Antiquity and Its Reception Helena Trindade Lopes,Maria De Fatima Rosa,Isabel Almeida,2020-01-08 What do we talk about when we talk about antiquity For the majority of the population the term immediately transports us to the notion of an ancient age or ancient world the Parthenon Athens and the Coliseum of Rome which condenses in itself the Greco Roman world This reduces antiquity to antiquity that was structurally essential for the construction and emergence of the civilization called occidental For others because of their religious backgrounds antiquity goes back in time and enlarges in part its space of action allowing the emergence of Palestine as a primordial territory But these two visions old and supported by a scientific ignorance of the ancient geographies and chronologies enclose the history in a limited time and space As if there would never have been a world before that time As if the civilization that we comfortably call ourselves as inheritors the so called Occidental Civilization was the first step in the history of man on earth

Building Modern Antiquity Georgia Giannakopoulou,2024-11-29 This book considers post 19th century Athens as a unique instance of a secret side of metropolitan capitalism With a focus on modern antiquity as the hidden element of the dialectic between the past and the present it suggests that the sociological study of one of the great European capital cities a city not intended as a modern capital and its architectural representations may expose part of the veiled processes of the reconstruction of the past thus

shedding light on the abuse of antiquity for the celebration of European capitalist metropolitan modernity From the glorious white marble cityscape of the 19th century that aimed at re enchanting metropolitan modernity to the inglorious grey reinforced concrete 21st century metropolis modern Athens exposes the battle between the modern and a modern image of antiquity a false socially constructed historiography born of the dialectics between the ancient and the modern the new and the old collective memory and collective forgetting As such The Building of a Modern Antiquity will appeal to scholars of sociology with interests in social and critical theory urban studies sociology of architecture and visual sociology *The Human Record: To 1700* Alfred J. Andrea, James H. An Approach to the Comparative Study of History** Neagu Djuvara, 2019-06-25 And in the shadow of the major civilization before it disappeared in its turn how many other cultures have perished without a trace This immense tragedy is being lived now by many cultures with great intensity One has to belong to such a culture in course of extinction or dying slowly even before its flourishing to understand the infinite distress of those who are helplessly watching the inexorable disappearance of their most precious values With each dying culture it is a unique flower that is withering never to bloom again an incomparable fragrance that fades away forever There is in the smallest idioms there is in the Weltanschauung of the smallest tribe doomed to extinction treasures of wisdom and poetry Lost lost for all eternity In the life of peoples as in the whole Creation the most striking thing that actually shocks the mind is the infinite waste of Nature Those who at present are fortunate enough to belong to the

universal cultures may still live with the illusion of their perpetuity But for how long Indeed what is left of Ancient Egypt of Mesopotamia of Crete of Mexico and of Peru And how can we be sure that our conceited race that for centuries extends its domination over peoples and things will not also fall one day in torpor and become apathetic Neagu Djuvara *The Reconstruction of the American Union* Pindar B. Development of the Idea of History in Antiquity Gerald A. Press, 2003-09-10 An extensive scholarly literature written in the past century holds that in ancient Greek and Roman thought history is understood as circular and repetitive a consequence of their anti temporal metaphysics in contrast with Judaeo Christian thought which sees history as linear and unique a consequence of their messianic and hence radically temporal theology Gerald Press presents a more general view that the Graeco Roman and Judaeo Christian cultures were fundamentally alien and opposed cultural forces and that therefore Christianity s victory over paganism included the replacement or supersession of one intellectual world by another and then shows that contrary to this view there was substantial continuity between pagan and Christian ideas of history in antiquity rather than a striking opposition between cyclic and linear patterns He finds that the foundation of the Christian view of history as goal directed lies in the rhetorical rather than the theological motives of early Christian writers

Antiquities Maxwell Lincoln Anderson, 2017 The destruction of ancient monuments by the Taliban and the Islamic State have shocked observers worldwide Art historian Maxwell Anderson s *Antiquities What Everyone Needs to Know* R analyzes continuing threats to our heritage as well as a balanced account of treaties and laws collections past and present forgeries and other controversial issues *Antiquities* explores the legal practical and moral choices we face when confronting antiquities in a museum gallery shop window or for sale on the Internet The Idea of Rome in Late Antiquity Ioannis

Papadopoulos,2025-10-01 This book approaches the manifestation and evolution of the idea of Rome as an expression of Roman patriotism and as an urban archetype of utopia in late Roman thought in a period extending from AD 357 to 417 Within this period of about a human lifetime the concepts of Rome and Romanitas were reshaped and used for various ideological causes This monograph unfolds through a selection of sources that represent the patterns and diversity of this ideological process The theme of Rome as a personified and anthropomorphic figure and as an epitomized notion applied on the urban landscape would become part of the identity of the Romans of Rome highlighting a sense of cultural uniqueness in an era when their city s privileged status was challenged Towards the end of the chronological limits set in this thesis various versions of Romanitas would emerge indicating new physical and spiritual potentials *Empires of Antiquities* Billie Melman,2020 *Empires of Antiquities* is a history of the rediscovery of the imperial civilizations of the ancient Near East in a modern imperial order that evolved between the outbreak of the First World War and the decolonization of the British Empire in the 1950s It explores the ways in which near eastern antiquity was redefined and experienced becoming the subject of imperial regulation modes of enquiry and international and national politics Billie Melman follows a series of globally publicized spectacular archaeological discoveries in Iraq Egypt and Palestine which made antiquity material visible and accessible as never before She demonstrates that the new definition and uses of antiquity and their relations to modernity were inseparable from the emergence of the post war international imperial order transnational collaboration and crises the aspirations of national groups and collisions between them and the British mandates This study uniquely combines a history of the internationalization of archaeology and the rise of a new regime of antiquities under the oversight of the League of Nations and its institutions a history of British attitudes to and passion for near eastern antiquity and on the ground colonial policies and mechanisms as well as nationalist claims on the past It points at the centrality of the new mandate system Drawing on an unusually wide range of materials collected in archives in six countries as well as on material and visual evidence this volume weaves together imperial international and national histories and the history of archaeological discovery which it connects to imperial modernity
