**Anti-Duhring** Friedrich Engels, 2015-03-23

Marx and Engels first became aware of Professor D hring with his December 1867 review of Capital published in Erg nzungsblltter They exchanged a series of letters about him from January March 1868 He was largely forgotten until the mid 1870s at which time D hring entered Germany s political foreground German Social Democrats were influenced by both his Kritische Geschichte der National konomie und des Sozialismus and Kursus der Philosophie als streng wissenschaftlicher Weltanschauung und Lebensgestaltung Among his readers were included Johann Most Friedrich Wilhelm Fritzsche Eduard Bernstein and even August Bebel for a brief period In March 1874 the Social Democratic Workers Party paper Volksstaat ran an anonymous article actually penned by Bebel favorably reviewing one of D hring s books On both February 1 and April 21 1875 Liebknecht encouraged Engels to take D hring head on in the pages of the Volksstaat In February 1876 Engels fired an opening salvo with his Volksstaat article Prussian Vodka in the German Reichstag On May 24 1876 Engels wrote Marx saying there was cause to initiate a campaign against the spread of D hring s views Marx replied the next day saying D hring himself should be sharply criticised So Engels put aside his work on what would later become known as the book Dialectics of Nature On May 28 he outlined to Marx the general strategy he planned to take against D hring It would take over two years to complete The book breaks into three distinct parts Part I Philosophy Written mainly between September 1876 and January 1877 Published as a series of articles entitled Herrn Eugen D hring s Umw lzung der Philosophie in Vorw rts between January and May 1877 Later beginning in 1878 with the first separate edition the first two chapters of this part were made into an independent general introduction to all three parts Part II Political Economy Written mainly between June and August 1877 The last chapter was actually written by Marx Published under the title Herrn Eugen D hring s Umw lzung der politischen Oekonomie in Wissenschaftliche Beilage and in the supplement to Vorw rts between July and December 1877 Part III Socialism Written mainly between August 1877 and April 1878 Published as Herrn Eugen D hring s Umw lzung des Sozialismus in the supplement to Vorw rts between May and July 1878 The Vorw rts serials elicited objections from D hring s loyal adherents during the May 27 1877 congress of the Socialist Workers Party of Germany they attempted to ban the on going publication of it in the Party paper Indeed the sporadic delays in publication were largely due to their efforts In July 1877 Part I was published as a pamphlet In July 1878 Parts II and III were combined into a second pamphlet In early July 1878 the complete work was first published as a book with an added preface by Engels In October 1878 Germany s Anti Socialist Law was instituted and Anti D hring was banned along with Engels other works In 1886 a second edition appeared in Zurich The third revised and supplemented edition was published in Stuttgart in 1894 i e after

the Anti Socialist Law was repealed 1890 This was the last edition during Engels lifetime It was translated into English for the first time in 1907 in Chicago In 1880 at Paul Lafargue s request Engels took three chapters of Anti D hring and created one would become one of the most popular socialist pamphlets in the world Socialism Utopian and Scientific Reclaiming Communist Philosophy Wilson W. S. Au,2016-12-01 This book is unique in its utilization of the natural sciences to explain and illustrate key concepts of communist philosophy In its recapitulation of the spirit of Engels s unfinished manuscript The Dialectics of Nature it relies on the physical sciences developed since Engels s time to reaffirm the validity of materialist dialectics a point which is more easily made in the context of natural phenomena than it is in social phenomena The basic philosophical tenets underlying Communist ideology are all supported by the natural sciences The book is situated within the Marxist Leninist Maoist tradition Its overarching theme is the need to reclaim our most fundamental weapon of that tradition it s methodology or philosophy which has been vitiated or even scrapped by well intentioned revolutionaries throughout the 20th century In particular some of Mao s philosophical formulations are found to be erroneous and in opposition to his practice With the rapidly accelerating deterioration of the global capitalist order in progress since 2007 the urgency of this reclamation cannot be over emphasized **Topological (in) Hegel** Borislav G. Dimitrov,2018-01-23 The aim of this book is to critically examine whether it is methodologically possible to combine mathematical rigor topology with a systematic dialectical methodology in Hegel and if so to provide as result of my interpretation the outline of Hegel s Analysis Situs also with the proposed models build on the topological manifold cobordism topological data analysis persistent homology simplicial complexes and graph theory to provide an indication of how the merger of Hegel s dialectical logic and topology may be instrumental to a systematic logician and of how a systematic dialectical logic perspective may help mathematical model builders , **Herr Eugen Dühring's Revolution in Science** Friedrich Engels,1962 **Collected Works, Volume 1** V.
