inquiry and qualitative research **Oklahoma Resources**
