Kuenzli, Francis M. Naumann, 1991 Artist of the Century These eleven illustrated essays explore the structure and meaning of Duchamp's work as part of an ongoing critical enterprise that has just begun **SA Democracy Incorporated** Vicki Robinson, 2006 [The Anonymous Marie de France](#) R. Howard Bloch, 2011-04-29 This book by one of our most admired and influential medievalists offers a fundamental reconception of the person generally assumed to be the first woman writer in French the author known as Marie de France The Anonymous Marie de France is the first work to consider all of the writing ascribed to Marie including her famous *Lais* her 103 animal fables and the earliest vernacular Saint Patrick's Purgatory Evidence about Marie de France's life is so meager that we know next to nothing about her not where she was born and to what rank who her parents were whether she was married or single where she lived and might have traveled whether she dwelled in cloister or at court nor whether in England or France In the face of this great writer's near anonymity scholars have assumed her to be a simple naive and modest Christian figure Bloch's claim in contrast is that Marie is among the most self-conscious sophisticated complicated and disturbing figures of her time the Joyce of the twelfth century At a moment of great historical turning the so-called Renaissance of the twelfth century Marie was both a disrupter of prevailing cultural values and a founder of new ones Her works Bloch argues reveal an author obsessed by writing by memory and by translation and acutely aware not only of her role in the preservation of cultural memory but of the transforming psychological social and political effects of writing within an oral tradition Marie's intervention lies in her obsession with the performative capacities of literature and in her acute awareness of the role of the subject in interpreting his or her own world According to Bloch Marie develops a theology of language in the *Lais* which emphasize the impossibility of living in the flesh along with a social vision of feudalism in decline She elaborates an ethics of language in the *Fables* which within the context of the court of Henry II frame and form the urban values and legal institutions of the Anglo-Norman world And in her *Espurgatoire* she produces a startling

examination of the afterlife which Bloch links to the English conquest and occupation of medieval Ireland With a penetrating glimpse into works such as these The Anonymous Marie de France recovers the central achievements of one of the most pivotal figures in French literature It is a study that will be of enormous value to medievalists literary scholars historians of France and anyone interested in the advent of female authorship

The Century Dictionary: The Century dictionary William Dwight Whitney,Benjamin Eli Smith,1895 Addiction Irving A. Cohen,1995 Billions of dollars have been expended on educating the public about the dangers of drug and alcohol addiction Despite these massive expenditures the powerful vortex of addiction continues Why Irving Cohen MD looks at the profile of the addict the nature of addiction the pharmacologic nature of the drugs and explains the roller coaster syndrome that can trap innocent people Addiction The High Low Trap offers a unique perspective for both the addict and society on how to approach this problem User-centric Privacy Jan Paul Kolter,2010 Today s offered services in the World Wide Web increasingly rely on the disclosure of private user information Service providers appetite for personal user data however is accompanied by growing privacy implications for Internet users

Targeting the rising privacy concerns of users privacy enhancing technologies PETs emerged One goal of these technologies is the provision of tools that facilitate more informed decisions about personal data disclosures Unfortunately available PET solutions are used by only a small fraction of Internet users A major reason for the low acceptance of PETs is their lack of usability Most PET approaches rely on the cooperation of service providers that do not voluntarily adopt privacy components in their service infrastructures Addressing the weaknesses of existing PETs this book introduces a user centric privacy architecture that facilitates a provider independent exchange of privacy related information about service providers This capability is achieved by a privacy community an open information source within the proposed privacy architecture A Wikipedia like Web front end enables collaborative maintenance of service provider information including multiple ratings experiences and data handling practices In addition to the collaborative privacy community the introduced privacy architecture contains three usable PET components on the user side that support users before during and after the disclosure of personal data All introduced components are prototypically implemented and underwent several user tests that guaranteed usability and user acceptance of the final versions The elaborated solutions realize usable interfaces as well as service provider independence Overcoming the main shortcomings of existing PET solutions this work makes a significant contribution towards the broad usage and acceptance of tools that protect personal user data
