ICCROM Master List of Acquisitions International Centre for the Study of the Preservation and the Restoration of Cultural Property. Library,1984 *The Horse and Jockey from Artemision* Séan A. Hemingway,Seán Hemingway,2004-07-08 In 1928 and again in 1937 parts of a large scale bronze horse and nearly complete jockey were recovered from the sea off Cape Artemision in Greece where they had gone down in a shipwreck These original Hellenistic sculptures known together as the Horse and Jockey Group from Artemision are among the very few surviving bronze sculptures from antiquity Se n Hemingway has been allowed by the National Museum in Athens to investigate the horse and jockey statuary group as no one ever has before and in this book combining archaeological and art historical methods of investigation he provides the first in depth study of this rare and beautiful monument New technical analyses of the statues by Helen Andreopoulou Mangou form an appendix to the volume Hemingway begins with an introduction to Hellenistic bronze statuary and what we know about this extraordinary class of ancient sculpture He then recounts with riveting detail the discovery and painstaking restoration of the statue group describing the technique of its creation and carefully reviewing scholarly knowledge and speculation about it He also provides a valuable compendium of what is known about ancient Greek horse racing the most prestigious and splendid of all Greek sports After a full consideration of all the available evidence he speculates further about the work s original meaning and function His study provides a glimpse of the excellence achieved by Hellenistic bronze sculptors and it will become the definitive resource on this unique sculpture from ancient Greece **The Sanctuary of Demeter and Kore** Gloria S. Merker,2000 About 24 000 figurines and fragments have been found on Acrocorinth and this study greatly increases our understanding of the way in which this artform developed over the centuries **Encyclopedia of the History of Classical Archaeology** Nancy Thomson de Grummond,2015-05-11 With 1 125 entries and 170 contributors this is the first encyclopedia on the history of classical archaeology It focuses on Greek and Roman material but also covers the prehistoric and semi historical cultures of the Bronze Age Aegean the Etruscans and manifestations of Greek and Roman culture in Europe and Asia Minor The Encyclopedia of the History of Classical Archaeology includes entries on individuals whose activities influenced the knowledge of sites and monuments in their own time articles on famous monuments and sites as seen changed and interpreted through time and entries on major works of art excavated from the Renaissance to the present day as well as works known in the Middle Ages As the definitive source on a comparatively new discipline the history of archaeology these finely illustrated volumes will be useful to students and scholars in archaeology the classics history topography and art and architectural history *The Derveni Krater* Beryl Barr-Sharrar,2008 This beautifully illustrated book represents the first full publication of the most elaborate metal vessel from the ancient world yet discovered Found in an undisturbed Macedonian tomb of the late 4th century B C the volute krater is a tour de force of highly sophisticated methods of bronze working An unusual program of iconography informs every area of the vessel Snakes with copper and silver inlaid

stripes frame the rising handles wrapping their bodies around masks of underworld deities On the shoulder sit four cast bronze figures on one side a youthful Dionysos with an exhausted maenad on the other a sleeping Silenos and a maenad handling a snake In the major repousse frieze on the body a bearded hunter is associated with Dionysian figures What was the function of this extraordinary object And what is the meaning of the intricate iconography The krater is placed in its Macedonian archaeological context as an heirloom of the descendants of the man named in the Thessalian inscription on its rim and in its art historical context as a highly elaborated early 4th century version of a metal type known in Athens by about 470 B C
