Committee on Appropriations,1966 *A Source Book for Mediaeval History : Selected Documents illustrating the History of Europe in the Middle Age* Oliver J. Thatcher,Edgar Holmes McNeal,1905 *A Source Book for Mediaeval History Selected Documents illustrating the History of Europe in the Middle Age* It will be observed that we have made use chiefly of documents quoting from chronicles only when it seemed absolutely necessary An exception to this general principle is found in section I where a larger use of chronicles was rendered necessary by the lack of documentary sources for much of the period covered but it is perhaps unnecessary to apologize for presenting selections from the important histories of Tacitus Gregory Einhard and Widukind In the matter of form translation omissions arrangements notes etc we were guided by considerations of the purpose of the book The style of most of the documents in the original is involved obscure bombastic and repetitious A faithful rendition into English would often be quite unintelligible We have endeavored to make a clear and readable translation but always to give the correct meaning If we have failed in the latter it is not for want of constant effort We have not hesitated to omit phrases and clauses often of a parenthetical nature the presence of which in the translation would only render the passage obscure and obstruct the thought As a rule we have given the full text of the body of the document but we have generally omitted the first and last paragraphs the former containing usually titles and pious generalities and the latter being composed of lists of witnesses etc We have given a sufficient number of the documents in full to illustrate these features of medi val diplomatics All but the most trivial omissions in the text which are matters rather of form of translation are indicated thus Insertions in the text to explain the meaning of phrases are inclosed in brackets Quotations from the Bible are regularly given in the words of the Authorized Version but where the Latin taken from the Vulgate differs in any essential manner we have sometimes translated the passage literally Within each section the documents are arranged in chronological order except in a few cases where the topical arrangement seemed necessary We believe that the explanatory notes in the form of introductions and foot notes will be found of service they are by no means exhaustive but are intended to explain the setting and importance of the document and the difficult or obscure passages it may contain The reference to the work or the collection in which the original is found is given after the title of practically every document the meaning of the references will be plain from the accompanying bibliography The original of nearly all the documents is in Latin some few are in Greek Old French or German and in such cases the language of the original is indicated It is impossible of course to give explicit directions as to the use of the book other than the very obvious methods of

requiring the student to read and analyze the documents assigned in connection with the lesson in the text book and of making clear to him the relation of the document to the event It may be possible also for the teacher to give the student some notion of the meaning of historical method e g the necessity of making allowance for the ignorance or the bias of the author in chronicles or the way in which a knowledge of institutions is deduced from incidental references in documents Suggestions of both sorts will be found in the introduction and notes The teacher should insist on the use of such helps as are found in the book notes cross references glossary etc Groups of documents can be used to advantage in topical work assigned topics worked up from authorities can be illustrated by documents selected from the book e g imperial elections papal elections the Normans in Sicily history of the Austrian dominions Germans and Slavs on the eastern frontier relations of the emperors and the popes before the investiture strife etc **The House of Worth** Litchfield Historical Society,2015-09-16 These 125 watercolor and ink renderings of designs for the 1916 and 1918 seasons include fabric swatches price information and notes Introduction plus two substantial essays on the sketches cultural and social significance United States Reports United States. The increasing availability of big real time urban data and advanced ICT facilitates frequent assessment and continuous monitoring of performances while allowing fine tuning as needed This is valid not only for individual projects but also on a wider scale In addition and circling back to the first point big urban data and ICT can be of enormous help in facilitating engagement and co creation by raising awareness and by providing insight into the local consequences of specific plans However this potential is not yet fully exploited in standard processes and procedures which can therefore lack the agility and flexibility to keep up with the pulse of the city and dynamics of society The book provides a multi disciplinary outlook based on experience to orient the reader in the giant galaxy of smart and sustainable planning support the transposition of research into practice scale up visionary approaches and design groundbreaking planning policies and tools State and Metropolitan Area Data Book ,1991 1979 2010 Contains data similar to that found in the County and City Databook but on the state and MSA Metropolitan Statistical Areas levels **Hearings, Reports and Prints of the House Committee on the District of Columbia** United States.
