Anthropology Nelson Jurmain, 2000-06-01 [Dragon Bone Hill](#) Noel T. Boaz, Russell L. Ciochon, 2004-02-16 Peking Man a cave man once thought a great hunter who had first tamed fire actually was a composite of the gnawed remains of some fifty women children and men unfortunate enough to have been the prey of the giant cave hyena Researching the famous fossil site of Dragon Bone Hill in China scientists Noel T Boaz and Russell L Ciochon retell the story of the cave s unique species of early human Homo erectus Boaz and Ciochon take readers on a gripping scientific odyssey New evidence shows that Homo erectus was an opportunist who rode a tide of environmental change out Africa and into Eurasia puddle jumping from one gene pool to the next Armed with a shaky hold on fire and some sharp rocks Homo erectus incredibly survived for over 1 5 million years much longer than our own species Homo sapiens has been on Earth Tell tale marks on fossil bones show that the lives of these early humans were brutal ruled by hunger and who could strike the hardest blow yet there are fleeting glimpses of human compassion as well The small brain of Homo erectus and its strangely unchanging culture indicate that the species could not talk Part of that primitive culture included ritualized aggression to which the extremely thick skulls of Homo erectus bear mute witness Both a vivid recreation of the unimagined way of life of a prehistoric species so similar yet so unlike us and a fascinating exposition of how modern multidisciplinary research can test hypotheses in human evolution Dragon Bone Hill is science writing at its best *Cultural Anthropology* Gary P. Ferraro, 1997-10 This comprehensive text is the only cultural anthropology text that fully integrates a unique applied approach into coverage of the basic principles of studying our own and other cultures The applied approach shows different ways in which anthropological theory is used not only by practicing anthropologists but also by others outside the field **Essentials of Cultural Anthropology** Garrick Alan Bailey, James Peoples, 2002 This text is a brief more affordable version of the Peoples and Bailey HUMANITY AN INTRODUCTION TO CULTURAL ANTHROPOLOGY Fifth Edition 2000 Its coverage of core topics smaller size and economical price make it well suited for instructors who wish to adopt a core text along with supplemental texts such as readers and ethnographies The text shares in a briefer format the same rich characteristics that made HUMANITY a best seller over the

years strong scholarship rich ethnographic examples and a unique focus on modern ethnicity and the survival of indigenous peoples Im/Tb Ess Physical Anthro Jurmain,2003-07 Introduction to Physical Anthropology Andrew Kramer,2002-08
