Awakening Of Afrikaner Nationalism 1868:

The awakening of Afrikaner nationalism, 1868-1881 Floris Albertus van Jaarsveld, **The awakening of Afrikaner nationalism, 1868-1881**(*Die ontwaking van die Afrikaanse nasionale bewussyn*, engl. Transl. by F. R. Metrowich Floris Albertus van Jaarsveld, F. R. Metrowich, 1961 **The Creation of Tribalism in Southern Africa** Leroy

Vail, 1991-01-07 Despite a quarter century of nation building most African states are still driven by ethnic particularism commonly known as tribalism The stubborn persistence of tribal ideologies despite the profound changes associated with modernization has puzzled scholars and African leaders alike The bloody hostilities between the tribally oriented Zulu Inkhata movement and supporters of the African National Congress are but the most recent example of tribalism's tenacity The studies in this volume offer a new historical model for the growth and endurance of such ideologies in southern Africa

Afrikaner Politics in South Africa, 1934-1948 Newell M. Stultz, 2023-11-15 This book examines the political landscape of South Africa from 1934 to 1948 focusing on the ideological conflict between Afrikaner nationalism and policies aimed at conciliation between Afrikaners and English speaking South Africans The Union of South Africa founded in 1910 unified the country under a government heavily influenced by British principles but also included leaders from the former Boer republics Early South African politics became a struggle between two major political ideologies one that promoted Afrikaner nationalism advocating for Afrikaner cultural and political interests and another that supported conciliation a philosophy attempting to bridge ethnic divides and foster unity among white South Africans The book highlights that conciliation parties faced significant challenges in gaining long term Afrikaner support as they needed to balance competing interests between English speaking South Africans and Afrikaners who felt a strong sense of ethnic identity Afrikaner nationalist parties however did not need this balance and could draw on the deep seated solidarity within their community The critical turning point in this era according to the author was Prime Minister Jan Smuts decision in 1939 to align South Africa with Britain in declaring war on Germany This move alienated a large portion of the Afrikaner electorate who saw it as a violation of the South Africa first principle and contributed significantly to the United Party's waning support This estrangement between Afrikaners and conciliation parties the author argues set the stage for the rise of the National Party and their victory in 1948 which marked the start of apartheid While many observers attributed the Nationalist victory to the appeal of apartheid policies this study suggests that the National Party's success stemmed more fundamentally from the longstanding disillusionment with conciliation policies and the failure of conciliation leaders to create integrative solutions that resonated with both Afrikaners and English speaking South Africans This historical analysis sheds light on how ethnic divisions and unresolved political conflicts laid the groundwork for South Africa's mid 20th century shift toward Afrikaner dominated governance This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to

1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1974 **Afrikaner Political Thought: 1780-1850** André Du Toit, Hermann Giliomee, 1983-01-01 This the first volume of a projected trilogy is a collection with explanatory and critical comments of 140 key documents letters speeches manifestos reports petitions diary entries and newspaper editorials of Afrikaners over the period 1780 1850 **The Politics of Race, Class and Nationalism in Twentieth Century South Africa** S. Mark, Stanley Trapido, S. Marks, 2014-09-25 The standard of contribution is high the reader gets a good sense of the cutting edge of historical research African Affairs The Rise of Afrikanerdom T. Dunbar Moodie, 1975-01-01 **Contemporary Minority Nationalism** Michael Watson, 1990 Explores the political and socio economic circumstances surrounding minority nationalism and analyses its successes and failures in recent years **Africa in the Nineteenth Century Until the 1880s** J. F. Ade Ajayi, 1998 Covers the major forces at work in African society at the beginning of the 19th century until the onset of the European scramble for colonial territory in the 1880s This study also looks at Africa s changing role in the world economy and the effects of the abolition of the slave trade The series is co published in Africa with seven publishers in the United States and Canada by the University of California Press and in association with the UNESCO Press **Ethnic Nationalism and State Power** M. Suzman, 2016-01-18 This controversial book rejects the view that the growth of Irish nationalism Afrikaner nationalism and Zionism was due primarily to issues of race religion or language Instead drawing on a new analytical framework and close historical analysis it shows how their ultimate success was the result of political economic and organisational factors conditioned by sustained conflict with the existing state and other ethnic groups **From Memory to Marble** Elizabeth Rankin, Rolf Michael Schneider, 2020-02-10 For the first time the 92 metre frieze of the Voortrekker Monument in Pretoria one of the largest historical narratives in marble has been made the subject of a book The pictorial narrative of the Boer pioneers who conquered South Africa s interior during the Great Trek 1835 52 represents a crucial period of South Africa s past Conceptualising the frieze both reflected on and contributed to the country s socio political debates in the 1930s and 1940s when it was made The book considers the active role the Monument played in the rise of Afrikaner nationalism and the development of apartheid as well as its place in post apartheid heritage The frieze is unique in that it provides rare evidence of the complex processes followed in creating a major monument Based on unpublished documents drawings and models these processes are unfolded step by step from the earliest discussions of the purpose and content of the frieze through all the stages of its design to its shipping to post war Italy to be copied into marble from Monte Altissimo up to its final installation in the Monument The book examines how visual representation transforms historical memory in what it chooses to recount and the forms in which it is depicted The second volume expands on the first by investigating each of the twenty seven scenes of the frieze in depth providing new insights into not only the frieze but also South Africa s history Fran ois van Schalkwyk of African Minds co publisher with De Gruyter writes From Memory to Marble

is an open access monograph in the true sense of the word Both volumes of the digital version of the book are available in full and free of charge from the date of publication This approach to publishing democratises access to the latest scholarly publications across the globe At the same time a book such as *From Memory to Marble* with its unique and exquisite photographs of the frieze as well as its wealth of reproduced archival materials demands reception of a more traditional kind that is on the printed page For this reason the book is likewise available in print as two separate volumes The printed and digital books should not be seen as separate incarnations each brings its own advantages working together to extend the reach and utility of *From Memory to Marble* to a range of interested readers For more material you can browse at Stanford's database Voortrekker Monumentality a digital archive

Fascism: The 'fascist epoch' Roger Griffin, Matthew Feldman, 2004 The nature of fascism has been hotly contested by scholars since the term was first coined by Mussolini in 1919 However for the first time since Italian fascism appeared there is now a significant degree of consensus amongst scholars about how to approach the generic term namely as a revolutionary form of ultra nationalism Seen from this perspective all forms of fascism have three common features anticonservatism a myth of ethnic or national renewal and a conception of a nation in crisis This collection includes articles that show this new consensus which is inevitably contested as well as making available material which relates to aspects of fascism independently of any sort of consensus and also covering fascism of the inter and post war periods This is a comprehensive selection of texts reflecting both the extreme multi faceted nature of fascism as a phenomenon and the extraordinary divergence of interpretations of fascism

A History of South Africa Leonard Thompson, 2014-04-29 A magisterial history of South Africa from the earliest known human inhabitation of the region to the present Lynn Berat updates this classic text with a new chapter chronicling the first presidential term of Mbeki and ending with the celebrations of the centenary of South Africa's ruling African National Congress in January 2012 A history that is both accurate and authentic written in a delightful literary style Archbishop Desmond Tutu Should become the standard general text for South African history Recommended for college classes and anyone interested in obtaining a historical framework in which to place events occurring in South Africa today Roger B Beck History Reviews of New Books

South Africa and the World Amry Vandenbosch, 2021-09-15 In this first comprehensive study of the foreign policy of South Africa Amry Vandenbosch focuses attention not only on some of the major problems of a white dominated African country but also in wider scope on three of the chief issues of mid twentieth century colonialism race relations and collective security South Africa has inaugurated an outward looking policy Its relative strength among the African nations combined with the domestic difficulties experienced by those weaker nations has caused Pan Africanism to lose much of its force and has enabled South Africa to exert even more vigorous leadership on the continent particularly south of the Sahara South Africa nevertheless faces many problems and its outward looking policy has met with rather

limited success Faced with all its difficulties dead end roads and a strong world opinion condemnatory of apartheid Vandenbosch argues South African whites must begin to doubt the wisdom of their racial policy and come to accept the idea of its modification

Class, Caste and Color Wilmot James, 2017-09-29 This volume is the first general social and economic history of the Western Cape of South Africa Until recently this region had been largely neglected by historians because it does not occupy a central place in the national political economy Wilmot G James and Mary Simons argue that a great deal about modern South Africa has been shaped by the distinctive society and economy of the Western Cape Its history also reveals striking parallels and contrasts with other regions of the African continent The Western Cape is the only region of South Africa to have experienced slavery In this sense the Western Cape has historical traditions more akin to colonial slave societies of the Americas than to those of the rest of Africa Moreover in contrast to the rest of South Africa a proletariat emerged in the Western Cape early in its history at the start of the eighteenth century There developed a much more stable and enduring system of class and labor relations In the twentieth century these became closely enmeshed with race and status Racial paternalism and the close correlation between class caste and color have their historical roots in the Western Cape The book is arranged thematically and explores the social and economic consequences of slavery and emancipation in the eighteenth and nineteenth centuries Issues of economy and labor such as economic underdevelopment in the Western Cape the labor market and trade union organization in the twentieth century are examined The authors also treat the role of the state in shaping Western Cape society **Class, Caste and Color** is not only a groundbreaking work in the study of South Africa but provides an agenda for future researchers It will be essential reading for historians economists and Africa area specialists

The Angry Divide Wilmot Godfrey James, Mary Simons, 1989 **Mourning Become...** Liz Stanley, 2006-10-17 This work demonstrates that much of what we have traditionally understood about concentration camps run by the British during the South African War originates with the testimony solicited from Boer proto nationalist circles Using detailed archival evidence Stanley shows that much of the history of the camps results from a deliberate imposition of post memory a process by which memory shapes and supports a racialized nationalist framework **Gordian Knot** Ryan M. Irwin, 2012-09-07 **Gordian Knot** explores how African decolonization remade the international order of the mid twentieth century In looking closely at the apartheid debate the book shows the way South Africa's policies shaped the global conversation about rights and race and eroded Washington's influence at the United Nations **Nationalism in a Global Era** Mitchell Young, Eric Zuelow, Andreas Sturm, 2007-03-07 This volume makes a unique contribution to the literature on nations and nationalism by examining why nations remain a vibrant and strong social cohesive despite the threat of globalization Regardless of predictions forecasting the demise of the nation state in the global era the nation persists as an important source of identity community and collective memory for most of the world's population More than simply a corrective to the many scholarly but premature epitaphs for the nation state this book explains the continued health of

nations in the face of looming threats The contributors include leading experts in the field such as Anthony D Smith William Safran Edward Tiryakian as well as younger scholars whom adopt a variety of approaches ranging from theoretical to empirical and historical to sociological in order to uncover both the reasons that nations continue to remain vital and the mechanisms that help perpetuate them The book includes case studies on Ireland Thailand Poland the Baltic States Croatia and Jordan Nationalism in a Global Era will be of great interest to students and researchers of international politics sociology nationalism and ethnicity
