Living with Anorexia and Bulimia James Moorey, 1991 This book provides an understanding of the conditions anorexia and bulimia addresses the issues of how families and friends can help and of self help and treatment **Anorexia and Bulimia** Carol Sonenklar, 2010-08-01 Anorexia bulimia signal a troubled body and soul cried a headline in USA TODAY the Nation s No 1 Newspaper These serious eating disorders plague people of all ages but mostly adolescent girls Untreated anorexia and bulimia can be life threatening Even when the diseases are diagnosed and treated the road to recovery is difficult and sometimes lasts a lifetime In the United States as many as eleven million people suffer from eating disorders In this book you ll investigate the complex causes and devastating effects of anorexia and bulimia Case studies let you follow the progression of these disorders in individuals from their first purging episode through the pain of hiding the affliction from loved ones to the eventual realization that they are suffering from a disorder and need help You ll also find detailed information on treatment options and support organizations This book helps you better understand the severity of these disorders and gives you the tools necessary to help yourself or loved ones who need your support **Feminist Perspectives**

**on Eating Disorders** Patricia Fallon, Melanie A. Katzman, Susan C. Wooley, 1996-10-01 Advancing the literature on a critical topic this important new work illuminates the relationship between the anguish of eating disorder sufferers and the problems of ordinary women The book covers a wide variety of issues from ways in which gender may predispose women to eating disorders to the widespread cultural concerns these problems symbolize Throughout the psychology of women is reflected in the concepts and methods described there is an explicit commitment to political and social equality for women and therapy is reevaluated based on an understanding of the needs of women patients and the potentially differing contributions of male and female therapists Providing valuable insights into the critical problem of eating disorders this book is essential reading for clinicians and researchers alike Also by examining many of the ways in which women are affected by and respond to society s gender politics the book may be used as a text in women s studies courses **Conversations About Illness**

Wayne A. Beach, 2012-12-06 The grandmother granddaughter conversation examined in this book makes explicit what the detailed study of interaction reveals about two social problems bulimia and grandparent caregiving For the first time systematic attention is given to interactional activities through which family members display ordinary yet contradictory concerns about health and illness a grandmother s who is also a registered nurse attempts to initiate confront and remedy her granddaughter s lack of responsibility in admitting bulimic problems and committing to professional medical assistance a granddaughter s methods for avoiding ownership of the alleged bulimic problems by discounting the legitimacy of her

grandmother's expressed concerns Through analysis of a single audio recorded and transcribed conversation Wayne Beach reveals the altogether pervasive and often troubled talk surrounding family medical predicaments From a careful review of extant theories that seek to explain eating disorders and grandparent caregiving it becomes clear that an overreliance on self report data has promoted underspecified understandings of social contexts conceptualizations void of real time practices and interactional consequences mirroring how families manage their daily affairs and understandings regarding health and illness In contrast this volume draws attention to family members embodied interactional activities Here it is seen for example how methods for expressing concern and caring by individuals may nevertheless eventuate in interactional troubles and problems between family members The analysis reveals that while displays of basic concerns for others health and well being are routine occurrences between family members in home environments and of course across friendship and various support networks even the delicate and well intended management of such occasions guarantees neither agreement on the nature of the alleged problems nor consequently a commitment to seek professional help as a means of remedying a medical condition In such cases the very existence of an illness is itself a matter of some contention to be interactionally worked out And it is perhaps both predictable and symptomatic that those explicitly denying or as with the granddaughter indirectly failing to admit that problematic health behaviors exist also somehow let it be made known that far too much attention is being given to possibilities and consequences of illness in the first instance Implications of this investigation extend well beyond bulimia and grandparent caregiving to a vast array of casual and institutional involvements between family members friends and bureaucratic representatives such as those involved in long term caregiving dealing with cancer and Alzheimer's disease or conducting psychiatric interviews and HIV AIDS counseling sessions Findings regarding the interactionally organized nature of talk about bulimia as well as the problematic nature of caregiving will be of value to researchers focusing on language and social interaction health practitioners and families alike This volume includes the full transcript of the conversation in the case study A copy of the audio recording is available for classroom adoption and or personal purchase by contacting Wayne A Beach School of Communication San Diego State University San Diego CA 92182 4516

#### **Psychopathology in Women**

Margarita Sáenz-Herrero,2019-07-15 This book examines sex and gender differences in the causes and expression of medical conditions including mental health disorders Sex differences are variations attributable to individual reproductive organs and the XX or XY chromosomal complement Gender differences are variations that result from biological sex as well as individual self representation which include psychological behavioural and social consequences of an individual s perceived gender Gender is still a neglected field in psychopathology and gender differences is often incorrectly used as a synonym of sex differences A reconsideration of the definition of gender as the term that subsumes masculinity and femininity could shed some light on this misperception and could have an effect in the study of health and disease This second edition of Psychopathology clarifies the anthropological cultural and social aspects of gender and their impact on mental health disorders It focuses on gender perspective as a paradigm not only in psychopathology but also in mental health disorders As such it promotes open mindedness in the definition and perception of symptoms as well as assumptions about those symptoms and raises awareness of mental health

#### Psychological Perspectives on Sexual Problems Jane M.

Ussher,Christine D. Baker,1993 The regulation of sexuality and the careful distinction between normality and abnormality has a long and checkered history with psychologists at the forefront of this debate Yet any attempt to identify a simple and unitary psychology of sexual problems inevitably becomes the focus of a great deal of criticism particularly from the disciplines of psychoanalysis and feminism The aim of Psychological Perspectives on Sexual Problemsis both to provoke and to promote a glasnost between those whose work directly involves research and intervention in the arena of sexuality and

those who would deconstruct criticize and reframe any understanding of sexuality outside of the dominant discourse of psychology The contributors examine the psychological theories associated with sexuality and sexual problems and at the same time present examples of positive and empowering practice with groups of individuals whose sexuality is often ignored or marginalized These individuals include those with learning difficulties or physical disabilities sex offenders gay men with AIDS and women with eating disorders Psychological Perspectives on Sexual Problems is the first text to integrate critical theory and current clinical practice in an attempt to arrive at a revolutionary approach to the psychology of sexuality

**Children's Health and Children's Rights** Michael Freeman, 2006-02-01 This collection offers a series of essays highlighting many of the most controversial of contemporary issues relating to children medicine and health care including the participation rights of children genetic testing male circumcision organ donation gender reassignment the rights of autistic children anorexia nervosa Essays are written by a range of leading scholars across a range of disciplines A number of the essays in this collection were previously published in the International Journal of Children's Rights Body Image Sarah Grogan, 2007-09-12 In addition to reviewing evidence for sociocultural influences on body image the book reviews recent literature and includes new data on body modification practices cosmetic surgery piercing tattooing and bodybuilding and takes a critical look at interventions designed to promote positive body image It also attempts to link body image to physical health looking in particular at motivations for potentially health damaging practices such as anabolic steroid use and cosmetic surgery *Women in Twentieth-Century Britain* Ina Zweiniger-Bargielowska, 2014-07-30 Women's lives have changed dramatically over the course of the twentieth century reduced fertility and the removal of formal barriers to their participation in education work and public life are just some examples At the same time women are under represented in many areas are paid significantly less than men continue to experience domestic violence and to bear the larger part of the burden in the domestic division of labour Women in 2000 may have many more choices and opportunities than they had a hundred years ago but genuine equality between men and women remains elusive This unique illustrated history discusses a wide range of topics organised into four parts the life course the experience of girlhood marriage and the ageing process the nature of women's work both paid and unpaid consumption culture and transgression and citizenship and the state

*Sampling Inner Experience in Disturbed Affect* Russell T. Hurlburt, 2013-06-29 Following up on his groundbreaking 1990 work *Sampling Normal and Schizophrenic Inner Experience* Dr Hurlburt delineates the development of his descriptive sampling method across numerous case studies of depressed anxious bulimic and borderline personalities Though controversial the method effectively demonstrates that an introspective technique can provide compelling vivid descriptions of patients as well as make distinctions between diagnostic groups Feminist Interpretations of René Descartes Susan Bordo, 2010-11-01 Contributors are Susan Bordo Stanley Clarke Erica Harth Leslie Heywood Luce Irigaray Genevieve Lloyd Mario Moussa Eileen O'Neill Adrianna Paliyenko Ruth Perry Mario S enz Karl Stern Thomas Wartenberg and James Winders

Culture and Weight Consciousness Mervat Nasser, 2003-09-02 Anorexia nervosa and bulimia are among the few psychiatric syndromes with a plausible socio cultural model of causation Issues of culture and slimness are usually considered in terms of the experience of the western world but there is a growing body of research suggesting that concern with slimness is becoming more prevalent in non western cultures In Culture and Weight Consciousness Mervat Nasser brings together this research and looks at the recent emergence of eating disorders in cultures that were previously free of such problems She relates the feminist theories that have been put forward to explain the phenomenon of eating disorders in the west to the condition of modern women in many non western cultures and concludes that their position is not at all that different from that of their western counterparts This leads her to address the current limitations of the concept of culture and draw out the implications for future research

**Hunger and Postcolonial Writing** Muzna Rahman, 2022-08-17 Hunger and Postcolonial Writing explores contemporary postcolonial fiction and life writing from various geo political contexts The focus of this work is hunger individuated in the self imposed starvation of the hunger protester and on a mass scale in the form of famine and food insecurity It considers the hungry colonial and postcolonial body examines its textual forms and historical trajectories and situates it within the food security context of imperialism and its legacies This book is

the first monograph length study of hunger within a postcolonial world literary context Its transcolonial focus produces comparative readings across postcolonial writings facilitating productive analyses of the operations of imperialism and its aftereffects across heterogenous zones of colonialism This project reads hunger as defined by the social cultural historical and economic engagements produced by colonial and postcolonial encounters Examining the starving colonialized body through Cartesian models of somatic subjectivity and considering how this body is mediated by post Enlightenment discourses of Modernity and progress this work interrogates the contradictions produced by the starving colonial body as it is positioned between the possibility of radical protest and prescriptive colonial discourse This book will be of interest to Gastrocritical and Postcolonial scholars and students and to Food scholars more broadly
