and culture during the early twentieth century and their writing was transformed by the encounter This study restores the thick history of that moment by analyzing networks of dissemination and reception to recover the role of neglected as well as canonical figures and institutions as well as individuals The dominant account of British modernism privileges a Francophile genealogy but the turn of the century debate about the future of British writing was a triangular debate a debate not only between French and English models but between French English and Russian models Francophile modernists associated Russian literature especially the Tolstoyan novel with an uncritical immersion in life at the expense of a mastery of style and while individual works might be admired Russian literature as a whole was represented as a dangerous model for British writing This supposed danger was closely bound up with the politics of the period and this book investigates how Russian culture was deployed in the close relationships between writers editors and politicians who made up the early twentieth century intellectual class the British intelligentsia Russomania argues that the most significant impact of Russian culture is not to be found in stylistic borrowings between canonical authors but in the shaping of the major intellectual questions of the period the relation between language and action writer and audience and the work of art and lived experience The resulting account brings an occluded genealogy of early modernism to the fore with a different arrangement of protagonists different critical values and stronger lines of connection to the realist experiments of the Victorian past and the anti formalism and revived romanticism of the 1930s and 1940s future

While presented with options to save the estate the family essentially does nothing and the play ends with the estate being sold to the son of a former serf and the family leaving to the sound of the cherry orchard being cut down The story presents themes of cultural futility both the futility of the aristocracy to maintain its status and the futility of the bourgeoisie to find meaning in its newfound materialism In reflecting the socio economic forces at work in Russia at the turn of the 20th century including the rise of the middle class after the abolition of serfdom in the mid 19th century and the sinking of the aristocracy the play reflects forces at work around the globe in that period Since the first production at the Moscow Art Theatre this play has been translated and adapted into many languages and produced around the world *Uncle Vanya* Anton

Chekhov, 2020-03-31 *Uncle Vanya* by Anton Chekhov *Uncle Vanya* is a play by the Russian playwright Anton Chekhov It was first published in 1898 and received its Moscow premi re in 1899 in a production by the Moscow Art Theatre under the direction of Konstantin Stanislavski The play portrays the visit of an elderly professor and his glamorous much younger second wife Yelena to the rural estate that supports their urban lifestyle Two friends Vanya brother of the professor s late first wife who has long managed the estate and Astrov the local doctor both fall under Yelena s spell while bemoaning the ennui of their provincial existence Sonya the professor s daughter by his first wife who has worked with Vanya to keep the estate going suffers from her unrequited feelings for Dr Astrov *Uncle Vanya* is unique among Chekhov s major plays because it is essentially an extensive reworking of his own play published a decade earlier *The Wood Demon* By elucidating the specific changes Chekhov made during the revision process these include reducing the cast list from almost two dozen down to nine changing the climactic suicide of *The Wood Demon* into the famous failed homicide of *Uncle Vanya* and altering the original happy ending into a more problematic less final resolution critics such as Donald Rayfield Richard Gilman and Eric Bentley have sought to chart the development of Chekhov s dramaturgical method through the 1890s Rayfield cites recent scholarship suggesting Chekhov revised *The Wood Demon* during his trip to the island of Sakhalin a prison colony in Eastern Russia in 1891 Aleksandr Vladimirovich Serebryakov a retired university professor who has lived for years in the city on the earnings of his late first wife s rural estate managed for him by Vanya and Sonya Helena Andreyevna Serebryakova Yelena Professor Serebryakov s young and beautiful second wife She is 27 years old Sofia Alexandrovna Serebryakova Sonya Professor Serebryakov s daughter from his first marriage She is of a marriageable age but is considered plain Maria Vasilyevna Voynitskya the widow of a privy councilor and mother of Vanya and of Vanya s late sister the Professor s first wife Ivan Petrovich Voynitsky *Uncle Vanya* Maria s son and Sonya s uncle the title character of the play He is 47 years old Mikhail Lvovich Astrov a middle aged country doctor Ilya Ilych Telegin nicknamed Waffles for his pockmarked skin an impoverished landowner who now lives on the estate as a dependent of the family Marina Timofeevna an old nurse A Workman
