*Realism and Anti-Realism in the Philosophy of Science* Robert S. Cohen, R. Hilpinen, Ren-Zong Qiu, 2013-03-09 Beijing International Conference 1992      *Scepticism and Anti-Scepticism in Medieval Jewish Philosophy and Thought* Racheli Haliva, 2018-09-24 The series Studies and Texts in Scepticism contains monographs translations and collected essays exploring scepticism in its dual manifestation as a purely philosophical tradition and as a set of sceptical strategies concepts and attitudes in the cultural field especially in religions perhaps most notably in Judaism In such cultural contexts scepticism manifests as a critical attitude towards different dimensions and systems of secular or revealed knowledge and towards religious and political authorities It is not merely an intellectual or theoretical worldview but a critical form of life that expresses itself in such diverse phenomena as religion literature and society Further book series of the Maimonides Centre for Advanced Studies are Jewish Thought Philosophy and Religion and the Yearbook of the Maimonides Centre for Advances Studies      **History and Anti-History in Philosophy** Victorino Tejera, 2017-07-05 History and Anti History in Philosophy demonstrates the viability of the idea of the unity of philosophic thinking and the reflective practice of the history of philosophy It is a concise in depth history of the deconstructive turn in philosophy and of the styles of historical and interpretive contextualization afforded by diverse schools of thought Thematic unity arises from the focus of contributors on the historical dimension of reflection in philosophy History of philosophy and intellectual history come together when they are forced to practice foundational analysis namely when they feel the need to uncover indubitables of society Indubitables are deeply held usually unnoticed premises upon which a society or group acts builds and speaks By foundational analysis the editors do not mean the search for acceptable starting points of intellectual exploration but the ongoing criticism of all such postulates of faith For those interested in contextual analysis of Kant Hegel Marx Dewey Mannheim Husserl Dilthey Heidegger and Gadamer this is an invaluable guide The editors make plain their belief that not using history as have past philosophies is unphilosophic ideas in personal construction to a text that cannot supply reasons for being taken seriously in history This volume illuminates the achievements of present day social science insights It merits a close reading by those for whom the history of ideas is a living entity      Science Studies as Naturalized Philosophy Finn Collin, 2010-10-22 This book approaches its subject matter in a way that combines a strong analytical and critical perspective with a historical and sociological framework for the understanding of the emergence of Science Studies This is a novelty since extant literature on this topic tends either to narrate the history of the field with little criticism or to criticize Science Studies from a philosophical platform but with little interest in its historical and social context The book provides a critical review of the most prominent figures in Science Studies also known as Science and Technology Studies and traces the historical roots of the discipline back to developments emerging after World War II It also presents it as an heir to a long trend in Western thought towards the naturalization of philosophy where a priori modes of thought are replaced by empirical ones Finally it

points to ways for Science Studies to proceed in the future      [The Cambridge Companion to Medieval Jewish Philosophy](#)  
Daniel H. Frank, Oliver Leaman, 2003-09-11 From the ninth to the fifteenth centuries Jewish thinkers living in Islamic and Christian lands philosophized about Judaism Influenced first by Islamic theological speculation and the great philosophers of classical antiquity and then in the late medieval period by Christian Scholasticism Jewish philosophers and scientists reflected on the nature of language about God the scope and limits of human understanding the eternity or createdness of the world prophecy and divine providence the possibility of human freedom and the relationship between divine and human law Though many viewed philosophy as a dangerous threat others incorporated it into their understanding of what it is to be a Jew This Companion presents all the major Jewish thinkers of the period the philosophical and non philosophical contexts of their thought and the interactions between Jewish and non Jewish philosophers It is a comprehensive introduction to a vital period of Jewish intellectual history      *Oxford Studies in Ancient Philosophy, Volume 57* Victor Caston, 2020-01-20 Oxford  
Studies in Ancient Philosophy is a volume of original articles on all aspects of ancient philosophy The articles may be of substantial length and include critical notices of major books OSAP is now published twice yearly in both hardback and paperback Have you seen the latest OSAP is what scholars of ancient philosophy say to each other when they meet in corridors or on coffee breaks Whether you work on Plato or Aristotle on Presocratics or sophists on Stoics Epicureans or Sceptics on Roman philosophers or Greek Neoplatonists you are liable to find OSAP articles now dominant in the bibliography of much serious published work in your particular subject not safe to miss Malcolm Schofield Cambridge University OSAP was founded to provide a place for long pieces on major issues in ancient philosophy In the years since it has fulfilled this role with great success over and over again publishing groundbreaking papers on what seemed to be familiar topics and others surveying new ground to break It represents brilliantly the vigour and the increasingly broad scope of scholarship in ancient philosophy and shows us all how the subject should flourish M M McCabe King s College London  
*Interpreting Avicenna* Peter Adamson, 2013-07-04 This volume examines many aspects of the philosophy of Avicenna the greatest philosopher of the Islamic world      **Badiou and Philosophy** Sean Bowden, 2012-06-27 The first reassessment of Alain Badiou s work since the English translation of his *Logics of Worlds* in 2009 From Cantor to category topos theory from Lacan to Lautman and from Sartre to the subject these 13 essays engage directly with the work of Alain Badiou They focus on the philosophical content of Badiou s work and show how he connects both with his contemporaries and his philosophical heritage This is an important collection for anyone interested in the work of Badiou and contemporary Continental philosophy      **Philosophical Theorizing and its Limits** Uri D. Leibowitz, Klodian Coko, Isaac Nevo, 2025-02-12 This book brings together scholars from ethics and philosophy of science in order to identify ways in which insights gleaned from one subfield can shed light on the other The book focuses on two radical Anti Theory movements that emerged in the 1970 s and 1980 s one in philosophy of science and the other in ethics Both movements challenged attempts to supply general

systematized philosophical theories within their domains and thus invited the reconsideration of what philosophical theorizing can and should offer Each of these movements was domain specific that is each criticized the aspirations to philosophical theories within its own domain and advanced arguments aimed at philosophers within their own specific subfield The innovative systematic comparative examination of these movements by scholars from each domain sheds new light on some familiar debates offers new and exciting paths of research to pursue in each domain provides insight into the place of science and ethics in contemporary life and culture and enables a fresh view on the longstanding and alluring philosophical aspiration for a fully general absolute theory of reality and an ultimate objective foundational theory of knowledge **Royal Institute of Philosophy Lectures, vol 4 1969-1970: The Proper Study** NA NA,2016-01-13

**Québec Studies in the Philosophy of Science** Mathieu Marion,Robert S. Cohen,2012-12-06 By North American standards philosophy is not new in Quebec the first mention of philosophy lectures given by a Jesuit in the College de Quebec founded 1635 dates from 1665 and the oldest logic manuscript dates from 1679 In English speaking universities such as McGill founded 1829 philosophy began to be taught later during the second half of the 19th century The major influence on English speaking philosophers was at least initially that of Scottish Empiricism On the other hand the strong influence of the Catholic Church on French Canadian society meant that the staff of the facultes of the French speaking universities consisted until recently almost entirely of Thomist philosophers There was accordingly little or no work in modern Formal Logic and Philosophy of Science and precious few contacts between the philosophical communities In the late forties Hugues Leblanc was a young student wanting to learn Formal Logic He could not find anyone in Quebec to teach him and he went to study at Harvard University under the supervision of W V Quine His best friend Maurice L Abbe had left a year earlier for Princeton to study with Alonzo Church After receiving his Ph D from Harvard in 1948 Leblanc started his professional career at Bryn Mawr College where he stayed until 1967 He then went to Temple University where he taught until his retirement in 1992 serving as Chair of the Department of Philosophy from 1973 until 1979 Rethinking Ethical-Political Education Torill Strand,2020-07-29 This book offers a variety of outlooks and perspectives on the constitutive values and formative norms of a society reflected by discourses on ethical political education It also discusses conceptual and critical philosophical works combined with empirical studies The book is divided into three parts the first part describes contemporary youth's tangible experience of and reflections on ethical political issues while the second part explores the potential powers and pitfalls of educational philosophies old and new The third part highlights cutting edge issues within the humanities and social sciences and examines the prospects of a fruitful rethinking of ethical political education in response to today's pressing issues By addressing current dilemmas with diligence and insight the authors offer solid arguments for new theoretical and practical directions to promote philosophical clarification and advance research Intended for students teachers and researchers the book provides fresh perspectives on the many facets of ethical political education and as such is a valuable contribution to

educational research and debate      *Oxford Studies in Experimental Philosophy, Volume 2* Tania Lombrozo, Joshua Knobe, Shaun Nichols, 2018 This second volume is structured into three parts The first four chapters focus on issues in folk epistemology Part II explores a range of experimental topics in moral and political philosophy and the final part Metaphysics and mind contains chapters that examine such topics as personal identity and robot minds back cover      **Concise Routledge Encyclopedia of Philosophy** Routledge (Firm), 2000 The scholarship of this monumental and award winning ten volume work is available in one affordable book that brings together more than 2 000 entries from the original in a shortened more accessible format Extensively cross referenced and indexed      *Concise Routledge Encyclopedia of Philosophy* Professor Edward Craig, Edward Craig, 2013-01-11 The most complete and up to date philosophy reference for a new generation with entries ranging from Abstract Objects to Wisdom Socrates to Jean Paul Sartre Ancient Egyptian Philosophy to Yoruba Epistemology The Concise Routledge Encyclopedia of Philosophy includes More than 2000 alphabetically arranged accessible entries Contributors from more than 1200 of the world s leading thinkers Comprehensive coverage of the classic philosophical themes such as Plato Arguments for the Existence of God and Metaphysics Up to date coverage of contemporary philosophers ideas schools and recent developments including Jacques Derrida Poststructuralism and Ecological Philosophy Unrivalled international and multicultural scope with entries such as Modern Islamic Philosophy Marxist Thought in Latin America and Chinese Buddhist Thought An exhaustive index for ease of use Extensive cross referencing Suggestions for further reading at the end of each entry      The Grand Lexicon of Astronology Cometan, Cometa, 2019-11-25 The Grand Lexicon of Astronology is the principal post disquisitional segment of the Omnidoxy within the Appendix of the Omnidoxy as part of the Original Omnidoxical Series solely authored and organised by Cometan and published by the Astronist Institution The Grand Lexicon makes up the largest portion of the Appendix of the Omnidoxy at over 300 000 words and is considered the first dictionary of not only Astronism itself but the entire Astronic tradition and culture as studied by the astronology discipline The Grand Lexicon includes terms across the entire Astronic tradition regarding both Millettarian and Astronist philosophies and cultures Its authority is further solidified through its categorised as part of the Omnidoxy and demonstrates its importance to the founding of Astronism and acts as a great expander of the elements surrounding the religion Although there will be many more dictionaries concerning Astronism and astronology with greater comprehensiveness of the entirety of these vast subjects The Grand Lexicon of Astronology will remain the progenitor for all of these      Peripheral Omnidoxy Cometan, 2021-11-12 The Peripheral Omnidoxy is a publication that consists of both the Preppendix of the Omnidoxy and the Appendix of the Omnidoxy publications therefore all non disquisitional segments of the Omnidoxy It was solely written and organised by the philosopher and founder of Astronism Cometan and was originally published by Astral Publishing an imprint and publishing subsidiary of the Astronist Institution It consists of a number of different types of books and genres including reference works philosophical musings quotations
