Antislavery Origins Of The Civil War:

Antislavery Origins of the Civil War in the United States Dwight Lowell Dumond, 1959 Eight lectures given at the University of London on the Commonwealth Foundation 1938-39 [The Antislavery Origins of the Fourteenth Amendment](#) Jacobus tenBroek, 2023-11-15 This title explores the constitutional foundations and antislavery principles that influenced the Fourteenth Amendment to the United States Constitution The book traces the legal political and philosophical roots of this critical amendment which ensures citizenship due process and equal protection to all persons born or naturalized in the U S This study delves into the motivations behind the Fourteenth Amendment examining historical debates particularly within the abolitionist movement which pioneered concepts like equal protection and due process These principles gained widespread support through political advocacy public discourse and minor and major political parties before the Civil War The work argues that abolitionist ideas significantly shaped the constitutional language and theories embedded in the amendment It further situates the Fourteenth Amendment within a broader framework that includes the Thirteenth Amendment's abolition of slavery and the subsequent Fifteenth Amendment which aimed to secure voting rights for Black men The book highlights three major questions about the Fourteenth Amendment's interpretation whether its clauses privileges equal protection and due process should be understood as procedural or substantive whether it was meant to extend the Bill of Rights to states and the scope of Congress's enforcement powers By linking these to antislavery doctrine the study sheds light on how the amendment was intended not merely as a procedural safeguard but as an affirmation of universal rights moving toward a more inclusive federalism in the U S This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1951 *Antislavery Origins of the Civil War in the United States ... Commonwealth Foundation Lectures, University College, London, Second Term, 1938-39* Dwight Lowell DUMOND, 1939

Antislavery Origins of the Civil War in the United States Dwight Lowell Dumond (historien.), 1969 [Antislavery Origins of the Civil War in the United States. Foreword by Arthur Schlesinger, Jr](#) Dwight Lowell Dumond, [A Companion to the U.S. Civil War, 2 Volume Set](#) Aaron Sheehan-Dean, 2020-05-05 A Companion to the U S Civil War presents a comprehensive historiographical collection of essays covering all major military political social and economic aspects of the American Civil War 1861-1865 Represents the most comprehensive coverage available relating to all aspects of the U S Civil War Features contributions from dozens of experts in Civil War scholarship Covers major campaigns and battles and military and political figures as well as non military aspects of the conflict such as gender emancipation literature ethnicity slavery and memory **Antislavery Origins of the Civil War in the United Nations** Dwight Lowell Dumont, Arthur M. Schlesinger, 1966 **The Abolitionists and the South, 1831-1861** Stanley Harrold, 2021-11-21 Within the American

antislavery movement abolitionists were distinct from others in the movement in advocating on the basis of moral principle the immediate emancipation of slaves and equal rights for black people Instead of focusing on the immediatists as products of northern culture as many previous historians have done Stanley Harrold examines their involvement with antislavery action in the South particularly in the region that bordered the free states How he asks did antislavery action in the South help shape abolitionist beliefs and policies in the period leading up to the Civil War Harrold explores the interaction of northern abolitionist southern white emancipators and southern black liberators in fostering a continuing antislavery focus on the South and integrates southern antislavery action into an understanding of abolitionist reform culture He discusses the impact of abolitionist missionaries who preached an antislavery gospel to the enslaved as well as to the free Harrold also offers an assessment of the impact of such activities on the coming of the Civil War and Reconstruction The Maleness of Jesus Neil H. Williams,2011-01-01 At the center of Christianity is Jesus of Nazareth whose maleness is used by many to justify the subordination of women and to emphasize that men rather than women better represent Jesus This raises a number of questions that are the subject of this book What is the significance of Jesus maleness Does it reveal the character of God Is it foundational for the gospel Is Jesus maleness associated with an ongoing created order of male priority Our answers will affect Christianity s task of love justice and reconciliation in a world that is characterized by the global marginalization oppression and abuse of women **Proslavery** Larry E. Tise,1990-10-01 Probing at the very core of the American political consciousness from the colonial period through the early republic this thorough and unprecedented study by Larry E Tise suggests that American proslavery thought far from being an invention of the slave holding South had its origins in the crucible of conservative New England Proslavery rhetoric Tise shows came late to the South where the heritage of Jefferson s ideals was strongest and where as late as the 1830s most slaveowners would have agreed that slavery was an evil to be removed as soon as possible When the rhetoric did come it was often in the portmanteau of ministers who moved south from New England and it arrived as part of a full blown ideology When the South finally did embrace proslavery the region was placed not at the periphery of American thought but in its mainstream Why America Needs a Left Eli Zaretsky,2012-03-12 The United States today cries out for a robust self respecting intellectually sophisticated left yet the very idea of a left appears to have been discredited In this brilliant new book Eli Zaretsky rethinks the idea by examining three key moments in American history the Civil War the New Deal and the range of New Left movements in the 1960s and after including the civil rights movement the women s movement and gay liberation In each period he argues the active involvement of the left especially its critical interaction with mainstream liberalism proved indispensable American liberalism as represented by the Democratic Party is necessarily spineless and ineffective without a left Correspondingly without a strong liberal center the left becomes sectarian authoritarian and worse Written in an accessible way for the general reader and the undergraduate student this book provides a fresh perspective on American politics and political history It has often

been said that the idea of a left originated in the French Revolution and is distinctively European Zaretsky argues by contrast that America has always had a vibrant and powerful left And he shows that in those critical moments when the country returns to itself it is on its left liberal bases that it comes to feel most at home

Beyond Freedom David W. Blight, Jim Downs, 2017-11 This collection of eleven original essays interrogates the concept of freedom and recenters our understanding of the process of emancipation Who defined freedom and what did freedom mean to nineteenth century African Americans both during and after slavery Did freedom just mean the absence of constraint and a widening of personal choice or did it extend to the ballot box to education to equality of opportunity In examining such questions rather than defining every aspect of postemancipation life as a new form of freedom these essays develop the work of scholars who are looking at how belonging to an empowered government or community defines the outcome of emancipation Some essays in this collection disrupt the traditional story and time frame of emancipation Others offer trenchant renderings of emancipation with new interpretations of the language and politics of democracy Still others sidestep academic conventions to speak personally about the politics of emancipation historiography reconsidering how historians have used source material for understanding subjects such as violence and the suffering of refugee women and children Together the essays show that the question of freedom its contested meanings its social relations and its beneficiaries remains central to understanding the complex historical process known as emancipation Contributors Justin Behrend Gregory P Downs Jim Downs Carole Emberton Eric Foner Thavolia Glymph Chandra Manning Kate Masur Richard Newman James Oakes Susan O Donovan Hannah Rosen Brenda E Stevenson

The Origins of the Republican Party, 1852-1856 William E. Gienapp Professor of History Harvard University, 1987-06-04 The 1850s saw in America the breakdown of the Jacksonian party system in the North and the emergence of a new sectional party the Republicans that succeeded the Whigs in the nation s two party system This monumental work uses demographic voting and other statistical analysis as well as the more traditional methods and sources of political history to trace the realignment of American politics in the 1850s and the birth of the Republican party Gienapp powerfully demonstrates that the organization of the Republican party was a difficult complex and lengthy process and explains why even after an inauspicious beginning it ultimately became a potent political force The study also reveals the crucial role of ethnocultural factors in the collapse of the second party system and thoroughly analyzes the struggle between nativism and antislavery for political dominance in the North The volume concludes with the decisive triumph of the Republican party over the rival American party in the 1856 presidential election Far reaching in scope yet detailed in analysis this is the definitive work on the formation of the Republican party in antebellum America

'Men and Women of Their Own Kind' Glenn M. Harden, 2003-09 This thesis traces the historiography of antebellum reform from its origins in Gilbert Barnes s rebellion from the materialist reductionism of the Progressives to the end of the twentieth century The focus is the ideas of the historians at the center of the historiography not a summary of every work in the field The works of Gilbert

Barnes Alice Felt Tyler Whitney Cross C S Griffin Donald Mathews Paul Johnson Ronald Walters George Thomas Robert Abzug Steven Mintz and John Quist among many others are discussed In particular the thesis examines the social control interpretation and its transformation into social organization under more sympathetic historians in the 1970s The author found the state of the historiography at century s end to be healthy with a promising future *Journal of a Residence on a Georgian Plantation in 1838-1839* Fanny Kemble,1984 Originally published in 1863 out of print and unavailable for almost a century Frances Anne Kemble s Journal has long been recognized by historians as unique in the literature of American slavery and invaluable for obtaining a clear view of the peculiar institution and of life in the antebellum South Fanny Kemble was one of the leading lights of the English stage in the nineteenth century During a tour of America in the 1830s she met and married a wealthy Philadelphian Pierce Butler part of whose fortune derived from his family s vast cotton and rice plantation on the Sea Islands of Georgia After their marriage she spent several months living on the plantation Profoundly shocked by what she saw she recorded her observations of plantation life in a series of journal entries written as letters to a friend But she never sent the letters and not until the Civil War was on and Fanny was divorced from Pierce Butler and living in England were they published This Brown Thrasher edition incorporates the valuable introduction written by John A Scott for the 1961 edition published by Alfred A Knopf together with the editor s appendices to that edition It provides the modern reader with the historical and biographical background to move freely and with ease in Mrs Kemble s world **Georgia and State Rights** Ulrich Bonnell Phillips,1984 **A Multi-Paradigmatic Approach to Understanding History** Kavous Ardalan,2022-12-08 This book explores the field of history through a multi paradigmatic approach For this purpose it begins with a discussion of four most diverse worldviews or paradigms namely functionalist interpretive radical humanist and radical structuralist before moving on to consider four aspects of the field of history historiography grand narrative progress and time from the viewpoints of the four most diverse worldviews or paradigms Next the book looks at three historical events the French Revolution the American Civil War and the Iranian Revolution from the viewpoints of the four most diverse worldviews or paradigms It concludes by recommending paradigm diversity as an understanding of different paradigms leads to a more comprehensive and a more balanced understanding of the multi faceted nature of the subject matter

Revivalism and Social Reform Timothy L. Smith,2004-11-09 This is an important work which should be read by anyone who is trying to understand nineteenth century America It will be of especial interest to students of church history intellectual history and social reform Henry Lee Swint Mississippi Valley Historical Review This is a brilliant study full of stimulating suggestions rich bibliographical leads and well chosen quotations A chief feature of the work which won the Brewer prize for 1955 is its apt and extensive documentation The author has industriously ranged through mountains of books periodicals and fugitive materials and competently supported his well written narrative with illuminating footnotes which happily and helpfully appear where they belong at the foot of each and almost every page Hence his judgments are

backed by impressive scholarship Robert T Handy Church History So many historians have tracked the trail of the American revivalists that it is difficult for anyone to discover something new about that trail Timothy Smith claimed to discover that they were more oriented towards social reform than their critics saw them to be He backed up with solid documentation his claim that they were in their own way fathers of the Social Gospel His book represented one of those rare moments in the study of American church history the development of an original thesis one worthy of the argument which it has during the past decade inspired and survived Martin E Marty

Interpretations of American History Vol. I Francis G. Couvares, 2000-07 Contrary to conventional wisdom no area of study is outdated more quickly than history and no time has been more turbulent for the discipline than our own This classic point counterpoint reader in American history now in a completely revised and updated seventh edition takes note of history's impermanence giving voice to the new without disposing of the old In ten lively chapters essays by the editors introduce dialectical readings by distinguished historians on topics from Reconstruction to the present The essays and readings address history's timeless questions Reconstruction Change or Stasis American Imperialism Economic Expansion or Ideological Crusade and The Civil Rights Movement Top Down or Bottom Up New readings are included on African Americans women and immigrants In the fray of debate eminent historians from Samuel Hays and Alfred Chandler to John Lewis Gaddis Walter LaFeber and Kathryn Kish Sklar struggle to interpret the past The editors essays moderate

Theodore Dwight Weld and the American Anti-Slavery Society Owen W. Muelder, 2011-10-14 In the 1830s the abolitionist movement gained remarkable momentum due in large measure to the establishment of the American Anti Slavery Society and the work carried out by one of its most important leaders Theodore Dwight Weld One of Weld's most significant accomplishments was the recruitment of a group of key abolitionist agents known as the Seventy who worked to expand the reach of abolitionist thought and action and enlisted new members into the movement This volume chronicles the founding development and mission of the American Anti Slavery Society the contributions of Weld and the crusading efforts of the agents he assembled With the most complete list to date of the identities of the Seventy this work constitutes a valuable contribution to the history of the abolitionist movement
