An Awakened Life Christopher Titmuss, 2010-10-31 In an awakened life, our hearts are open, steady, and purposeful. Most people today have a greater income, as well as more goods and labour-saving devices, than any other generation in history. Yet stress, discontent, personal and social problems abound. Drawing on the deepest discoveries of the Buddhist tradition, well-known retreat master Christopher Titmuss suggests we spend far too much time in superficial preoccupations and not enough in looking deeply into things. He urges us to fearlessly transform the forces of desire and dissatisfaction that haunt our daily lives and to awaken to the immeasurable. Inspired by the 20th-century classic *Zen Mind, Beginner's Mind*, he gives practical advice on such subjects as understanding our feelings, taking risks, becoming more detached, and rediscovering our true selves. And he shows us how to have free, fulfilled, and uninhibited lives amidst the frenzy of everyday activity.

How to Create an Extraordinary Life for Yourself Richard Franza, 2023-05-28 This one particular book has the potential to become one of the most important books that you will ever read. I now boldly state this claim with absolute confidence because in this book, there is an immense amount of vital information. Not only are there numerous topics with brief explanations in this book, but also there are numerous actual hands-on techniques that can be easily practiced. If this immense amount of vital information is properly utilized, there should be no reason why anyone can't create an extraordinary life for themselves. I now challenge you to read this book in its entirety at least once and determine for yourself if what I am now boldly claiming is of truth or not.

Spiritual Awakening and Enlightenment Guy Berchik,2023-11-14 Enlightenment or Spiritual awakening is a psychological phenomenon where something of the mind develops awakens and unifies and something else of the mind drops off or surrenders Some desire spiritual awakening very directly and indeed very intensely but it is very difficult to achieve because spiritual enlightenment is something that happens rather than something that we do And on the other hand spiritual awakening does not really happen by itself There is always some preparation for some time in whatever form Some develop

intensity through the development of deep understanding that later leads to more intense curiosity that ultimately leads to seeing through the obstacles of the mind and then a profound surrender occurs as a permanent state of being Others develop intensity through desire and developing powerful emotions that may lead to the higher awakened state where the heart blissfully awakens and unites with consciousness And still others develop intensity through the proper use of suffering where suddenly they find themselves transformed into awakened conscious beings This short book describes what happens in the actual experience of spiritual awakening and how to prepare and thus speed up the process The book also discusses the profound benefits of enlightenment powers associated with mind development healing oneself accomplishing in life and how to prepare for life after death
