Prefects and Governors in Nineteenth-century Europe Pierre Karila-Cohen, 2022-11-14 This edited collection presents a pan European history of intermediary government and administration in nineteenth century Europe Taking a closer look at senior government officials who represented the sovereign or state far away from the capital the book highlights the intermediary nature of their roles which fell somewhere between the municipality and central bureaucracy Against the backdrop of revolution and upheaval brought about by the Enlightenment and the First World War the nineteenth century was a crucial period for reform and political change Taking a transnational approach the contributors examine the similarities between the challenges that faced government officials in different European states focusing on their common role as mediators firstly between the centre and the peripheries and secondly between the population and hierarchies of power The status and prerogative of these officials are discussed providing insights into the lives of French *Pr fets* Prussian *Oberpr sidenten* Austrian *Statthalter* Italian *Prefetti* dutch *Commissarissen des Konings* and governors in Russia and Spain The special case of the United Kingdom where there were neither prefects nor governors serves as a mirror Dismantling the barriers between different national histories this book represents a comprehensive and comparative investigation into the roles of nineteenth century provincial administrators in Europe an important read for anyone researching European political history or the history of the state

Structuring the State Daniel Ziblatt, 2008-01-21 Germany s and Italy s belated national unifications continue to loom large in contemporary debates Often regarded as Europe s paradigmatic instances of failed modernization the two countries form the basis of many of our most prized theories of social science Structuring the State undertakes one of the first systematic comparisons of the two cases putting the origins of these nation states and the nature of European political development in new light Daniel Ziblatt begins his analysis with a striking puzzle Upon national unification why was Germany formed as a federal nation state and Italy as a unitary nation state He traces the diplomatic maneuverings and high political drama of national unification in nineteenth century Germany and Italy to refute the widely accepted notion that the two states structure stemmed exclusively from Machiavellian farsightedness on the part of militarily powerful political leaders Instead he demonstrates that Germany s and Italy s founding fathers were constrained by two very different pre unification patterns of institutional development In Germany a legacy of well developed sub national institutions provided the key building blocks of federalism In Italy these institutions absence doomed federalism This crucial difference in

the organization of local power still shapes debates about federalism in Italy and Germany today By exposing the source of this enduring contrast Structuring the State offers a broader theory of federalism s origins that will interest scholars and students of comparative politics state building international relations and European political history *Lotta al brigantaggio* Autori Vari,2024-07-30T16:20:00+02:00 Questo volume offre una lettura integrata del fenomeno del brigantaggio scaturita dal confronto tra storici del diritto delle istituzioni e storici tout court I contributi infatti pur nella loro estrema variet pongono in evidenza alcune questioni comuni a partire dalla centralit che il brigantaggio ha rappresentato nella storia italiana dal periodo rivoluzionario francese al processo di unificazione nazionale finendo con l intrecciarsi tanto alla questione meridionale quanto alla questione criminale che avrebbero caratterizzato il dibattito pubblico e politico dei primi decenni post unitari Fa poi da corollario l indagine sulla costruzione politica dell avversario e l analisi degli strumenti giuridici messi in atto per contrastare il dissenso prevenendolo e o reprimendolo **I prefetti italiani nella crisi dello Stato liberale** Marcello Saija,2001 **L'economia dei prefetti** Natascia Ridolfi,2012 Il pubblico impiego non privatizzato Franco Carinci,Vito Tenore,2007 *Classi dirigenti nell'Italia unita : tra gruppi e territori* Mario De Prosio,2022-10-03 Italiano Quest opera nasce a partire dagli interventi presentati nel corso del seminario di ricerca della Societ Italiana per lo Studio della Storia Contemporanea SISSCO dal titolo *Classi dirigenti e territori in et contemporanea* Asimmetrie tra centri e periferie continuit e discontinuit Il caso italiano 1861 2015 organizzato tra fine 2016 e inizio 2017 con il coordinamento del Centro di ricerca Guido Dorso per lo studio del pensiero meridionalistico di Avellino Il volume stato concepito come un opportunit per saggiare la vitalit di un settore specifico della storiografia relativa all Italia contemporanea quello degli studi dei vari segmenti della classe dirigente del nostro Paese dal Risorgimento ai nostri giorni attraverso un confronto diretto tra ricercatori con un attenzione alle peculiarit territoriali e alle fratture politico istituzionali vissute nel corso della vicenda unitaria Il lavoro offre al lettore un quadro ricco e variegato di ricerche sia per i differenti focus su territori e settori delle classi dirigenti italiane sia per i differenti approcci proposti e le tipologie di fonti utilizzate dagli autori English This work arises from the presentations held during the research seminar of the Italian Society for the Study of Contemporary History SISSCO titled *Ruling classes and spaces in the contemporary period* Asymmetries between centres and peripheries continuities and discontinuities The Italian case 1861 2015 organized between the end of 2016 and the beginning of 2017 and coordinated by the Centro di ricerca Guido Dorso per lo studio del pensiero meridionalistico The volume is conceived as a test for the vitality of a field of study of historiography on contemporary Italy that on the various sectors of the country s elite from Risorgimento to present days This effort has been made through direct discussion between scholars paying particular attention to the territorial diversities and the political and institutional changes The work offers a rich and multifaceted collection of essays focusing on different geographical areas and segments of the Italian ruling classes based on different methodological approaches and various sources Borghesia e potere civico a Reggio Emilia nella
