**A History of Franco-German Relations in Europe** C. Germond,H. Türk,2008-11-10 This book surveys Franco German relations from the French Revolution to the 1990s collecting the most current research from area specialists **The Franco-German Axis in European Integration** Gisela Hendriks,Annette Morgan,2001-01-01 The book provides an excellent understanding of the unity and dissonance within the Franco German relationship Aslib Book Guide In the latter part of a turbulent century for Europe France and Germany have been at the forefront of the developments that have shaped both Western and Eastern Europe Having initiated and controlled economic and monetary union the greater goal is now that of further European integration and the Franco German dynamic is likely to be crucial again in the success or failure of achieving this The Franco German Axis in European Integration examines the effectiveness and durability of the Franco German relationship in European integration tracing this important partnership through many political and economic disparities This study goes on to assess the role of these two states in the challenges now facing the Union from EMU to the process of stabilising its eastern borders and from enlargement of the Union to the struggle to agree on a common foreign security policy *British Power and International Relations during the 1950s* Michael J. Turner,2009-10-08 This book examines BritainOs role and influence in a pivotal decade The postwar international order was still taking shape in the 1950s Much was unsettled and in these circumstances Britain could realistically expect to remain and be treated as one of the Big Three world powers along with the United States and Soviet Union Some adjustments were required in British priorities and methods in view of changing pressures and needs at home and abroad but the continuing desire was to make BritainOs position tenable in those parts of the world that were of special importance to British prestige power strategy prosperity and security This book elucidates the motives behind key decisions discusses their far reaching consequences explains why some options were taken and others rejected and places British policy making in the appropriate international context Designed primarily for undergraduate and beginning postgraduate students the book offers an up to date single volume treatment of major themes in British and international history historiographical synthesis and comment detailed narrative accessible easy to follow analysis and a clear evidence based point of view concerning the survival of British power in challenging times

The New Security Concept and German-French Approaches to the European "Pillar of Defence," 1990-2000 Siret Hürsoy,2002 A historic opportunity without precedent is gradually becoming reality in the 21st Century with the chance taken to pave the way in the period 1990 2000 towards the organisation of defence in Europe The corresponding conditions have been brought about by concrete steps taken at the Masstricht Amsterdam Cologne Helsinki and Nice European Council meetings In the end the EU WEU is developing into an equal partner to the US by assuming greater responsibility in the security and defence sphere The French and German bilateral relationship which is the driving force behind every European integration process is the historical force behind this development of the ultimate desire to reach a robust European Pillar of

Defence through reconfiguration of the transatlantic relationship This book provides the first comprehensive and up to date analysis of German and French approaches to the European Pillar of Defence from the view of Europeanisation emanating from the process of integration     **The Oxford Handbook of the European Union** Erik Jones, Anand Menon, Stephen Weatherill, 2012-08-30 The Oxford Handbook of the European Union brings together numerous acknowledged specialists in their field to provide a comprehensive and clear assessment of the nature evolution workings and impact of European integration     Autonomy Or Power? Stephen Kocs, 1995-08-15 France and Germany were among the major powers that abruptly lost that status as a consequence of World War II In the 1950s and 1960s the governments of both nations sought ways to recover their great power standing Each saw the cooperation of the other as crucial for its own foreign policy aspirations and tried repeatedly to engage the other in commitments that would underwrite its own ambitions But neither succeeded In the 1970s France and Germany began to reconcile themselves to the permanent loss of their great power status The process of accepting a diminished international role has been underway for more than two decades and in Kocs s judgment is very likely to continue in the future Far from opening the door to a stronger world military role for Western Europe the end of the Cold War is likely to serve merely to consolidate the existing situation     **The Strategic Triangle** Helga Haftendorn, 2006 The Strategic Triangle is based on a conference held in Potsdam Germany and a workshop at the Woodrow Wilson Center     **The European Economy in an American Mirror** Barry Eichengreen, Dieter Stiefel, Michael Landesmann, 2007-10-04 Europe s economy is under strain due to lagging productivity growth population ageing the difficulties of adjustment in an enlarged European Union and the challenges of globalization In comparison with America rates of growth of GDP per capita and labour productivity growth are anaemic raising questions about the viability of a distinct Europ     *The Cambridge History of the European Union: Volume 2, European Integration Inside-Out* Mathieu Segers, Steven Van Hecke, 2023-11-09 Volume II examines the history of the European Union from an inside out perspective focusing on the internal developments that shaped the European integration process Split into three parts Part I covers the principles that have defined European integration exploring the treaties and their changes through time with Brexit being a core milestone Part II considers the different instruments within the architecture of European integration with special focus on the development of policies the euro and enlargement Part III concentrates on the various narratives surrounding European integration in particular the concepts goals and ideas that both spoke and failed to speak to the hearts and minds of Europeans This includes the *longue dur e* concept peace European culture the absence of religion prosperity and a lack of solidarity and democracy     **Redefining European Security** Carl C. Hodge, 2002-09-11 First published in 1999 Routledge is an imprint of Taylor Francis an informa company     Personal Diplomacy in the EU Roland Vogt, 2016-10-04 At a time when the economic troubles and bailouts of Greece and other European economies are casting significant doubt on the future viability of the Eurozone and the EU it is crucial to examine the origins of the political will and leadership that is necessary to

move the integration process forward This book makes a significant conceptual and empirical contribution by elucidating the extent to which the integration process hinges not on institutions and norms but on the relations among leaders Vogt conducts a comparative diplomatic history of three critical junctures in the process of European integration the creation of the Common Market 1955 1957 British accession 1969 1973 and the introduction of the Euro 1989 1993 He illustrates how personal diplomacy leadership constellations and the dynamics among leaders enable breakthroughs or inhibit accords He also reveals how the EU s system of top level decision making that privileges institutionalised summitry has operated in the past and suggests in a separate chapter why it has come to atrophy and prove more dysfunctional of late

### **Europeans Are Lovin' It? Coca-Cola, McDonald's and Responses to American Global Businesses in Italy and France, 1886-2015**

Giulia Crisanti, 2023-09-25 From the French origin of Coca Cola to McDonald s sponsorship of the 2015 Milan Expo the book presents the first comparative history of these multinational corporations in two Western European countries addressing some compelling questions to what extent our increasingly globalized world is persistently shaped by forms of American hegemony and what are some of the forces that have been most effective at challenging the relationship between Americanization and globalization Through the local history of global companies the book tells a new story about not only the influence of American businesses in Europe but also the influence of European governments and societies on those American businesses and their adaptability

The Search for Peace in Vietnam, 1964-1968 Lloyd C. Gardner, Ted Gittinger, 2004 The Vietnam War was remarkable for the number of unsuccessful initiatives to end it through negotiation and the active involvement of noncombatant nations seeking peace The analyses and conclusions gathered in this volume focus on both the domestic and the international sources of such efforts as well as the relationship of these attempts to the larger Cold War of which the Vietnam conflict was but a part

### **Grand Designs and Visions of Unity**

Jeffrey Glen Giauque, 2003-04-03 In the late 1950s against the unfolding backdrop of the Cold War American and European leaders began working to reshape Western Europe They sought to adapt the region to a changing world in which European empires were rapidly disintegrating Soviet influence was spreading and the United States could no longer shoulder the entire political and economic burden of the West yet hesitated to share it with Europe Focusing on the four largest Atlantic powers Britain France Germany and the United States Jeffrey Giauque explores these early stages of European integration Giauque uses evidence from newly opened international archives to show how a mix of cooperation and collaboration shaped efforts to unify postwar Europe He examines the grand designs each country developed to advance its own interests specific plans for collaboration or accord and the reactions of the other Atlantic powers to these proposals Competing national interests not only derailed many otherwise sound plans for European unity Giauque says but also influenced such nascent European institutions as the Common Market the antecedent of today s European Union Indeed beyond examining the origins of the European community this comparative study provides

insight into national attitudes and aspirations that continue to shape European and American policies today      **Regional Peacemaking and Conflict Management** Carmela Lutmar, Benjamin Miller, 2015-11-06 This volume examines mechanisms for regional peacemaking and conflict management in Europe and the Middle East To date little research has been devoted to uncovering the conditions for peace and the factors that contribute to stabilizing the state of peace This volume assesses the factors that contribute to regional pacification the incentives that motivate states in establishing peaceful relations and most importantly how regions become peaceful It discusses the conditions under which various types of peace might emerge on a regional level and the factors most likely to determine the outcome The book takes an innovative approach through a systematic comparison of two regions that are particularly prominent and important for the subject of regional pacification Europe and the Middle East While many believe that the European case is the indispensable model for peacemaking others believe that these two regions are too different for Europe to be a useful framework for the Middle East This volume occupies a middle ground between these two extreme positions It argues that while a mindless copying of European models will not lead to peace in the Middle East important insights can be gained from the most successful case of regional peacemaking to date This work will be of much interest to students of regional security peacemaking conflict management Middle East politics European security and IR in general      The Light-Green Society Michael Bess, 2003-11-15 The accelerating interpenetration of nature and culture is the hallmark of the new light green social order that has emerged in postwar France argues Michael Bess in this penetrating new history On one hand a preoccupation with natural qualities and equilibrium has increasingly infused France's economic and cultural life On the other human activities have laid an ever more potent and pervasive touch on the environment whether through the intrusion of agriculture industry and urban growth or through the much subtler and more well intentioned efforts of ecological management The Light Green Society limns sharply these trends over the last fifty years The rise of environmentalism in the 1960s stemmed from a fervent desire to save wild nature nature conceived as a qualitatively distinct domain wholly separate from human designs and endeavors And yet Bess shows after forty years of environmentalist agitation much of it remarkably successful in achieving its aims the old conception of nature as a separate sphere has become largely untenable In the light green society where ecology and technological modernity continually flow together a new hybrid vision of intermingled nature culture has increasingly taken its place      *Peacemaking from Above, Peace from Below* Norrin M. Ripsman, 2016-05-05 In *Peacemaking from Above Peace from Below* Norrin M Ripsman explains how regional rivals make peace and how outside actors can encourage regional peacemaking Through a qualitative empirical analysis of all the regional rivalries that terminated in peace treaties in the twentieth century including detailed case studies of the Franco German Egyptian Israeli and Israeli Jordanian peace settlements Ripsman concludes that efforts to encourage peacemaking that focus on changing the attitudes of the rival societies or democratizing the rival polities to enable societal input into security policy are unlikely to achieve peace Prior to a peace treaty he finds

peacemaking is driven by states often against intense societal opposition for geostrategic reasons or to preserve domestic power After a formal treaty has been concluded the stability of peace depends on societal buy in through mechanisms such as bilateral economic interdependence democratization of former rivals cooperative regional institutions and transfers of population or territory Society is largely irrelevant to the first stage but is critical to the second He draws from this analysis a lesson for contemporary policy Western governments and international organizations have invested heavily in efforts to promote Israeli Palestinian and Indo Pakistani peace by promoting democratic values economic exchanges and cultural contacts between the opponents Such attempts to foster peace are likely to waste resources until such time as formal peace treaties are concluded between longtime adversaries
