Other Voices, Other Views Helen Ostovich, Mary V. Silcox, Graham Roebuck, 1999-12 The debate over canon represented by this book is implicit in the broad range of its contents As a whole it argues for expansion the inclusion of other voices to augment the standard university syllabus for the early modern period urging recognition of the period s diversity and reforming the conditions under which we pass judgment on its culture Each of these essays reveals the literary potential of works that have been considered inferior and inappropriate for serious study While such individual discovery is certainly valuable what is even more interesting is their significance as a group All the essays contained here are engaged in opening texts up to different perspectives creating a canon that speaks of diversity rather than uniformity **BOOK JACKET** Title Summary field provided by Blackwell North America Inc All Rights Reserved

The Netflix Vision of Horror Sotiris Petridis, 2021-07-05 Since the emergence of on demand streaming platforms television as a storytelling medium has drastically changed The lines between TV and cinema are blurred Traditionally television relied on narrative forms and genres that were highly formulaic striving to tease the viewer onward with a series of cliffhangers while still maintaining viewer comprehension Now on platforms such as Netflix the lack of commercial breaks and the practice of binge watching have led to a new type of television flow that urges viewers to see and consume a series as a whole and not as a fragmented narrative This book examines the structuring methods of 13 Netflix original horror series including *Chilling Adventures of Sabrina* *Stranger Things* *Hemlock Grove* *The Haunting of Hill House* and *Santa Clarita Diet* Although these shows use television as the medium of storytelling they are structured according to the classical rules of film
