The Holocaust, Israel and 'the Jew' Evelien Gans, Remco Ensel, 2025-10-01 This book is the first comprehensive study of postwar antisemitism in the Netherlands It focuses on the way stereotypes are passed on from one decade to the next as reflected in public debates the mass media protests and commemorations and everyday interactions *The Holocaust Israel and the Jew* explores the ways in which old stories and phrases relating to the stereotypical Jew are recycled and modified for new uses linking the antisemitism of the early postwar years to its enduring manifestations in today's world The Dutch case is interesting because of the apparent contrast between the Netherlands famous tradition of tolerance and the large numbers of Jews who were deported and murdered in the Second World War The book sheds light on the dark side of this so called

Dutch paradox in manifestations of aversion and guilt after 1945 In this context the abusive taunt They forgot to gas you can be seen as the first radical expression of postwar antisemitism as well as an indication of how the Holocaust came to be turned against the Jews The identification of the Jew with the gas chamber spread from the streets to football stadiums and from verbal abuse to pamphlet and protest The slogan Hamas Hamas all the Jews to the gas indicates that Israel became a second marker of postwar antisemitism The chapters cover themes including soccer related antisemitism Jewish responses philosemitism antisemitism in Dutch Moroccan and Dutch Turkish communities contentious acts of remembrance the neo Nazi tradition and the legacy of Theo van Gogh The book concludes with a lengthy epilogue on the Jew in the politics of the radical right the attacks in Paris in 2015 and the refugee crisis The stereotype of the Jew appears to be transferable to other minorities

ROOT CAUSES OF WESTERN ANTI-ISLAMIC ANTAGONISM: JUDAISM, CHRISTIANITY AND THE SECULAR ÖMER KEMAL ŞAHİN, 2022-09-01 This research seeks to examine the root causes of Western anti Islamic antagonism in the three main realms of the West i e Judaism Christianity and the secular To achieve this goal it first focuses on the Jewish and Christian scriptures and perceptions in chronological order Their respective manifestations in history are introduced encompassing the Medieval period age of Islamic conquests Middle Ages Early Modern Period and Contemporary Period Since the literature hardly conceptualises Jewish or Christian anti Islamism as such relevant knowledge was extracted from the present literature and put into a coherent narrative The findings indicate that Jewish and Christian scriptures particularly the passages about Abraham Sarah Hagar Isaac and Ishmael and contents concerning eschatology make anti Islamic interpretations possible Jewish anti Islamic antagonism is observed to primarily stem from the ethno centric self perception and eschatological agenda of Judaism whereas Christian anti Islamic antagonism from the ontological instability and eschatological scenarios of Christianity In the subsequent chapter the research examines the secular antagonism towards

Islam and Muslims The secular is approached in a theoretical framework of three levels that are paradigm people and society According to findings secular anti Islamism appears to originate from the ideals of the secular to imagine a people society and world order free of religion The final chapter consists of evaluation of the findings and concrete suggestions to tackle the problem of Western anti Islamism Root Causes of Anti Islamic Antagonism argues for a deep rooted approach to anti Islamism studies and suggests that it is a scholarly necessity to focus on these three main realms in the West to understand the anti Islamic phenomena properly

Prologue to Annihilation Stephen H. Norwood, 2021-08-03 American and British appeasement of Nazism during the early years of the Third Reich went far beyond territorial concessions In Prologue to Annihilation Ordinary American and British Jews Challenge the Third Reich Stephen H Norwood examines the numerous ways that the two nations official position of tacit acceptance of Jewish persecution enabled the policies that ultimately led to the Final Solution and how Nazi annihilationist intentions were clearly discernible even during the earliest years of Hitler's rule Further Norwood looks at the nature and impact of American and British Jewish resistance to Nazi persecution and the efforts of Jews at the grassroots level to press Jewish organizations to respond more forcefully to the Nazi menace He examines the worldwide protest and boycott movements against Germany and German goods as well as mass demonstrations by working class and lower middle class Jews in many American and British cities Prologue to Annihilation details how the events of 1930 1936 tested American and British societies willingness to accept Nazism and its anti Jewish philosophy and illuminates the divisions that existed even within the Jewish community about how best to challenge Nazi antisemitic policies and atrocities

Overcoming Zionism Joel Kovel, 2007-02-20 Israel is an incorrigible human rights offender because by discriminating against Arabs it is guilty of state sponsored racism argues Joel Kovel Like apartheid South Africa the best hope for peace in Israel is to return to the idea of a one state solution where Jews and Palestinians can co exist in a secular democracy Kovel is well known writer on the Middle East conflict This book draws on his detailed knowledge to show that Zionism and democracy are essentially incompatible He offers a thoughtful account of the emotional and psychological aspects of Zionism that helps us understand the relationship between ideology culture and political processes Ultimately

Kovel argues a two state solution is essentially hopeless as it concedes too much to the regressive forces of nationalism wherein lie the roots of continued conflict Intimate Strangers Fredric Richard Brandfon, 2023-05 2024 Catholic Media Association Book Award Winner in History The Jewish community of Rome is the oldest Jewish community in Europe It is also the Jewish community with the longest continuous history having avoided interruptions expulsions and annihilations since 139 BCE For most of that time Jewish Romans have lived in close contact with the largest continuously functioning international organization the Roman Catholic Church Given the church s origins in Judaism Jews and Catholics have spent two thousand years negotiating a necessary and paradoxical relationship With engaging stories that illuminate the history of Jews and Jewish Catholic relations in Rome Intimate Strangers investigates the unusual relationship between Jews and Catholics as it has developed from the first century CE to the present in the Eternal City Fredric Brandfon innovatively frames these relations through an anthropological lens how the idea and language of family have shaped the self understanding of both Roman Jews and Catholics The familial relations are lopsided the powerful family member often persecuting the weaker one the church ghettoized the Jews of Rome longer than any other community in Europe Yet respect and support are also part of the family dynamic for instance church members and institutions protected Rome s Jews during the Nazi occupation and so the relationship continues Brandfon begins by examining the Arch of Titus and the Jewish catacombs as touchstones painting a picture of a Jewish community remaining Jewish over centuries Papal processions and the humiliating races at Carnival time exemplify Jewish interactions with the predominant Catholic powers in medieval and Renaissance Rome The Roman Ghetto the forcible conversion of Jews emancipation from the Ghetto in light of Italian nationalism the horrors of fascism and the Nazi occupation in Rome the Second Vatican Council proclamation absolving Jews of murdering Christ and the celebration of Israel s birth at the Arch of Titus are interwoven with Jewish stories of daily life through the centuries Intimate Strangers takes us on a compelling sweep of two thousand years of history through the present successes and dilemmas of Roman Jews in postwar Europe **The Modern Vampire and Human Identity**

Roots and Routes Rachel Reedijk, 2010-01-01 Dialogue participants demonstrate strong motivations for contributing to interreligious dialogue based on a firm belief that encountering the other generates understanding the contact thesis Interreligious dialogue meets with both suspicion and cynicism the former because it may result in loss of identity and the latter because important issues may be ignored The hitherto unanswered question is how Jewish Christian Muslim dialogue affects the identities of its participants In this study Rachel Reedijk analyses identity construction in an interreligious context against the backdrop of the dominant either/or discourse regarding religious diversity and for that matter multiculturalism in

Western society The conceptual framework of this study is constituted by the debate on essentialism and constructivism in the social sciences She argues that under the right circumstances interreligious dialogue can move beyond polemics and apologetics and prepare the ground for understanding in the dual sense of prejudice reduction and interreligious hermeneutics **Seeing Mahler: Music and the Language of Antisemitism in Fin-de-Siècle Vienna** K.M.

Knittel,2016-04-01 No one doubts that Gustav Mahler's tenure at the Vienna Court Opera from 1897-1907 was made extremely unpleasant by the antisemitic press The great biographer Henry Louis de La Grange acknowledges that it must be said that antisemitism was a permanent feature of Viennese life Unfortunately the focus on blatant references to Jewishness has obscured the extent to which ordinary attitudes about Jewish difference were prevalent and pervasive yet subtle and covert The context has been lost wherein such coded references to Jewishness would have been immediately recognized and understood By painstakingly reconstructing the language of antisemitism Knittel recreates what Mahler's audiences expected saw and heard given the biases and beliefs of turn of the century Vienna Using newspaper reviews cartoons and memoirs Knittel eschews focusing on hostile discussions and overt attacks in themselves rather revealing how and to what extent authors call attention to Mahler's Jewishness with more subtle language She specifically examines the reviews of Mahler's Viennese symphonic premieres for their resonance with that language as codified by Richard Wagner though not invented by him An entire chapter is also devoted to the Viennese premieres of Richard Strauss's tone poems as a proof text against which the reviews of Mahler can also be read and understood Accepting how deeply embedded this way of thinking was not just for critics but for the general population certainly does not imply that one can find antisemitism under every stone What Knittel suggests ultimately is that much of early criticism was unease rather than objective reactions to Mahler's music a new perspective that allows for a re-evaluation of what makes his music unique thought provoking and valuable Re-imagining the Teaching of European History Cosme Jesús Gómez Carrasco,2022-12-20 This book explores the challenges of teaching European history in the 21st century and provides research informed approaches to history teaching that combine civic education historical consciousness and the teaching of controversial social issues With contributions from researchers across Europe the book includes both theoretical and case study chapters The first part of the book addresses issues such as globalization and teaching in an interconnected world using multicultural and critical approaches decolonizing education and teaching uncomfortable narratives of the past The second part of the book showcases thematic chapters dedicated to teaching intersecting topics in the European curriculum such as violence and armed conflict social inequality gender equality the technological revolution and religion Ultimately this volume promotes criticality civic engagement and reflection on social issues thereby prompting methodological change in the teaching of history as we know it It will appeal to researchers and students of history education democratic education and citizenship education as well as teacher educators and trainee teachers in history The Open Access version of this book available at www.taylorfrancis.com has been made available under a

In identity based conflicts what a person learns can become whom a person learns to hate. This book explores the unique position occupied by educators during protracted ethnic conflict. As transmitters of social authority, educators occupy a position in society capable of supporting repressive constructs or challenging social inequalities. Educators who are seen to legitimize the social order may be seen as symbolic markers of the dominant group, while educators who challenge the social order can be perceived as upstarts or threats that seek to subvert social authority. By surveying the perceptions, perspectives, experiences, and opinions of Israeli tertiary teachers, this book explores the positionality of educators as agents who wield both an instrument for oppression and a tool for liberation.

Alzaroo and Hunt 2003: 165. Peace education is a platform to achieve a global culture of peace by recognizing and delegitimizing violence. Using future visioning, this book considers that a primary obstruction to achieving peace is the inability to conceive of peace and asks three questions: do university educators challenge conflict narratives in the classroom? What obstacles exist to prevent educating for peace in Israel? How do educators imagine the future?
