**Anti-Society** Kellow Chesney,1970-06      *Antivivisection and Medical Science in Victorian Society* Richard D. French,2019-03-12 Late nineteenth century England witnessed the emergence of a vociferous and well organized movement against the use of living animals in scientific research a protest that threatened the existence of experimental medicine Richard D French views the Victorian antivivisection movement as a revealing case study in the attitude of modern society toward science The author draws on popular pamphlets and newspaper accounts to recreate the structure tactics ideology and personalities of the early antivivisection movement He argues that at the heart of the antivivisection movement was public concern over the emergence of science and medicine as leading institutions of Victorian society a concern he suggests that has its own contemporary counterparts In addition to providing a social and cultural history of the Victorian antivivisection movement the book sheds light on many related areas including Victorian political and administrative history the political sociology of scientific communities social reform and voluntary associations the psychoanalysis of human attitudes toward animals and Victorian feminism Richard D French is a Science Advisor with the Science Council of Canada Originally published in 1975 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905      *The Anti-society* Kellow Chesney,1970      **Bad Habits** John C. Burnham,1993 Seeks to discover why so many good people engage in activities that many including themselves consider bad finding a coalition of economic and social interest in which the singleminded quest for profit is allied to the values of the Victorian saloon underworld and bohemian rebelliousness      **Violence and Crime in Nineteenth-century England** John Carter Wood,2004 Combining a vivid analysis of criminal records and public debate with theories from cultural studies anthropology and social geography this book contributes to current debates in history criminology and violence studies      **Fallenness in Victorian Women's Writing** Deborah Anna Logan,1998 Logan s study is distinguished by its exclusive focus on women writers including Charlotte Bronte George Eliot Elizabeth Gaskell Harriet Martineau Elizabeth Barrett Browning Florence Nightingale Sarah Grand and Mary Prince Logan utilizes primary texts from these Victorian writers as well as contemporary critics such as Catherine Gallagher and Elaine Showalter to provide the background on social factors that contributed to the construction of fallen woman discourse      **Animals and Human Society** Aubrey Manning,James Serpell,2002-11 Modern society is beginning to re examine its whole relationship with animals and the natural world Until recently issues such as animal welfare and environmental protection were considered the domain of small idealistic minorities Now these issues attract vast numbers of articulate supporters who collectively exercise

considerable political muscle Animals both wild and domestic form the primary focus of concern in this often acrimonious debate Yet why do animals evoke such strong and contradictory emotions in people and do our western attitudes have anything in common with those of other societies and cultures Bringing together a range of contributions from distinguished experts in the field *Animals and Society* explores the importance of animals in society from social historical and cross cultural perspectives

**Funding Philanthropy** Susan Ash, 2016 Funding Philanthropy investigates Dr Barnardo's practices as the leading Victorian figure in child rescue in London particularly focusing on devices associated with story telling and public spectacle that facilitated evoking emotional responses that would lead to active support from constituents across boundaries of age class or race

*Imperialism and the natural world* John M. MacKenzie, 2017-03-01 Imperial power both formal and informal and research in the natural sciences were closely dependent in the nineteenth century This book examines a portion of the mass produced juvenile literature focusing on the cluster of ideas connected with Britain's role in the maintenance of order and the spread of civilization It discusses the political economy of Western ecological systems and the consequences of their extension to the colonial periphery particularly in forms of forest conservation Progress and consumerism were major constituents of the consensus that helped stabilise the late Victorian society but consumerism only works if it can deliver the goods From 1842 onwards almost all major episodes of coordinated popular resistance to colonial rule in India were preceded by phases of vigorous resistance to colonial forest control By the late 1840s a limited number of professional positions were available for geologists in British imperial service but imperial geology had a longer pedigree Modern imperialism or municipal imperialism offers a broader framework for understanding the origins long duration and persistent support for overseas expansion which transcended the rise and fall of cabinets or international realignments in the 1800s Although medical scientists began to discern and control the microbiological causes of tropical ills after the mid nineteenth century the claims for climatic causation did not undergo a corresponding decline Arthur Pearson's *Pearson's Magazine* was patriotic militaristic and devoted to royalty The book explores how science emerged as an important feature of the development policies of the Colonial Office CO of the colonial empire

**The Animal's Defender and Zoophilist**, 1893

*Louis Althusser*, **Women Against Slavery** Clare Midgley, 2004-08-02 The first full study of women's participation in the British anti slavery movement It explores women's distinctive contributions and shows how these were vital in shaping successive stages of the abolitionist campaign

*Reform and Its Complexities in Modern Britain* Bruce L. Kinzer, Molly Baer Kramer, Richard Trainor, 2022 The essays in this volume taken together span the era of British history from 1780 to the present that has engrossed the attention of Brian Harrison in a career of more than fifty years In keeping with his diverse interests they vary widely in subject matter Yet each contributes in some fashion to an appreciation of the complexities of reform in modern Britain Throughout his career Harrison has demonstrated an unwavering interest in social movements and pressure groups He has analysed the organisation of reform movements and their bases of support explored the aspirations

and beliefs motivating individuals to start or join such movements and examined the ideas and ideals shaping their conception of human improvement No one has done more to show that the significance of a reform movement's triumphs and disappointments can be grasped only in relation to the forces amassed to resist its claims The essays gathered here on the Harrisonian theme of reform and its complexities form an acknowledgment of the massive mark their honouree has made on the study of modern British history They are preceded by a Foreword composed by Keith Thomas and an editorial Introduction tracing the course of Harrison's scholarship and connecting that scholarship to the substance of the essays The volume encompasses both wide ranging analytical investigations and telling case studies All have new things to say on the subject of reform and its complexities in modern Britain *The Victorians Since 1901* Miles Taylor, Michael Wolff, 2004-09-04 Over a century after the death of Queen Victoria historians are busy re appraising her age and achievements However our understanding of the Victorian era is itself a part of history shaped by changing political cultural and intellectual fashions Bringing together a group of international scholars from the disciplines of history English literature art history and cultural studies this book identifies and assesses the principal influences on twentieth century attitudes towards the Victorians Developments in academia popular culture public history and the internet are covered in this important and stimulating collection and the final chapters anticipate future global trends in interpretations of the Victorian era making an essential volume for students of Victorian Studies **The Publishers Weekly**, 1970 Australasian Building Societies and Mortgage Companies Gazette, 1888 **The Truth of History** C. Behan McCullagh, 2002-11-01 Modern relativism and postmodern thought in culture and language challenge the truth of history This book considers how all historians confined by the concepts and forms of argument of their own cultures can still discover truths about the past The Truth of History presents a study of various historical explanations and interpretations and evaluates their success as accounts of the past C Behan McCullagh contests that the variety of historical interpretations and subjectivity does not exclude the possibility of their truth Through an examination of the constraints of history the author argues that although historical descriptions do not mirror the past they can correlate with it in a regular and definable way Far from debating in the abstract and philosophical only the author beds his argument in numerous illuminating concrete historical examples The Truth of History explores a new position between the two extremes of believing that history perfectly represents the past and that history can tell us nothing true of the past The Oppositional Aesthetics of Chartist Fiction Rob Breton, 2016-03-10 Redressing a gap in Chartism studies Rob Breton focuses on the fiction that emerged from the movement placing it in the context of the Victorian novel and reading it against the works aimed at the middle class Breton examines works by well known writers such as Ernest Jones and Thomas Cooper alongside those of obscure or anonymous writers rejecting the charge that Chartist fiction fails aesthetically politically and culturally Rather Breton suggests it constitutes a type of anti fiction in which the expectations of narrative are revealed as irreconcilable to the real world Taking up a range of genres

including the historical romance and social problem story Breton theorizes the emergence of the fiction against Marxist conceptualizations of cultural hegemony In situating Chartist fiction in periodical print culture and specific historical moments this book shows the ways in which it serves as a critique of mainstream Victorian fiction **Victoria: The Queen** Julia Baird, 2016-11-22 NAMED ONE OF THE BEST BOOKS OF THE YEAR BY JANET MASLIN THE NEW YORK TIMES Victoria the Queen Julia Baird's exquisitely wrought and meticulously researched biography brushes the dusty myth off this extraordinary monarch The New York Times Book Review Editor's Choice The true story for fans of the hit ITV drama series Victoria starring Jenna Coleman this page turning biography reveals the real woman behind the myth a bold glamorous unbreakable queen Drawing on previously unpublished papers this stunning book is a story of love and heartbreak of devotion and grief of strength and resilience When Victoria was born in 1819 the world was a very different place Revolution would begin to threaten many of Europe's monarchies in the coming decades In Britain a generation of royals had indulged their whims at the public's expense and republican sentiment was growing The Industrial Revolution was transforming the landscape and the British Empire was commanding ever larger parts of the globe Born into a world where women were often powerless during a century roiling with change Victoria went on to rule the most powerful country on earth with a decisive hand Fifth in line to the throne at the time of her birth Victoria was an ordinary woman thrust into an extraordinary role As a girl she defied her mother's meddling and an adviser's bullying forging an iron will of her own As a teenage queen she eagerly grasped the crown and relished the freedom it brought her At twenty years old she fell passionately in love with Prince Albert of Saxe Coburg and Gotha eventually giving birth to nine children She loved sex and delighted in power She was outspoken with her ministers overstepping boundaries and asserting her opinions After the death of her adored Albert she began a controversial intimate relationship with her servant John Brown She survived eight assassination attempts over the course of her lifetime And as science technology and democracy were dramatically reshaping the world Victoria was a symbol of steadfastness and security queen of a quarter of the world's population at the height of the British Empire's reach Drawing on sources that include revelations about Victoria's relationship with John Brown Julia Baird brings vividly to life the fascinating story of a woman who struggled with so many of the things we do today balancing work and family raising children navigating marital strife losing parents combating anxiety and self doubt finding an identity searching for meaning This sweeping page turning biography gives us the real woman behind the myth **Monsters in Society: An Interdisciplinary Perspective** Andrea S. Dauber, 2019-01-04 This volume was first published by Interdisciplinary Press in 2014 Are monsters and the monstrous phenomena that transition time and space If monsters were a part of our past and are a part of our present will they be a part of our future This volume demonstrates the universality of monsters and the ubiquitous nature of monsterisation from different perspectives and shows that the creation of monsters and our ongoing confrontation with them is bound by human sociality so much so that the monsters we have been surrounded by and will

encounter in the future bear characteristics that mirror inherently human modes of identity construction for example via age gender and visual appearance This process can differ across life stages such as childhood versus adulthood Monsters or what a society identifies as monstrous are not simply cultural artefacts communicated via literature historical accounts or modern media productions such as films or series They are integral components of the human psyche Therefore they have existed in symbiosis with the homo socius and will probably continue to do so in his future
