Art And Miracles In Medieval Byzantium The Crypt At Hosios Loukas And Its Frescoes:

Art and Miracles in Medieval Byzantium Carolyn Loessel Connor, 1991 The frescoes of the newly restored crypt at the Byzantine monastery of Hosios Loukas in Greece represent one of the best preserved ensembles of monumental decoration to survive from the Middle Ages In this first full photo documentation of the crypt of Saint Luke of Steiris Carolyn Connor shows how the frescoes reflect the funerary and commemorative functions of the architecture they embellish and how they suggest a new way of looking at this part of the medieval Byzantine empire Offering clues to the sources of wealth and the motives of patrons who made possible such a lavish foundation these frescoes also offer insight into Byzantine beliefs about miracles and healing cults Connor begins by examining the complex relationships among the frescoes together the forty portraits of saints eight Christological scenes and other depictions proclaim a message of salvation and confirm that this crypt was a place of miracles Through a study of the religious cultural social and political background of the monastery Connor integrates the program of the frescoes with its historical context and proposes a new dating for the architecture changed from the eleventh century to the late tenth century

Mosaics, Empresses and Other Things in Byzantium Liz James, 2024-08-01 This volume consists of 15 articles published between 1991 and 2018 It falls into three sections reflecting different areas of Liz James s interests The first section deals with light and colour and mosaics four articles considering light and colour in mosaics and the making of mosaics as well as the question of what it means to define mosaics as Byzantine are reprinted The second brings together four pieces on empresses their relationships with female personifications and the Mother of God their roles in founding and refounding buildings and their employment as ciphers by some authors Finally seven papers cover a range of topics what monumental images of saints in churches might have been for what the differences between relics and icons might have been how captions to images can be misleading why touch was an important sense how words can sometimes just be decorative rather than for reading why the materiality of objects makes a difference There is also a brief section of additional notes and comments which add to update and reflect on each piece now in 2024 Mosaics Empresses and Other Things in Byzantium will be of interest to scholars and students alike interested in material culture the depiction of regal women and the use of relics and icons in the Byzantine Empire

Architecture and Ritual in the Churches of Constantinople Vasileios Marinis, 2014-01-13 This book examines the interchange of architecture and ritual in the Middle and Late Byzantine churches of Constantinople ninth to fifteenth centuries It employs archaeological and archival data hagiographic and historical sources liturgical texts and commentaries and monastic typika and testaments to integrate the architecture of the medieval churches of Constantinople with liturgical and extra liturgical practices and their continuously evolving social and cultural context The book argues against the approach that has dominated Byzantine studies that of functional determinism the view that architectural form always follows liturgical function Instead proceeding chapter by chapter through the spaces of the Byzantine church it investigates how architecture responded to the exigencies of the

rituals and how church spaces eventually acquired new uses The church building is described in the context of the culture and people whose needs it was continually adapted to serve Rather than viewing churches as frozen in time usually the time when the last brick was laid this study argues that they were social constructs and so were never finished but continually evolving *Wisdom's House, Heaven's Gate* Teresa Shawcross, 2024-09-14 Taking as its starting point an investigation into the physical topography and symbolism of the two cities of Athens and Jerusalem this book offers a cultural history of the rival superpowers the Byzantine Empire and Fatimid Caliphate that between them dominated the Mediterranean world during the Central Middle Ages It shows that the destruction of the Church of the Holy Sepulchre in Jerusalem on the orders of al Hakim punctuated a century of heightened interaction resulting from changing patterns of warfare trade and pilgrimage Resettlement of both Christians and Muslims from Syria Palestine in Asia Minor and the Balkans introduced these migrants host culture to new forms of religious and artistic expression In Hellas a flurry of building projects reinvented Athens as a New Jerusalem and the Parthenon as a New Temple The Acropolis became famous for its miraculous lamp and elaborate liturgy The clergy who performed the sacred mysteries justified them with reference to concepts of hierarchy illumination and divinisation These concepts were derived from a philosophical tradition over whose ownership the two superpowers competed The resulting political theology was the creation of male intellectuals but female patrons and worshippers also had an impact

Cunningham,2016-12-05 This volume on the cult of the Theotokos Virgin Mary in Byzantium focuses on textual and historical aspects of the subject thus complementing previous work which has centred more on the cult of images of the Mother of God The papers presented here by an international team of scholars consider the development and transformation of the cult from approximately the fourth through the twelfth centuries The volume opens with discussion of the origins of the cult and its Near Eastern manifestations including the archaeological site of the Kathisma church in Palestine which represents the earliest Marian shrine in the Holy Land and Syriac poetic treatment of the Virgin The principal focus however is on the 8th and 9th centuries in Byzantium as a critical period when Christian attitudes toward the Virgin and her veneration were transformed The book re examines the relationship between icons relics and the

Virgin asking whether increasing devotion to these holy objects or figures was related in any way Some contributions consider the location of relics and later icons in Constantinople and other centres of Marian devotion others explore gender issues such as the significance of the Virgin's feminine qualities and whether women and men identified with her equally as a holy figure The aim of this volume is to build on recent work on the cult of the Virgin Mary in Byzantium and to explore areas that have not yet been studied The rationale is critical and historical using literary artistic and archaeological sources to evaluate her role in the development of the Byzantine understanding of the ways in which God interacts with creation by means of icons relics and the Theotokos Synopsis: An Annual Index of Greek Studies, 1993, 3 Andrew D.

perspective is that of the pilgrim journeying within or embarking from Southern Europe with a particular emphasis on Italy. The book pursues the connections between pilgrimage and architecture through the investigation of such issues as theology, liturgy, patronage, miracles and healing, relics and individual and communal memory. Moreover, it explores how pilgrimage may be regarded on various levels, from a physical journey towards a holy site to a more symbolic and internalized idea of pilgrimage of the soul.
