Aw L 17 We Made A Dragon Tch Ed:

Digital Immersive Art in China Xinyang Zhao, 2024-10-08 China has been stereotypically perceived as a place of backwardness. However, the 21st century has been a transitional period for China to express its cultural power. This book explores how digital technology, in particular virtual reality (VR) and augmented reality (AR), is playing a role in China's rejuvenation, especially in relation to cultural displays, performances, and art exhibitions. It examines how audiences both in China and globally respond to Digital China through digital immersive art. Drawing on the author's anthropological research and empirical studies on stakeholders and audience reception, this book provides a comprehensive understanding of the transformative power of digital technology and its impact on cultural experience in contemporary China. The reform of the cultural system over the past two decades in China has fostered a techno-cultural imaginary, mixed with the celebration of Chinese civilisation and advanced by digital technology and entrepreneurs. Such a hybrid imaginary influences how people view and consume digital immersive art. Much digital immersive art within China is thus viewed within the framework of modernisation, as the case studies in this book will show. Outside China, however, the dominant narrative of techno-orientalism prevails, constructing a different image of Digital China: a technocratic state.

EU and US Foreign Economic Policy Responses to China Joachim Schild, Dirk Schmidt, 2023-12-19 This book examines EU and US bilateral trade and investment relations with China, their attempts to level the economic playing field and to narrow the reciprocity gap in market openness. It explores the extent of EU and US policy change, the underlying factors accounting for this change, and compares EU and US foreign economic policy answers to an adversary increasingly perceived as an unfair economic competitor and as a systemic rival. The book covers a broad range of policy areas: from trade wars, trade defense instruments, their reform, and use, investment screening, and export control to industrial policies. It makes eclectic use of different strands of International Relations, International Political Economy, and Policy Analysis, theorizing to account for the extent of and differences in the EU and US responses. The People's Republic of China's stellar economic and political rise, combined with the resilience of its unfair trade practices, its reinforced authoritarian repression at home, and its ever more assertive foreign economic policy, has triggered a shift in perceptions of China, followed by equally profound policy change in the European Union and the US. This book expertly charts and explains this significant shift in stance. This book will be of key interest to scholars, students, and practitioners in the fields of EU trade policymaking, US foreign foreign economic policy, EU-China-US economic relations, European political economy, and more broadly to European studies, Asian studies, International Relations, International Political Economy, and transatlantic relations.

The

Compact Edition of the Oxford English Dictionary Sir James Augustus Henry Murray, 1971 Micrographic reproduction of the 13 volume Oxford English dictionary published in 1933 *Dinosaurs in Fantastic Fiction* Allen A. Debus, 2013-03-11 From the first illustrated edition of Jules Verne's *Journey to the Center of the Earth* in 1867 dinosaurs and prehistory have fascinated readers. Writers would time and again come back to dinosaurs as an element of fantastic fiction often using these creatures through the venue of the written word to reflect the world of the writers own time. This literary survey examines how paleoliterature originated, developed and matured to the present day. Also discussed are the ways in which dinosaur fiction mirrors contemporary ideas about subjects such as geology, the Cold War, environmentalism, time travel, evolution and bioengineering. Featured authors include Ray Bradbury, H. G. Wells and Poul Anderson among others. In select cases the novelizations of movie scripts are also examined. An appendix provides brief summaries of deserving dinosaur texts.
