to be a nurse so that is what Julie did But in her heart she had always wanted to be an actress and soon she was on stage at the local theatre in Liverpool Her career snowballed with highlights that include Educating Rita Billy Elliot Harry Potter Acorn Antiques Dinner Ladies and Mamma Mia She has been nominated for two Oscars been awarded multiple BAFTAs and a Golden Globe plus been honoured with a DBE This is the heart warming and funny story of that journey **Just Another Story** Ernesto Saade,2024-04-02 This is the story of Carlos and Elena the story of thousands the story of my country This is just another story When Carlos was nineteen years old his mother decided to leave her life in El Salvador for a new start in the United States Reluctant to follow but unwilling to let his mother go without him Carlos joined her on the journey north During their trip through Mexico and into the US they experienced the risks and fears countless people from Central American countries have faced while migrating to different lands Ten years later Carlos shared these memories with his cousin cartoonist Ernesto Saade The result of their conversation is Just Another Story A Graphic Migration Account This stirring and thoughtful graphic work goes beyond headlines and statistics to provide a powerful individual account of migration Until now the story of Carlos was diluted between thousands and thousands of similar stories or infinitely worse ones However this doesn't detract from his story or anyone else's They're not numbers or statistics but individuals whose lives are a reflection of serious problems in the region This is the story of Carlos and Elena the story of thousands the story of my country This is just another story **Preach Another Story** John E. Huegel,2017-04-21 Preach Another Story is a collection of sermons in story form based on the Old Testament It is a sequel to Huegel's first book Preach a Story which was based on the New Testament The stories are set in the narrative of the history of Israel from the time of Abraham to the return from the exile The author impersonates the characters and through their eyes tries to recreate the situation in which each one lived and the challenge each faced Though he adds details to embellish each story he remains faithful to the biblical text Huegel believes that the stories themselves provide encouragement and hope for the story of our own journey through life **The South African Short Story in English, 1920-2010** Marta Fossati,2024-09-05 Through detailed close readings alongside investigations into the history of print culture Marta Fossati traces the development of the South African short story in English from the late 1920s to the first decade of the twenty-first century She examines a selection of short stories by important Black South African writers Rolfes and Herbert Dhlomo Peter Abrahams Can Themba Alex La Guma Mtutuzeli Matshoba Ahmed Essop and Zo Wicomb with an alertness to the dialogue between ethics and aesthetics performed by these texts This new history of Black short fiction problematises and interrogates the often polarised readings of Black literature in South Africa that can be torn between notions of literariness protest and journalism Due to material constraints short fiction in South Africa circulated first and foremost through local print media which Fossati analyses in detail to show the cross fertilisation between journalism and the short story While rooted in the South African context the short stories considered also hold a translocal dimension allowing us to explore the ethical and aesthetic practice of intertextuality These are writings

that complicate the aesthetics ethics binary generic classifications and the categories of the literary and the political Theoretically eclectic in its approach although largely underpinned by a narratological analysis The South African Short Story in English 1920 2010 When Aesthetics Meets Ethics offers a fresh perspective on the South African short story in English spotlighting several hitherto marginalised figures in South African literary studies **ALL+ 2020 6** **No.187** [] LiveABC, 2020-05-15 ALL Waste Not Want Not Owain Mckimm 6 18 The enormous fires that burned through Australia last year and this year have scientists very concerned They worry that when the rains fall they will wash the ash left by the fires into the rivers and pollute Australia's water supply a situation that would leave thousands of Australians without drinking water This looming water crisis in Australia has also called attention to Taiwan's own dangers of water shortage Although Taiwan has an average rainfall of 2 500 millimeters per year its lack of storage capacity means that much of that rainfall flows into the ocean In fact the nation's reservoirs can only store about six weeks worth of water before running completely dry As a result Taiwan faced water shortages nine times between 2002 and 2015 An additional element that perpetuates this problem is the low cost of water in Taiwan one of the lowest in the world Inexpensive water bills mean people hardly think about saving water And although a rise in water prices could reduce Taiwan's water usage significantly no politician is brave enough to suggest that solution To reduce the risk of a severe water crisis in the future it's therefore up to us to cut back on the amount of water we use 6 19 To figure out what actions are needed to conserve water it helps to know where water is being wasted In an average household flushing the toilet and showering account for an overwhelming percentage of all water used It stands to reason then that the most significant change you can make is to your bathroom habits Everyone loves a long hot shower but do try to limit your shower time to around five minutes To help you stick to this rule find a five minute long song that you can play while showering and make sure you're finished when it ends Limiting your shower time is pointless if you're allowing the shower water to drain away while it warms up To solve this collect that initial stream of cold water in a container You can then use that water to flush your toilet Besides trying to minimize the number of times you flush check your toilet for leaks After all leakages are the biggest waste of water You may think these small actions won't make much of a difference but there are over 23 million people in Taiwan If everyone takes steps to waste less water the nation's water security is all but assured News Report Huge Locust Outbreak Hits East Africa Heads Beyond People Florence Pugh Hollywood's Confident Newcomer History Denim Jeans From Worker Safety to Fashion Staple CNN News Who Are BTS BTS Dialogue Focus Different Jobs Becoming a Professional Gamer Internet How to Protect Your Smart Home from Hackers Travel Camino de Santiago The Walk of a Lifetime Writing Translation Practice Reading Skill The Black Poodle Environment Waste Not Want Not Plus Talk Expressing Opinions 1 Discussing a New Policy 2 Choosing a Place for Dinner 3 Deciding on Evening Plans 4 Holding an Evaluation Meeting Biology Facts about Viruses Debate Adventure Tourism a Risky Business Topic Writing A Letter to the Teacher Love Is a Story Robert J. Sternberg, 1999-06-03 In this groundbreaking

work Robert Sternberg opens the book of love and shows you how to discover your own story and how to read your relationships in a whole new light What draws us so strongly to some people and repels us from others What makes some relationships work so smoothly and others burst into flames Sternberg gives us new answers to these questions by showing that the kind of relationship we create depends on the kind of love stories we carry inside us Drawing on extensive research and fascinating examples of real couples Sternberg identifies 26 types of love story including the fantasy story the business story the collector story the horror story and many others each with its distinctive advantages and pitfalls and many of which are clashingly incompatible These are the largely unconscious preconceptions that guide our romantic choices and it is only by becoming aware of the kind of story we have about love that we gain the freedom to create more fulfilling and lasting relationships As long as we remain oblivious to the role our stories play we are likely to repeat the same mistakes again and again But the enlivening good news this book brings us is that though our stories drive us we can revise them and learn to choose partners whose stories are more compatible with our own Quizzes in each chapter help you to see which stories you identify with most strongly and which apply to your partner Are you a traveler a gardener a teacher or something else entirely Love is a Story shows you how to find out

The Realist Short Story of the Powerful Glimpse Kerry

McSweeney, 2007 An aesthetic perspective on the short fiction of Chekhov Joyce Hemingway O Connor and Carver Taking a distinctively aesthetic approach to the genre of realist short fiction Kerry McSweeney clusters the work of five masters Anton Chekhov James Joyce Ernest Hemingway Flannery O Connor and Raymond Carver to offer a poetics of the form for students and scholars At the center of this argument is the notion that the realist short story is a glimpse powerful and tightly focused into a world that the writer must precisely craft and in which the reader must fully invest Selecting writers from different generational national and cultural backgrounds McSweeney chooses writers based on their commitment to the realist representation of experience and their shared belief in the importance and efficacy of the short story form By considering their efforts in tandem he develops a means to assess the strategies and claims of realist short fiction McSweeney demonstrates that when the comments these writers have made about their work are assembled and critically scrutinized the result is an aesthetic critical model as opposed to more interpretative models that focus attention on the determination or indetermination of meanings He suggests that a fully adequate reading of a realist short story involves the integration of three components the enjoyment and contemplation of the story in and of itself affective receptivity or a response to the story's emotional content and cognitive activity or the reflective consideration of the story's conceptual implications In individual chapters on Chekov Joyce Hemingway O Connor and Carver this presentational model is applied to widely known and often anthologized readings from each writer McSweeney brings into sharp focus the distinctive features of each piece makes qualitative discriminations and assesses the profitability of other critical models He concludes with an invitation to test the mettle of his approach in reading other realist short story writers

The Personal Experience of Time B.

Gorman,2013-03-09 The fundamental nature of human time experience has concerned artists poets philosophers and scientists throughout the ages Any consideration of human action requires awareness of its temporal aspects However simply to view time in the same units and dimensions as the physicist employs in describing events robs personal time of its lived quality The use of physical time concepts in the description of human events is often artificial and misleading It fails to account for the facts that human time estimates rarely match clock and calendar time that societies and individuals demonstrate vast differences in their constructions and uses of time and that temporal perceptions and attitudes change within an individual both during a single day and throughout his life span The present volume does not view time as something that is sensed in the same way that one would sense or perceive spatial or sensory stimuli Rather it views time as a complex set of personally experienced cognitive constructs used by individuals and cultures to account for the order the duration and the organization of events The authors in this book take a strong departure from earlier psychophysical studies of a time sense and address themselves to the uses and elaborations of time concepts in personal and social functioning

Palliative Care Nursing as Mindfulness Lacie White,2022-05-25 As nurses we hear about mindfulness all the time but what does that actually mean in practice In this book readers are invited into conversation to explore how mindfulness influences palliative care nurses approaches to caring for themselves and others through experiences of living dying Under the guise of stress reduction and self care the assumption often made is that mindfulness can smooth out difficult experiences Instead the objective of this inquiry is not to bypass the practice of caring in those spaces that are really hard but to understand how nurses are working directly within them Calling out from the shadows and our bodies the intensity of palliative care nursing practice arises In this text a dialogue unfolds of nurses caring in deeply meaningful practice environments while searching for ground that is perpetually shifting uncertain and fraught with suffering and strong emotion Integrating literature across nursing sociology and contemplative scholarship evocative stories from palliative care nurses lead in this conversation their words in italics showing how they are guided into action through connection with in their bodies At other times stories show how nurses are taking pause and drawing on various somatic practices to unravel entanglements that touch on their own humanity These stories also offer insight into how systemic forces across educational and organizational institutions are either enhancing or constraining the way nurses engage mindfulness as a relationally embodied ethic of care This insightful volume is not a how to guide rather it is a timely resource exploring approaches for palliative care nurses to care for themselves and others with mindfulness and compassion Those seeking nuanced perspectives particularly in relation to embodying mindfulness through suffering and strong emotion will be drawn to this text Qualitative researchers studying emotionally sensitive topics may also find inspiration in the narrative arts based and embodied methods that shape this inquiry

Difficult Empathy and Rhetorical Encounters Eric Leake,2023-08-04 Difficult Empathy takes up the question of empathy as fundamentally a rhetorical concern focusing on the ways we encounter and understand one another in what we read and

write hear and say The book centres around the argument that empathy as a rhetorical event occurs not simply in the minds of individuals but as a product of the rhetorical situations practices cultures and values in which we engage Rather than identifying empathy as a cure all or jettisoning the concept altogether the author acknowledges empathy s potential as well as its limitations by focusing on what makes empathy a hard and ultimately worthwhile practice This nuanced and original study will interest scholars working at the intersection of rhetoric and composition with empathy as well as those studying empathy in fields such as critical and cultural theory politics media analysis social psychology and the cognitive humanities
