By the 19th century, Slavic literature was flourishing, and Slavic writers were producing some of the most important works of world literature. Slavic literature is characterized by its diversity. It also includes works by lesser-known writers who nevertheless have made significant contributions to Slavic literature. The essays in this anthology provide a critical overview of the development of Slavic literature. They discuss the major literary movements and genres, as well as the social and political context in which Slavic literature was produced. The essays are written by leading scholars in the field of Slavic literature, and they provide a valuable resource for students and scholars alike.
